This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Eclipses of Jupiter's Satellites.

The Eclipses of Jupiter's Satellites have been carefully calculated and the times of their disappearance and reappearance set down in the National Ephemeris. They are useful in furnishing local time where the longitude is known, or the longitude where correct local time is known. In the following table are given the phases of the eclipses visible here, with the Washington mean time of their occurrence. Between conjunction and opposition the shadow of Jupiter lies to the west or right of the planet (by direct vision), where the phenomena should be looked for. After opposition the satellites disappear, and reappear on the east or left-hand side of the planet.

TEXT OF THE FISHERIES AWARD AT HALIFAX, NOVEMBER 23, 1877.

The undersigned, Commissioners appointed under Articles XXII and XXIII of the Treaty of Washington, of the 8th of May, 1871, to determine having regard to the privileges accorded by the United States to the subjects of Her Britannic Majesty, as stated in Articles XIX and XXI of said treaty, the amount of any compensation which in their opinion ought to be paid by the Government of the United States to the Government of Her Britannic Majesty in return for the privileges accorded to the citizens of the United States, under Article XVIII of the said treaty—having carefully and impartially examined the matters referred to them, according to justice and equity, in conformity with the solemn declaration made and subscribed by them on the 15th day of June, 1877,

Commissioner.

PARTY PLATFORMS, 1878.

Connecticut Republican.

[Adopted September 23.]

* * * That the bonds of the United States and the legal-tender notes issued under the necessities of the war, are sacred debts to be paid to the last dollar in the standard money of the world; that the only money recognized in the Constitution or in the exchange of the world is gold and silver coin of the weight and fineness which give it universal currency; and we demand that all currency shall be redeemable in coin at the will of the holder, and that both coin and currency shall be kept at par with the gold standard of the world.

That the issue of legal-tender notes was only justifiable by the necessities of the war, and that any attempt to lower the standard of money, to increase the volume of irredeemable paper currency, to make the money of the people unstable, or to deteriorate the coin, is simply repudiation, and that we declare that a reissue of legal-tender paper in a time of profound peace would be without excuse and a gross violation of the Constitution of the United States, and therefore we demand actual resumption of specie payments at the time fixed by law, and that Congress shall do no act to delay it, but shall leave the country free in its reviving prosperity. * * *

Connecticut Democratic.

[Adopted September 17.]

That the Constitution of the United States recognizes gold and silver as the standard money of the Union; and this standard is the most stable basis for the commercial necessities of the world. The Democratic party of the Union has never failed to recognize and support this essential principle. A great and costly war, and Republican financial fraud and corruption, brought an irredeemable currency, under which prices of every commodity have fluctuated, industrial interests have suffered, labor has been deprived of its just reward, and many business men brought to bankruptcy; but the laws of trade, with a large balance of foreign exchange in favor of this country, have brought us to the door of a redeemable currency and a sound basis for an improved and prosperous state of affairs, which will place the creditors and debtors of the Government on the same financial plane.

That the Resumption Act, so called, was in its inception unwise, uncalled for, and not demanded at the time of its enaction by

those laws of trade which govern with unerring certainty the finances of a country; and having confidence in the Senators and Representatives of this State in the Congress of the United States, we unhesitatingly rely upon their integrity and judgment, believing that they will be controlled in their action upon the question of resumption by those well-known principles which underlie the necessities of commerce and the best interests of the people of this State.

We condemn all repudiation, and demand an honest and just payment of the public debt. We denounce the financial policy of the Republican Administration as the direct and shortest way to universal bankruptcy and total repudiation. We declare whatever currency is issued should be for the benefit of the whole people. * * *

Delaware Democratic.

[Adopted August 6.]

* * * That in accordance with the time-honored and Constitutional faith of the Democratic party, we hold that the only honest and lawful money of the people of the United States is gold and silver coin, or a paper currency convertible into such coin at the will of the holder.

Indiana Republican.

[Adopted June 5.]

The Republicans of Indiana, in convention assembled, make the following declaration of principles:

The maintenance of the great principles of the Republican party is essential to the peace, permanency and prosperity of the Nation: the right of the people to meet together and discuss grievances to be jealously guarded and maintained, but determined opposition to lawlessness, or to any resort to force and violence as subversive of the public peace, injurious to public morals, and destructive to the rights and interests of all classes; equal rights before the law, and equal protection under the law, without regard to race, creed, condition or occupation; no exclusive privileges to individuals or classes; * * * the common school system to be cherished and perfected, and to that end the school fund should not be diverted to sectarian purposes; * * * a Constitutional amendment providing for strict registration and election laws; * * * American industries to be encouraged and fostered by such legislation as will develop the material resources of the country and give full measure of employment and reward to labor; opposition to repudiation in all its forms; the honor and credit of the Nation to be maintained in every contingency; no abandonment of greenbacks or depreciation of greenback currency; a sound and stable currency of gold, silver and paper of the same value; National legislation authorizing the receipt of greenbacks at par in payment of customs and in purchase of Government bonds; opposition to further financial agitation, stability in our finance system being essential to business prosperity.

Indiana Democratic.

[Adopted July 20.]

That we demand that the National bank notes shall be retired, and in lieu thereof shall be issued by the Government an equal amount of Treasury notes with full legal-tender quality; that we are in favor of making United States notes, commonly called greenbacks, a full legal-tender, in payment of all debts, public and private, except such obligations only as are by the terms of the original contract under which they were issued expressly payable in coin; that the right to issue paper money as well as coin is the exclusive prerogative of the Government, and such money should be issued in such amount as the sound business interests of the country may from time to time require.

That we are in favor of such legislation by Congress as will authorize the taxation by the States of United States notes in common with all other money.

That we deem it unwise and inexpedient to enact any further legislation for the funding of the National debt abroad, through the means of home syndicates or other methods, and we believe the true policy of the Government and the best interests of the people would be subserved by legislation so as to distribute said debt among our people at home, affording them most favorable and practical opportunities for the investment of their savings in the funded debt of the United States. * * *

That we demand the restoration of the silver dollar of 412½ grains to the country, and with full legal-tender quality, in payment of all debts, both public and private, and that the coinage thereof shall be unlimited, and upon the same terms as may be provided for the coinage of gold.

That we are in favor of the immediate and unconditional repeal of the Resumption Act. * * *

That the Democratic party is the friend of the common school system, and will in every legitimate way labor for its success, and will oppose any attempt to divert any portion of the common school fund to any sectarian purpose.

Louisiana Democratic.

[Adopted August 6.]

The Louisiana Democracy demand that the National banking system be abolished and National bank notes retired, and in lieu thereof that the Government of the United States issue an equal amount of Treasury notes, commonly known as greenbacks. We also demand the unconditional repeal of laws imposing a tax upon the circulation of State banks. We demand, also, the immediate and unconditional repeal of the Resumption Act, and are unalterably opposed to the ruinous policy pursued by the Republican party, whereby the volume of currency has been contracted far below the business requirements of the country, and failures, depression of business, scarcity of labor and pauper wages have been entailed. That it is the sense of this convention that all the bonds and obligations of the National Government should be paid in legal-tender greenback notes of the United States, except where it is otherwise provided in the original law under which they were issued. We further demand the repeal of all laws passed subsequent to the original law creating the public debt, by which obligations of contract have been made more onerous.

Maine Republican.

[Adopted July 30.]

* * * The Constitution of the United States declares that the citizens of each State are entitled to all privileges and immunities of citizens in the several States, and we hold it to be a primary and sacred duty of the National Government to protect and maintain the exercise of all these civil, political and public rights by every citizen of the United States. As Republicans we are solemnly pledged to maintain these principles, and until they are cheerfully obeyed, and, if need be, vigorously enforced, the work of the Republican party is unfinished.

The Republican party is committed to unremitting efforts, not only to secure the legitimate results of the war—the sovereignty of the Union, the equal rights of all citizens, and free and untrammelled rights of suffrage—but also to redeem the pledges which the Government made to those who furnished means or gave their services to save the Union, whether these pledges are in the form of bonds or greenback notes. We insist that both forms of the debt of the Nation shall be paid with the same fairness and integrity with which an honest man seeks to pay his individual debts.

We demand honest money for the people. Our currency must be made as good as coin and redeemable in it. The Government promised this. The Republican party has legislated to perform it, and in the course of resumption it is now nearly accomplished. There must be no steps sideways or backward. * * *

Maine Democratic.

[Adopted June 18.]

We demand the payment of the bonded debt of the United States as rapidly as practicable. No further issue of Government bonds, whereby equal taxation with the other property of the country is avoided. We are opposed to an irredeemable currency, but believe in a currency for the Government and people, the laborer and office-holder, the pensioner and soldier, the producer and the bondholder. We are opposed to the present National banking system, and in favor of the gradual substitution of greenbacks for National bank bills.

Massachusetts Republican.

[Adopted September 18.]

* * * That the Republican party is committed to the maintenance of the National credit and the keeping of the public faith with all creditors of the Nation. We rejoice that the resumption of specie payments has been so nearly accomplished. We insist that all lawful means shall be taken to insure such resumption within the time fixed and by law; that all paper currency shall be redeemable in coin at the will of the holder, and that both coin and currency shall be kept at all times at par with the gold standard of the commercial world. We believe that the American people are too honest wantonly to violate their pledges; are too intelligent to attempt to use as money anything which has neither value in itself nor represents value; and have too much regard for their honor and prosperity to prefer unredeemed and irredeemable promises instead of money which shall pass current at its full face value in every market of the world.

That the refunding of the National debt at a lower rate of interest should be carried forward as rapidly as is possible; that the strictest economy in expenditures should be used and the industries of the country relieved from taxation, so far as honor, good faith and necessity will permit; that the civil administration should be maintained in its honest and efficiency by the Executive Department, which should take the responsibility which belongs to it, of making nominations to office without dictation or control from other departments of the Government, and should in the exercise of this power use the same care and good judgment and demand the same fidelity and devotion to duty that are required in the management of important business affairs, and we will cordially support every measure which shall be needed to raise the civil service to the high plane of honesty and efficiency demanded by the Cincinnati platform and the President's letter of acceptance. * * *

That the Commonwealth of Massachusetts has prospered for more than two centuries because her citizens have believed that the interest of each is the interest of all, and have labored together for the common weal, and when this union of interest and action which has endured through seasons of depression and disaster ceases, her prosperity must cease also. They who would foment discord by falsely teaching that our community is composed of hostile classes whose interests are antagonistic, are public enemies whose defeat is essential to the public welfare, and should be accomplished by the united efforts of all honest men.

That the success of the bold attempt to place an open repudiator in the Executive chair of this renowned Commonwealth would be an announcement to the world that for the first time in her history Massachusetts wavers in her devotion to honest finance, and is indifferent to the sacredness of public faith. * * *

Massachusetts Democratic.

[Adopted September 25.]

* * * The scheme initiated and carried into effect by the Republican party of providing a paper currency not redeemable in coin, and compelling the people to receive the same in payment of debts, is without authority of the Constitution. Congress has no power to make anything, unless it be gold and silver, legal-tender. Whatever power it may have to authorize the issue of notes to circulate as money, whether issued directly from the Treasury, or indirectly through the banks, should be exercised only subject to certain restrictions: 1. That no executive office of the Government should have discretion to enlarge or control the volume of currency. 2. That the total amount of currency authorized should be fixed by law. 3. That whatever that amount, it should be one that shall at every moment be redeemable in coin. 4. That all coins of the same denomination shall be as nearly as possible of equal value. 5. That whatever currency is issued by the Government shall be receivable by the Government in payment of public dues at its face value.

* * * The Democrats of Massachusetts renew their demand for the extending of the right of suffrage to all citizens of the United States, residents of Massachusetts, without restriction by Constitutional or legal enact-

ments. Prepayment of a poll tax as a qualification for voting is in violation of every principle of equal rights, and ought no longer to be required; and while we favor all reasonable regulations to protect the purity of the ballot, we declare that the laws passed by Republican Legislatures in recent years, tending to hinder and obstruct the most simple exercise of the elective franchise by our citizens, deserve the condemnation of all lovers of true liberty and free suffrage.

Massachusetts Independent Greenback

[Adopted September 11.]

* * * That we demand the immediate repeal of the Resumption Act, so that the periodical carnivals of bankruptcy may forever come to an end, and that our National wealth be made the fixed and reliable foundation of our monetary system, forever banishing from America the idiotic propositions of making commodities of shifting values and articles of merchandise like gold and silver, a basis for money—a basis that ever has, as in 1813, 1831 and 1857, and ever must, periodically slip out from under such a monetary system, thereby destroying it, and plunging the country into ruin and bankruptcy; a basis that even England has never been able to maintain for any great length of time, although she is the creditor nation of the world.

That the United States shall never issue any more interest-bearing bonds unless the same are authorized by a direct vote of the people, and those issued during the war of the rebellion shall be paid as fast as they mature, according to the terms of the contract which authorized and created that indebtedness of the people; and what that contract is shall be submitted to the decision of the Supreme Court of the United States, and that all subsequent acts which impair and change the original contract are hereby denounced as creatures of corruption and repudiation that must be repealed.

That the Labor Bureau should be sustained, its field of operation enlarged, and its officers selected from those engaged in industrial pursuits and having the confidence of the industrial classes of the Commonwealth for the purpose of obtaining reliable statistics upon which to form a basis for intelligent legislation on labor questions, especially with regard to the hours of labor, which should be reduced in proportion as the use of machinery increases, and in conformity with other causes which throw wage-workers out of employment.

That land of equal productive capacity shall be subject to equal taxation, whether cultivated or not, to the end that the land monopolists in the future may be held in check, and that the public domain may be preserved to the actual tiller of the soil * * *

New-York Republican.

[Adopted September 26.]

The Republicans of New-York, appealing to twenty years of struggles and triumphs as the proof of Republican patriotism and fidelity, and meeting the high demands of the hour in the same unfaltering spirit which saved the Union and established it on the firm foundations of freedom, make the following declarations:

The faith of the Nation is sacredly pledged to the payment of the public debt and the redemption of the public promises, according to the letter and the spirit of the engagement; and our good name and well-being require that the Nation's honor shall be kept as inviolate as the Nation's life.

Under the management of succeeding Republican administrations the country has advanced to the point of specie resumption, and the highest interests of business no less than the plighted faith of the Republic demand that there shall be no step backward and no postponement. With this steady progress we hail the auspicious signs of reviving trade and industry, and congratulate the people upon this practical evidence that if the good work shall be completed, the depression which grew out of the financial disorders forced upon us by the war of rebellion will give place to the returning confidence and permanent prosperity which can rest alone on the fixed monetary standard of the commerical world—on settled values and full security and certainty for the future.

Standing unalterably for the Constitutional principles of hard money, we insist that the greenback, instead of being dishonored and depreciated, shall be made as good as honest coin; that labor's dollar shall mean a real dollar; that the fluctuations and uncertainties which rob toil and paralyze trade shall cease; that our currency shall be made the best currency, by making all parts of it, whether paper or coin, equivalent, convertible, secure and steady; and all public servants, whether executive officers, Senators or Representatives, whose acts or votes conduce to this high object, deserve our approbation.

The Electoral Commission was a wise and honorable mode of settling a dangerous dispute. All parties were bound to abide its decision, and any attempt to undo or impair the conclusion it established is unpatriotic and revolutionary.

While sincerely seeking fraternal union in all just efforts and aspirations, we summon the people to renewed vigilance and unflinching warfare against the vast horde of claims and raids on the Treasury, which count for success on Democratic rule under the mastery of a solid South, and which would fall with special hardship on New-York, as the chief taxpaying State in the Union.

We demand free and unintimidated elections in the South as in the North, and the full recognition and observance of the equal rights and liberty of all citizens, as ordained by the amended Constitution; and until they shall be secured, the work of the Republican party will be unfinished.

We renew our declarations for the elevation of the public service on the basis of a secure tenure during the faithful performance of official duties for a fixed term, for the pure, frugal and efficient administration of National, State and local affairs, for unyielding resistance to any further land grants or subsidies to corporations or monopolies, for the grateful recognition of the brave soldiers and sailors of the Republic, and for common schools free from sectarian influence and unmenaced by sectarian appropriations.

While recognizing with satisfaction that many patriotic Democrats do not share its spirit and impulses, we arraign the dominant forces of the Democratic party as the constant disturber of the public tranquillity and confidence; as the wanton foe of publi

security in its persistent assaults upon the authority and stability of the established Government; as attempting to weaken the Nation by crippling the Army in a time of uncertainty and danger; as guilty of false pretences in claiming for the Democratic House a reduction in public expenditures, whose fraudulent character is proved by the necessity for heavy deficiency bills; as dependent on a solid South, and thereby subservient to all its demands; as aggravating the troubles of the country by mischievous agitation throughout the period of its supremacy in the House of Representatives; as faithless to the obligations of National honor, and the chief support of the wild schemes of inflation, repudiation and utter financial disorders which imperil public credit and business security; and its further or greater success would be a National calamity.

An emergency in the history of the country, second only to the great struggle for its existence, now confronts us. As then the Republican party was the sole organized political protection against National disruption, and patriotic citizens of whatever party names rallied under its standard for the defence of the Union, so now the Republican organization is the only efficient bulwark against National repudiation and disgrace. And it again invites all good citizens of whatever previous political ties to unite with it in preserving the National honor. To all Republicans this great exigency especially appeals to rise to its high obligations and join heart and hand for the triumph of those vital principles upon which the security and welfare of the Republic depend.

New-York Democratic.

[Adopted September 25.]

The Democratic party of the State of New-York reaffirms the following principles set forth in its platform adopted in 1874 and in 1877 and indorsed by a large majority of the people of this State:

Gold and silver coin and paper convertible into coin at the will of the holder, the only currency of the country; steady steps toward specie payments; the honest payment of the public debt. We congratulate the State and country upon the practical relative value of this greenback currency of the Government with gold and silver—the preservation of the public faith; a tariff for revenue; no Government partnership with protected monopolies; home rule, to limit and localize most jealously the powers intrusted to public servants, whether municipal, State or Federal; no centralization; equal and exact justice to all men; no partial legislation; no partial taxation; official accountability, rigidly enforced by all civil and criminal remedies; no private use of funds by public officers; corporations chartered by the State always subject to State supervision in the interest of the people; the party in power responsible for all legislation while in power; economy in public expenditure, that labor may be lightly burdened and the laborer fully paid for his work; uniform and equitable Excise laws; no sumptuary laws.

That the provisions of the State Constitution are mandatory in regard to the apportionment of the members of the Senate and Assembly; and the failure of the Republican party, for three successive years after the taking of the census, to so apportion the State is a grave crime against the people and a dishonest and infamous refusal to obey the plain directions of the fundamental law.

That by an infamous conspiracy of force and fraud the high officials and unrepudiated leaders of the Republican party annulled and reversed the Nation's choice for the Presidency, and put a defeated candidate in the chair of Washington, and cheated the people of that reform of the Federal Government which their ballots had demanded and ordained; and it is the stern resolve of the American people that such a fraud has been perpetrated for the last time.

That we point with pride to the honest, just and economical administration of Governor Robinson and our other Democratic State officers, and in the name of the Democratic party of the State of New-York we cordially and earnestly approve and indorse the same.

Ohio Republican.

[Adopted June 12.]

* * * The financial question having been disposed of by Congress, and the country at present needing repose in order that capital may seek investment, and that industries may revive, thus increasing the demand for labor, the situation ought to be accepted; and we oppose the further agitation of the question at this time as injurious to business and devoid of other than evil results. * * *

A tariff for revenue should be maintained and so adjusted as to secure incidental protection to home industry.

Ohio Democratic.

[Adopted June 26.]

Resolved, The commercial and industrial stagnation that has so long prevailed throughout the country, and the consequent and widespread suffering, is due directly to the pernicious financial legislation of the Republican party, which we hereby arraign for its acts, and charge:

1. That at a time when the country was weighted down with debt created on the basis of a full volume of paper added to both the precious metals as money, it enacted a sweeping change in the measures of value, wholly in the interest of moneyed capital, by demonetizing silver and decreeing the destruction of legal-tender paper, and thereby wrongfully added in effect hundreds of millions to the burden of debt and taxes upon the people.

2. By pursuing its merciless policy of contracting the paper currency and hoarding gold it has increased the value of money and securities that partake of the enhancement of money, and decreased the value of all other property, and especially of capital designed for productive use and required for the employment of labor, thus repressing instead of fostering industry, compelling idleness instead of sustaining trade and commerce.

And now this party in Ohio puts forward in its platform the declaration that the financial question has been settled. We deny this declaration, and while we congratulate the country that the downward course to bankruptcy and ruin involved in

the Republican policy has been partially avoided by the Democratic measures, passed at the late session of Congress, restoring the debt-paying power to silver dollars, made law in spite of a Presidential veto, and stopping the further destruction of greenbacks, we demand as further acts of justice, as well as measures of relief, the absolute repeal of the Resumption Act, and lawful liberation of the coin hoarded in the Treasury: the removal of all restrictions to the coinage of silver, and the reëstablishment of silver as a money metal, the same as gold—the same as it was before its fraudulent demonetization; the gradual substitution of United States legal-tender paper for National bank notes, and its permanent establishment as the sole paper money of the country, made receivable for all dues to the Government, and of equal tender with coin: the amount of such issues to be so regulated by legislation or organic law as to give the people assurance of stability in the volume of currency, and the consequent stability of the value: no further increase in the bonded debt, and no further sale of bonds for the purchase of coin for resumption purposes, but the gradual extinction of the public debt; rigid economy; the reduction of expenditures in all branches of the public service, and a tariff for revenue only.

Pennsylvania Republican.

[Adopted May 15.]

That it is uncompromisingly opposed to free trade, in whatever disguise presented, unchangingly devoted to home industry, and hereby avows its special and direct hostility to the Tariff bill now pending in Congress, the same being in the interest of importers and foreign manufacturers, and in opposition to American labor. * * *

That the Southern Republicans, white and colored, have our earnest sympathy in the unequal contest to which they are subjected for civil liberty and the maintenance of their constitutional privileges, and that in the interest of their guaranteed rights we demand from the General Government for them an equal and fair ballot, and that equality before the law which should be the basis of every government. * * *

Pennsylvania Democratic.

[Adopted May 23.]

That further contraction of the volume of United States legal-tender notes is unwise and unnecessary. They should be received for customs duties and reissued as fast as received. Gold, silver, and United States legal-tender notes at par therewith are a just basis for paper circulation. A close connection of the Federal Government with the business interests of the people through National banks tends to monopoly and centralization, but in changing the system, uniformity of notes, security of the noteholders, and protection of the capital invested, should be provided for. Treasury notes issued in exchange for bonds bearing a low rate of interest is the best form in which the credit of the Government can be given to paper currency. Labor and capital have equal demands upon and equal responsibilities to law. Commerce and manufactures should be encouraged so that steady employment and fair wages may be yielded to labor, while safety of investment and moderate return for its use belong to capital. Violence or breaches of order in support of the real or supposed rights of either should be promptly suppressed by the strong arm of the law.

The Republican party by its legislation in 1872, which reduced the tariff upon bituminous coal from $1 25 to 75 cents per ton; and upon iron, steel, wool, metals, paper, glass, leather, and all manufactures of each of them, 10 per cent, struck a fatal blow at the industries and labor of Pennsylvania. * * *

Our public debt should be held at home, and the bonds representing it ought to be of small denominations, in which the savings of the masses may be safely invested. * * *

Tennessee Democratic.

[Adopted August 15.]

We demand that the military shall be subordinate to the civil authority in fact as well as in theory; the repeal of laws which have destroyed our commerce; the repeal of the declaration that the currency bonds of the Government shall be paid in coin, and the payment in Treasury notes of so much of said bonds as may be found due after deducting the difference between the value of the gold paid and the currency due thereon according to contract; the unconditional repeal of the Resumption Act; that the odious National banking act be repealed, and greenbacks be substituted for the circulation of the National banks; that Treasury notes be made receivable for all Government dues; that no more interest-bearing bonds be issued; that all loans required by the Government be raised by the issuance of non-interest-bearing Treasury notes; that the coinage of silver be made unlimited, and while it is the cheaper metal, that it be paid to the public creditor exclusively upon all bonds justly payable in coin; that the value of all silver coins be regulated, and that they be made receivable for all Government dues and be recoined by the Government and paid out to its creditors; the repeal of the laws which deny the people of several States the right to determine for themselves whether they will authorize banks or not; that capital in every form be required to bear the burdens of Government equally with labor and production; that the present financial policy of the Government to contract the circulation of Treasury notes, disparage silver, magnify gold and National bank notes, be reversed, and every legitimate mode adopted to level the volume of our currency with silver and Treasury notes.

Texas Democratic.

[Adopted July —.]

* * * We demand, as further acts of justice as well as measures of relief, the repeal of the Resumption Act, the lawful liberation of the coin hoarded in the Treasury, the removal of all restrictions to the coinage of silver, fraudulently demonetized, the substitution of United States legal-tender for National bank notes, and its permanent reëstablishment as the sole paper money of the country, made receivable for all dues to the Government and of equal tender with coin, the amount of such issue to be regulated by legislative or organic law, so as to give to the people an assurance of sufficiency and sta-

bility in the volume of the currency and consequent stability of value. No further increase in the bonded debt; no further sale of bonds for the purchase of coin for resumption purposes, but a gradual reduction of the public debt by payment according to the original contract by which it was created; a rigid economy in all branches of the public service, and a tariff for revenue only.

We favor one currency for the Government and the people, the laborer and the office holder, the pensioner and the soldier, the producer and the bondholder.

We hold that the right of the States to tax property in the States is inviolable, and that United States bonds should bear the burden of Government equally with all other property, and any legislation that exempts said bonds from taxation is unjust and oppressive.

We declare that all bonds and obligations of the National Government ought to be paid in legal-tender notes of the United States, except where it is otherwise provided by the original law under which they were issued; and all that can be called in and paid now should be paid at once, and the remainder as soon as it can be lawfully done.

Wisconsin Republican.

[Adopted August 1.]

* * * We rejoice at the prospects of the resumption of specie payments by the close of the present year. A stable, non-fluctuating currency, possessing intrinsic value—coin, or gold, or silver, at the pleasure of the holder—is the only secure foundation of permanent business prosperity. Such a currency will impart that steadiness to prices which is an essential condition for the successful prosecution of legitimate industry and enterprise, and is equally demanded by the true interests of the laborer and the business man and the capitalist.

The value of all paper currency, whether issued by the Government or by the banks, consists in the promise it bears of payment, and in the degree of credit attached to that promise. If it cannot be converted at pleasure into currency of intrinsic value, it cannot remain at par, and its depreciation will be in proportion to the prospects of its being convertible within a longer or shorter period. The printed bits of paper which some wild theorists propose to employ as currency, and which they term "absolute money," containing no promise of payment and no intrinsic value, would soon become absolute in one respect only. They would be absolutely worthless. This and other chimerical projects by which it is proposed to find a cheap and worthless substitute for the measure of value accepted and employed by the civilized world are based upon delusion, if not dishonesty, and if adopted would result in disaster and shame. We hold it to be the duty of Republicans and all good citizens to oppose with uncompromising firmness all those mischievous theories, as well as the cognate doctrines of Communism and Internationalism, which menace society, individual liberty and the accumulated savings of industry. * * *

National Platform of the Greenback Party.

[Adopted at Toledo, Ohio, February 22.]

It is the exclusive function of the General Government to coin and create money and regulate its value. All bank issues designed to circulate as money should be suppressed. The circulating medium, whether of metal or paper, shall be issued by the Government, and made a full legal-tender for all debts, duties and taxes in the United States, at its stamped value.

There shall be no privileged class of creditors. Official salaries, pensions, bonds, and all other debts and obligations, public and private, shall be discharged in the legal-tender money of the United States, strictly according to the stipulations of the laws under which they were contracted.

That the coinage of silver be placed on the same footing as that of gold.

Congress shall provide said money adequate to the full employment of labor, the equitable distribution of its products, and the requirements of business, fixing a minimum amount per capita of the population as near as may be, and otherwise regulating its value by wise and equitable provisions of law, so that the rate of interest will secure to labor its just reward. * * * Government bonds and money should be taxed precisely as other property, and a graduated income tax should be levied for the support of the Government and the payment of its debts. Public lands are the common property of the whole people, and should not be sold to speculators nor granted to railroads or other corporations, but should be donated to actual settlers in limited quantities. * * * No monopolies should be legalized. * * * Such legislation should be had that the number of hours of daily toil will be reduced, giving to the working classes more leisure for mental improvement and their several enjoyments, and saving them from premature decay and death.

The adoption of an American monetary system, as proposed herein, will harmonize all differences in regard to tariff and Federal taxation, reduce and equalize the cost of transportation by land and water, distribute equitably the joint earnings of capital and labor, secure to the producers of wealth the results of their labor and skill, and muster out of service the vast army of idlers, who, under the existing system, grow rich upon the earnings of others, that every man and woman may, by their own efforts, secure a competency, so that overgrown fortunes and extreme poverty will be seldom found within the limits of our Republic. * * *

That the contract system of employing labor in our prisons and reformatory institutions works great injustice to our mechanics and artisans, and should be prohibited.

The importation of servile labor into the United States from China is a problem of the most serious importance, and we recommend legislation looking to its suppression.

That we believe in the supremacy of law over and above all perishable material, and in the necessity of a party of united people that will rise above old party lines and prejudices; we will not affiliate in any degree with any of the old parties, but in all cases and localities will organize anew, as united National men, nominate for office and official positions only such persons as are clearly believers in and identified with this our sacred cause, and, irrespective of creed, color, place of birth, or past conditions of political or other servitude, vote only for men who entirely abandon old party lines and organizations.

bility in the volume of the currency and consequent stability of value. No further increase in the bonded debt; no further sale of bonds for the purchase of coin for resumption purposes, but a gradual reduction of the public debt by payment according to the original contract by which it was created; a rigid economy in all branches of the public service, and a tariff for revenue only.

We favor one currency for the Government and the people, the laborer and the office holder, the pensioner and the soldier, the producer and the bondholder.

We hold that the right of the States to tax property in the States is inviolable, and that United States bonds should bear the burden of Government equally with all other property, and any legislation that exempts said bonds from taxation is unjust and oppressive.

We declare that all bonds and obligations of the National Government ought to be paid in legal-tender notes of the United States, except where it is otherwise provided by the original law under which they were issued; and all that can be called in and paid now should be paid at once, and the remainder as soon as it can be lawfully done.

Wisconsin Republican.

[Adopted August 1.]

* * * We rejoice at the prospects of the resumption of specie payments by the close of the present year. A stable, non-fluctuating currency, possessing intrinsic value—coin, or gold, or silver, at the pleasure of the holder—is the only secure foundation of permanent business prosperity. Such a currency will impart that steadiness to prices which is an essential condition for the successful prosecution of legitimate industry and enterprise, and is equally demanded by the true interests of the laborer and the business man and the capitalist.

The value of all paper currency, whether issued by the Government or by the banks, consists in the promise it bears of payment, and in the degree of credit attached to that promise. If it cannot be converted at pleasure into currency of intrinsic value, it cannot remain at par, and its depreciation will be in proportion to the prospects of its being convertible within a longer or shorter period. The printed bits of paper which some wild theorists propose to employ as currency, and which they term "absolute money," containing no promise of payment and no intrinsic value, would soon become absolute in one respect only. They would be absolutely worthless. This and other chimerical projects by which it is proposed to find a cheap and worthless substitute for the measure of value accepted and employed by the civilized world are based upon delusion, if not dishonesty, and if adopted would result in disaster and shame. We hold it to be the duty of Republicans and all good citizens to oppose with uncompromising firmness all those mischievous theories, as well as the cognate doctrines of Communism and Internationalism, which menace society, individual liberty and the accumulated savings of industry. * * *

National Platform of the Greenback Party.

[Adopted at Toledo, Ohio, February 22.]

It is the exclusive function of the General Government to coin and create money and regulate its value. All bank issues designed to circulate as money should be suppressed. The circulating medium, whether of metal or paper, shall be issued by the Government, and made a full legal-tender for all debts, duties and taxes in the United States, at its stamped value.

There shall be no privileged class of creditors. Official salaries, pensions, bonds, and all other debts and obligations, public and private, shall be discharged in the legal-tender money of the United States, strictly according to the stipulations of the laws under which they were contracted.

That the coinage of silver be placed on the same footing as that of gold.

Congress shall provide said money adequate to the full employment of labor, the equitable distribution of its products, and the requirements of business, fixing a minimum amount per capita of the population as near as may be, and otherwise regulating its value by wise and equitable provisions of law, so that the rate of interest will secure to labor its just reward. * * * Government bonds and money should be taxed precisely as other property, and a graduated income tax should be levied for the support of the Government and the payment of its debts. Public lands are the common property of the whole people, and should not be sold to speculators nor granted to railroads or other corporations, but should be donated to actual settlers in limited quantities. * * * No monopolies should be legalized. * * * Such legislation should be had that the number of hours of daily toil will be reduced, giving to the working classes more leisure for mental improvement and their several enjoyments, and saving them from premature decay and death.

The adoption of an American monetary system, as proposed herein, will harmonize all differences in regard to tariff and Federal taxation, reduce and equalize the cost of transportation by land and water, distribute equitably the joint earnings of capital and labor, secure to the producers of wealth the results of their labor and skill, and muster out of service the vast army of idlers, who, under the existing system, grow rich upon the earnings of others, that every man and woman may, by their own efforts, secure a competency, so that overgrown fortunes and extreme poverty will be seldom found within the limits of our Republic. * * *

That the contract system of employing labor in our prisons and reformatory institutions works great injustice to our mechanics and artisans, and should be prohibited.

The importation of servile labor into the United States from China is a problem of the most serious importance, and we recommend legislation looking to its suppression.

That we believe in the supremacy of law over and above all perishable material, and in the necessity of a party of united people that will rise above old party lines and prejudices; we will not affiliate in any degree with any of the old parties, but in all cases and localities will organize anew, as united National men, nominate for office and official positions only such persons as are clearly believers in and identified with this our sacred cause, and, irrespective of creed, color, place of birth, or past conditions of political or other servitude, vote only for men who entirely abandon old party lines and organizations.

NOTE.—The expenditures for 1869, 1870, 1871, 1872, 1873, 1874, 1875 and 1876 have been analyzed at the Treasury Department, and the amounts paid directly on account of the rebellion were as follows:

* The unusually large payment of interest on the public debt during the fiscal year 1878 is accounted for by payments of interest which had accrued in former years, and by the fact that from July 1, 1877, to July 1, 1878, a large amount of 6 per cent bonds (interest payable January and July) were funded in bonds bearing 4 1-2 and 4 per cent interest, payable quarterly. Had the 6 per cent bonds not been converted, the interest thereon from January, 1, 1878, to July 1, 1878, would not have been due and paid until after the

beginning of the fiscal year 1879; but the quarterly interest on the 4 1-2 and 4 per bonds fell due and was paid during March and April of the fiscal year 1878, and thus caused an apparent increase of interest for the year. The interest falling due within the year was $92,735,461 63.

THE NEW-YORK TRIBUNE.

For 1879 THE TRIBUNE hopes to continue with increasing success the work and the methods which through the year now ending have won such popular approval and borne such ample fruit.

A year ago THE TRIBUNE pointed out the danger to the tranquility of the country, to the Treasury, the currency and the National honor, from the alliance then forming between the Solid South and Tammany Hall. It declared that against this danger the old party of freedom, **still the party of the Churches and the Schoolhouses,** was the only bulwark; and in behalf of that party it renewed the old appeal to the National conscience, and the enlightened self-interest of the tax-payers.

In all this events have justified it. The year has disclosed the danger THE TRIBUNE predicted, and brought the deliverance it promised. **It now asks those who think well of what it did in this eventful year** to help widen yet further its influence by increasing its circulation for the next. It labored to harmonize the Republican party; to divert Republicans from attacks upon each other to attacks upon the common enemy. It exposed Southern claims. It denounced the Southern suppression of the negro vote. It resisted debasement of the currency. It endeavored to sustain the Treasury in advancing to specie payments. It strove to promote a practical reform in the Civil Service. It vindicated the legitimacy of the Republican Administration. It crushed assailants by demonstrating the infamous efforts of the Democratic leaders to buy the Presidency they had fairly lost at the polls. For these services a distinguished member of the Administration has declared that **the Republican party and the country owe THE TRIBUNE a debt of gratitude** so great that, despairing of full payment immediately, they must imitate the Treasury and fund it! Leading Republicans outside of and even opposed to the Administration are everywhere heartily expressing similar opinions.

THE TRIBUNE now warns the country that, inspiring as the late elections have been, they do not end the danger. The Democrats and the Greenbackers, if united, could have reversed the verdict. They may be united next time. They already have the Solid South to begin with, as well as the evidence of the control their union would give in many of the Western States. To prevent such a union from sweeping the country we must keep the Republican party in the highest state of discipline and efficiency, and **must educate the voters.** If friends know any better agency for such political education than THE TRIBUNE, by all means use it; if not, they surely ought to make every effort to push THE TRIBUNE'S circulation.

THE TRIBUNE is now spending more labor and money than ever before to deserve the distinction it has long enjoyed of **the largest circulation among the best people.** It is the only newspaper in the country maintaining a special telegraphic wire of its own between its office and the National Capital. Its Washington dispatches are much the fullest anywhere published. Its London correspondent, George W. Smalley, is recognized as the foremost in that field on the American Press. Its other foreign correspondence ranks exceptionally high. Its scientific, religious and literary intelligence is often fuller, and generally more newsy, than that furnished by journals expressly devoted to these specialties. Its critical departments, all conducted by the old heads, remain the acknowledged authorities:

NEW BOOKS..GEORGE RIPLEY, LL.D. | THE DRAMA.....WILLIAM WINTER.
MUSIC.....JOHN R. G. HASSARD. | ART.....CLARENCE COOK.

THE TRIBUNE continues to be the recognized medium adopted by leading thinkers and men of prominence in all professions for communicating with the public.

THE SEMI-WEEKLY TRIBUNE

Is specially adapted to the large class of intelligent readers too far from New-York to depend on its papers for the daily news, who, nevertheless, want the editorials, correspondence, book-reviews, scientific matter, lectures, literary miscellany, etc., for which THE TRIBUNE is famous. This is the cheapest, and, for remote country readers, the best edition of THE TRIBUNE published. It contains sixteen pages, and is in convenient form for binding. It is far the most successful Semi-Weekly in the country—having four times the circulation of any other in New-York.

THE WEEKLY TRIBUNE

Remains the great favorite for our substantial country population. A high authority has said of it that "THE WEEKLY TRIBUNE has done more to make good farmers and good citizens than any other single influence that has ever existed in this country." It is now larger than any of its rivals; its new form (sixteen pages, careful ly indexed and suitable for binding) has proved exceedingly popular, and its large, clear type, so different from that of most papers of its class, is a special attraction. Its Agricultural Department, under the special management of a experienced Agricultural Editor, with a staff of several assistants, and a large corps of special contributors, is more carefully conducted than ever, and it has always been considered the best. Its market reports are the official standard for the Dairymen's Association, and have long been the recognized authority on cattle, grain, and general country produce. There are special departments for the young, and for household interests; while poetry, fiction, and the humors of the day are all abundantly supplied.

TWO PAPERS IN ONE.

THE WEEKLY TRIBUNE is now so arranged as to make **two complete and separate papers** of eight pages each, the first containing the news and politics; the second, the correspondence fiction, poetry, household departments, etc. **Both sides of the family** can thus enjoy the paper **at the same time.** During the past year readers have found this a specially attractive and convenient feature.

THE GREAT PREMIUM.

WEBSTER'S UNABRIDGED FREE.

Last year THE TRIBUNE offered to five years' single subscribers the unprecedented gift of WEBSTER'S UNABRIDGED QUARTO PICTORIAL DICTIONARY, which retails in all bookstores for $12. The offer proved probably the greatest success in the history of newspaper premiums. TEN THOUSAND of these huge Dictionaries were distributed, and *not one single subscriber* complained that he was dissatisfied with his premium. We have at last succeeded in renewing the very favorable contract with the publishers (which alone enabled us to offer this magnificent premium), **until April 1, 1879.** The publishers positively refuse to let it extend beyond that time. We therefore urge all to avail themselves of the offer at once, and to advise their friends and neighbors of the opportunity. We are extending the terms of the offer, this year, a little, as follows:

We will send Webster's Unabridged Pictorial Quarto Dictionary (edition of 1879), bound in sheep, the latest and best edition, as a gift to any one remitting us

$10 for a single five years' subscription, in advance, or, $16 for eight 1-year subscriptions to { THE WEEKLY TRIBUNE.

$15 for a single five-years' subscription, in advance, or, $30 for ten one-year subscriptions to { THE SEMI-WEEKLY TRIBUNE.

$30 for a single three-years' subscription, in advance, to { THE DAILY TRIBUNE.

We believe this to be the most valuable and liberal newspaper premium ever offered. We cannot make it any more liberal, and to avoid useless correspondence we give notice that the Dictionary will only be sent on exact compliance with the above terms. It is not offered, under any circumstances, to persons remitting for clubs at regular club rates.

THE GREATEST PREMIUM YET

A $210 ESTEY ORGAN FREE!

THE TRIBUNE makes an offer to churches, musical societies and others, more amazing than anything yet done in the history of newspaper premiums. For 200 subscriptions from one Post Office, or its immediate vicinity, to THE WEEKLY TRIBUNE, at the lowest club rate ($1 25 each), we will send, postage paid, the 200 papers, addressed to individual subscribers, for one year, and will send also to the church or person forwarding the club the $210 Estey Organ, confessedly one of the best in the market—style 501, double reed, seven stops, viz.: diapason, melodia, viola, vox jubilants, tremolo, 1 forte and 11 forte. Thus, for 200 subscriptions to THE WEEKLY TRIBUNE at the lowest club rate, the club receives $250 in newspapers, and $210 in one of the finest organs of its size made in America.

TRIBUNE ALMANAC FOR 1880.

ECLIPSES.

In the year 1880 there will be six eclipses, four of the Sun and two of the Moon:

I. A Total Eclipse of the Sun, January 11, invisible in this country except along the Pacific coast and the region of the Rocky Mountains, where the Sun will be more or less partially eclipsed just before sunset. The central path of the eclipse begins near the Ladrone Islands, curves southward till it almost touches the Equator, and then runs in a northeasterly direction, passing south of Honolulu, and reaching the Pacific coast of the United States, near San Francisco, where the eclipse begins at 2:41 p. m. and ends a few minutes before sunset.

II. A Total Eclipse of the Moon, June 22, invisible here.

III. An Annular Eclipse of the Sun, July 7, invisible in America. It will be seen as a partial eclipse in a large part of South America. the South Atlantic Ocean and the Cape of Good Hope. The central line, along which only the eclipse will be annular, begins near the Falkland Islands, and follows a sharp curved path wholly confined to the higher latitudes of the South Atlantic.

IV. A Partial Eclipse of the Sun, December 1, invisible here.

V. A Total Eclipse of the Moon, December 16, visible only on the Pacific coast before the Moon sets. At San Francisco the eclipse begins at 5:35 a. m. and is total at 6:44 a. m., the Moon setting at 7:14 a. m., totally eclipsed.

VI. A Partial Eclipse of the Sun, December 31, visible in the eastern parts of the United States at sunrise. and for a short time afterward as follows, the beginning of the eclipse being invisible at the places named. because taking place before sunrise:

Place.	Begins.	Middle.	Ends.
	a. m.	a. m.	a. m.
Albany	invis.	8 04	8 59
Boston	"	8 17	9 14
Charleston	"	7 22	7 57
Chicago	"	invis.	7 43
Cincinnati	"	"	7 52
New-York	"	7 59	8 53
Philadelphia	"	7 51	8 43
Washington	"	7 43	8 34

Occultation of Mars.

There will be an occultation of Mars by the Moon on March 17 (St. Patrick's Day). At Washington the immersion occurs at 6:22 p. m. and the emersion at 7:38 p. m, the occultation lasting 1 hour 16 minutes. At New-York the immersion will take place about 15 minutes later. The Moon being then between six and seven days old, the planet will disappear behind its dark edge at an angle of about 90° east, by direct vision, from the north point of a perpendicular line passing through the centre of the Moon. Owing to the great distance of Mars from the Earth, however, the planet will not be conspicuous, and the occultation will, therefore, be much less striking than if Mars were near its opposition.

Each enumerator is required to complete and forward his returns to the supervisor of his district on or before the 1st day of July, 1880; and in any city having over 10,000 inhabitants under the census of 1870, the enumeration of population shall be taken within two weeks from the first Monday of June. Each supervisor shall receive $500 in full compensation for all services rendered and incurred by him. To enumerators in subdivisions, where the Superintendent of Census shall deem such an allowance sufficient, an allowance not exceeding two cents for each living inhabitant, two cents for each death reported, ten cents for each farm, and fifteen cents for each establishment of productive industry enumerated and returned, may be given in full compensation for all services. For all other subdivisions, rates of compensation shall be fixed in advance of the enumeration by the Superintendent of Census, with the approval of the Secretary of the Interior, according to the difficulty of enumeration; but the compensation allowed to any enumerator in any district east of the one hundredth meridian shall not exceed an average of $4 per day of ten hours' actual field-work each, and the compensation to any enumerator in any district west of the one hundredth meridian shall not exceed $6 per working day of equal length.

PARTY PLATFORMS, 1879.

Iowa Republican.

[Adopted June 11.]

That the United States of America is a Nation, not a league. * * * That we approve the financial policy of the Republican party, and refer with pride to its results. Declare that the public debt shall be honestly paid, in honest money, and to this end we are in favor of keeping our coin circulation at its largest practicable volume, and of maintaining our paper currency where the Republican policy has placed it, at par with coin, and to the further end that the dollar earned by labor shall be worth as much as the dollar earned by capital. * * * Concerning further financial legislation we say: Let us have peace, undisturbed by Congressional tinkering, that our business interests may revive, the investment of more idle capital be encouraged, commercial interests fostered, and the general welfare promoted. * * * That the profit arising from the coinage of gold and silver should inure to the benefit of the Government. * * * Favor a wisely-adjusted tariff for revenue. * * * Demand a strict economy in the imposition of public taxes and the expenditure of public moneys.

Iowa Greenback.

[Adopted May 29.]

The General Government alone to issue money, the amount in circulation to be fixed by a Constitutional amendment upon a per capita basis, calling in of all United States bonds, and the payment of them in full legal-tender money. * * * That the National banks, as banks of issue, must be abolished by law, and that legal-tender greenback money of the United States shall be substituted for their circulation. * * * That we demand the unlimited coinage of the silver dollar of the present standard weight and fineness.

Maine Republican.

[Adopted June 26.]

That this country is a Nation, and not a confederacy of States, and that the National Government is supreme on all subjects lodged with it by the Constitution, one of which subjects is the right and duty of the National Government to protect the citizen in the exercise of all his Constitutional and legal rights, none of which are more important than a free, fair ballot, uninfluenced by fraud or violence. * * * Believes now, as always, in good, honest money for the people, and opposes an irredeemable paper currency as the worst curse that can be inflicted upon a nation. Rejoices that Government promises to pay are now kept, and that the paper currency of the country is redeemable on demand in coin, so that now the dollar of the laborer is as good as the dollar of the capitalist. Condemns all schemes to tamper with the currency of the people, and thereby again unsettle public confidence, now, happily, just being restored.

Maine Democratic.

[Adopted July 1.]

That we are in favor of a currency of gold and silver and paper, the paper to be kept at a par with coin at all times, and are in favor of the free and unlimited coinage of silver.

Massachusetts Republican.

[Adopted September 16.]

The Republican party of Massachusetts at the close of the first quarter of a century of its history, pledging itself anew to the continued performance of the duties in which it originated and to the defence and maintenance of those principles upon which it was founded, and which are still essential to the peace, serenity and prosperity of the Republic, makes the declarations:

First—We affirm the doctrines heretofore proclaimed and maintained, that the United States of America is a Nation. That, while local self-government in all matters which belong to the States must be fully recognized, the National Government should secure to its citizens, from whom it claims all allegiance, complete liberty and exact equality in the exercise of their civil and political rights. That, whether assailed by political persecutions at home or menaced by tyranny abroad, all citizens of the United States, without distinction of origin, race, creed or color, must be protected by the National Government in all the rights granted to them by the Constitution and the laws. That our institutions rest upon the equality of all men before the law, and that a free ballot, uninfluenced by fraud, intimidation or force, and honestly conducted, is the right of every qualified voter, and we demand that elections shall be free from all interference by unlawful bodies of armed men, and shall be free from the interference of National or State military forces, except when employed as a part of the *posse comitatus*. We denounce that fierce partisan intolerance which prevents a free ballot, denies freedom of political opinion and action, and takes from any of the people the right to choose their homes and to control and enjoy the fruits of their labor.

Second—We deprecate the course of the members of the Democratic party who have undertaken to revive sectional animosities for the purpose of securing political ascendancy in the Southern States, and who have revived the memories of sectional strife by the defiant declaration of a purpose to repeal laws made necessary by the war, and enacted to secure the results of the war, and we condemn their attempts to secure by legislation what was not accomplished by arms, namely, the establishment under the name of State sovereignty of those pernicious doctrines which destroy the national su-

premacy, and which, in the past, have led to secession and civil war.

Third—The pledges of the Republican party to maintain the National honor and to preserve the National credit have been redeemed in the face of bitter opposition by the prompt resumption of specie payments and the reduction both of the principal and the interest of the public debt. And we congratulate our fellow-citizens upon the restoration of confidence and the revival of business which have followed the honest, prudent and wise management of public affairs under Republican administration. We are opposed to repudiation in all its forms, either by a "scaling" of debts or a debasement of the legal-tender circulation. We insist that the paper and coin circulation of the country shall at all times be maintained at par with the gold standard of the commercial world.

Massachusetts Regular Democratic.

[Adopted October 7.]

The Democrats of Massachusetts, in convention assembled, reaffirm the National Democratic platform of 1876 as an authoritative exposition of the principles of our party, and congratulate our political brethren of the whole country that these principles were indorsed in the National canvass by the suffrages of a decided majority of the American people and the Electoral College.

We denounce upon the guilty Republican party stern retribution for the great public crime by which the people were defrauded of their right to be governed by a ruler of their choice, and by which the elective principle was wounded in its most vital part.* * *

Our thanks are due to the Democrats in Congress for their efforts to enforce economy in public expenses, to abolish useless offices, and to correct manifold abuses in public affairs, not least of which are the exclusion of intelligent citizens from the jury box and the levying and maintaining of an army of official hirelings around the polls for partizan purposes.

We believe in self-government by the people, and desire that the polls shall be free from the interference of Federal bayonets directed by the intrigues of a Federal partisan Executive.

We believe the purity of the ballot-box can be better preserved through State authority than by Federal interference.

We protest against laws which authorize the arrest of citizens at the polls without warrant or hearing, and the suppression of their votes by imprisoning their persons until after the election, as upturning the foundation of free government, and we call on Congress to aid the people and rescue the freedom of the elections, undeterred by Republican clamors or Presidential vetoes.

The Democratic party has always denied that any Constitutional power existed in the Federal Government to make anything a legal tender in the payment of debts except gold and silver.

We affirm the obligation of public and private contracts, and demand that public money ought to be kept in the Treasury of the United States, free from control or use by speculators or favorite bankers.

We rejoice with the country at the large and renewed prosperity that attends agricultural and manufacturing pursuits, but we deprecate that Republican policy which, having destroyed our ship-building, placed the carrying trade of the products of our soil in the control of foreign flags, and almost banished our flag from the seas, and imperilled the pursuit of the fisheries among our hardy population, has rewarded Great Britain with spoils she never could have conquered, and abandoned the trident of the seas to her hands. * * *

New-York Republican.

[Adopted September 2.]

The Republicans of New-York, pledging themselves anew to National supremacy, equal rights, free elections and honest money, declare these principles:

1. The Republic of the United States is a Nation and not a league. The Nation is supreme within its own Constitutional sphere. It is provided with power to guard its own life, to protect its own citizens, to regulate its own elections and to execute its own laws. The opposite doctrine of State Sovereignty is the baleful mother of nullifications, secession and anarchy. Republicanism stands for National supremacy in National affairs and State Rights in State concerns. Democracy stands for State Sovereignty, with its own twin heresy that the Union is a mere confederation only of States.

2. To refuse necessary supplies for the Government with the design of compelling the unwilling consent of a coördinate and independent branch to odious measures is revolution. To refuse appropriations for the execution of the existing and binding laws is nullification. We arraign the Democratic Representatives in Congress as guilty both of revolutionary attempts and nullifying schemes, and we reprobate their action as calculated to subvert the Constitution and to strike at the existence of the Government itself.

3. The safety of the Republic demands free and pure elections. The Democratic Congress has attempted dictation by caucus, by threats of starving the Government, and by months of disturbing agitation, to break down the National election laws. We denounce this effort as a conspiracy to overthrow the safeguards of free suffrage, and to open the ballot-box to the unchecked domination of the rifle clubs of the South and the repeaters of New-York. We declare our uncompromising opposition to any repeal of these just protective laws, and the Republican Senators and Representatives in Congress for their resistance to this attempt, and President Hayes for his veto messages, deserve and receive our hearty approval.

4. The Republican party neither justifies nor tolerates military interference with elections. It seeks only to protect the ballot-box from the interference of force and fraud. It repels the false charges and denounces the false pretences of conspirators who, while professing free elections, everywhere sustain mob law in the South; while inveighing against troops at the polls to protect citizens, refuse to prohibit armed clubs from surrounding the ballot-box to intimidate them, and while affecting that the soldier's bayonet will overawe free elections, remain silent when the assassin's bullet seals the fate of political independence.

6. We call upon the people to remember that the Democratic party forced the extra session of Congress without warrant or ex-

cuse; that it prosecuted its partisan purposes by revolutionary methods; that it persistently obstructed Resumption, and still constantly presses disturbing measures; that it reopens sectional questions closed by the National triumph, and threatens to repeal the war legislation; that its Southern element answers conciliation only with violence; that its hope of success rests alone on a Solid South, and that its triumph would make the Solid South the ruling force of the Nation. We recognize that the free body of the people who defended the Union, of whatever party name, are equally patriotic and equally interested in good government, and we earnestly invoke them to unite in resisting the dangerous designs of a party organization, under the sway of those who were lately in rebellion, and seek to regain in the halls of legislation what they lost on the field of battle.

6. The successful resumption of specie payments, despite Democratic prediction and hostility, is the crowning element of the Republican financial policy. Followed by returning National prosperity, improved credit, a refunded debt and reduced interest, it adds another to the triumphs which prove that the Republican party is equal to the highest demand. Our whole currency should be kept at par with the monetary standard of the commercial world, and any attempt to debase the standard, to depreciate the paper or deteriorate the coin should be firmly resisted.

7. The claims of the living and the memories of the dead defenders of the Nation conjure us to protest against the partisan and unpatriotic greed which expels old Union soldiers from their well-deserved rewards and advances Confederate soldiers to their places.

8. As the pledge and proof of its economy in State administration, the Republican party, in spite of prolonged Democratic resistance, proposed and passed the Constitutional amendments which restrict the expenses of the canals to their receipts, and reform the whole system of canal and prison management, and by extinguishing the public indebtedness and relieving the people from any farther tax, therefore it effected a great saving in State taxation. These fruits of Republican measures the Democra s have brazenly attempted to appropriate as their own. Appealing to the records in support of our declaration, we pronounce their claims unfounded, and hold up their authors as public impostors.

9. The irregularities of taxation which press most upon those least able to bear them should be remedied. To this end the Republican Legislature created a commission to revise the assessment and tax law, and to reach a class of property which now largely escapes, and we remind the people that this salutary reform was unwarrantably defeated by the present Democratic executive.

10. Moneyed and transportation corporations are not alone the works of private enterprise, but are created for public use, and with due regard to vested rights, it is the clear province and the plain duty of the State to supervise and regulate such corporations as to secure the just and impartial treatment of all interested, to foster the industrial and agricultural welfare of the people, and with a liberal policy favor the public water ways, and maintain the commercial supremacy of the State. We look to the inquiry now in progress under the direction of the Legislature to develop the facts which will guide to all needed action.

New-York Democratic.

[Adopted September 11.]

The Democratic party of the State of New-York, in convention assembled, profoundly sensible of the important consequences depending on the immediate result of their deliberations, do declare and reassert the principles of popular liberty and rights laid down by Washington, Jefferson, and the other founders of the Republic. We hold to the Constitution with all its amendments sacredly maintained and enforced, and to the rights of the States under the Constitution. The tendencies of the Republican party to centralization and consolidation are contrary to the principles of our institutions. The United States form a Nation in the sense, the extent and for the purposes defined in the Federal Constitution, and we resist every attempt to transform it into an empire. We insist on unity, fraternity and concord, and that the issues settled by the war shall not be revived. We deprecate the efforts of the Republican managers to revive sectional feuds and to rekindle the passions of the past. We demand honest elections and an honest count of votes. Never again by fraud or force shall the popular will be set aside to gratify unscrupulous partisans.

The Democracy oppose all favoritism. No single interest or class of persons should be protected at the expense of others. Democracy means the government of the whole people, for the whole people and by the whole people; but if any class is to receive special consideration it should be the working people, whom all other governments oppress and crush. The rights of the people should be scrupulously protected from the encroachments of capital and the despotic greed of corporations.

The Democracy believe now, as they have always believed, in gold and silver as the Constitutional money of the country. We condemn the speculative methods of the present Secretary of the Treasury, the questionable favoritism he has shown to particular monetary institutions or so-called "syndicates" and the extravagance he has permitted in his department in connection with his refunding schemes. We look with shame and sorrow on the disgraceful repudiation of all their professions of civil service reform by the Executive and his supporters. Federal offices have been freely given for despicable partisan services; leading officers of the Government are making partisan speeches, managing political campaigns and requiring their subordinates to contribute to campaign funds in derogation of every principle and promise of an honest civil service. The hundred and four thousand Federal officers constitute an army moving under a single direction to keep the Republican party in power, and this vast patronage is now used as a corruption fund against the people. We congratulate the people of New-York on the results of Democratic administration, in the payment of the State debt, the reduction of expenses and the diminished burden of taxation. We condemn the efforts of demagogues to create jealousy and antagonism between the City of New-York

and the rest of the State, when their interests are identical, and the growth of the one is the prosperity of the other. The people of New-York—farmers, manufacturers and merchants alike—demand that they shall have all the advantages which accrue to them from their favorable position, and that the railroads they have chartered and endowed with vast and profitable privileges shall be operated for their benefit and not for their ruin. We therefore indorse as our expression of the foregoing principles the following:

The Democratic officers of the State of New-York, by the ability and fidelity in which they have discharged their duty during the past three years, by their conscientious application of Constitutional tests to the acts of every department of the State Government, by their successful resistance to private and partial legislation, and by their economic conduct of the finances and reduction of expenses of the State Government, have entitled themselves to the gratitude of their fellow-citizens of all parties.

1. Honesty, efficiency and economy in every department of the Government.

2. All property should bear its just proportion of taxation, and we pledge the Democratic party to reform the laws of assessments to that end.

3. Lessening the burdens and increasing the advantages of the working people.

4. The equal protection of the rights of labor and capital under just laws.

5. The railroads prohibited by law from unjust discrimination, and from favoring localities or individuals.

6. The tolls upon the canals to be kept at the lowest rates possible consistent with economical and efficient management.

7. The maintenance of the public schools, the pride and hope of a free State.

8. Prisons for the punishment and reformation of criminals, and not for the injury of honest labor, which should be protected as far as possible from such competition.

9. Municipal self-government in local affairs.

10. That the successful efforts of our Democratic Representatives in Congress in restoring a fair and intelligent jury system, and in protecting the freedom of the ballot and preventing the unconstitutional interference of the Federal Administration with the State elections, are approved, and the action of the Executive in vetoing the legislation designed to prevent the presence of armed soldiers and the employment of paid Federal supervisors and marshals at the polls, and the use of the public funds for this purpose is denounced by the Democracy of the State of New-York.

11. And as the foundation of all liberty and prosperity, privileges and rights, under our Government, we shall continue to uphold a system of untrammeled suffrage absolutely free from Federal force or supervision. It is the duty of the State, alike in the interest of taxation, temperance, and equal and exact justice to the community, to make such revision of the Excise laws as will better secure the rights of the citizens to life, liberty, property and public order.

New-York Greenback-Labor.

[Adopted August 29.]

That the National bank currency shall be withdrawn, and that all money that may be used by the people—whether gold, silver or paper—shall be issued by the general Government, and be made a full legal-tender for all debts and dues, public and private, the volume of such money to be about $50 per capita, or sufficient to meet all the requirements of trade. That the established volume of the currency shall be increased from time to time in a direct ratio with the increase in the business and population of the country so as to maintain for the dollars as nearly as possible a uniform purchasing power. That all the new issues of paper money shall be used to cancel the interest-bearing debt of the Nation, to promote needed public improvements, and to pay current expenses. That the surplus money now in the Treasury of the Nation shall be used to cancel the interest-bearing debt. That the National Government shall issue no more interest-bearing obligations, and that outstanding bonds shall be paid and cancelled at once. That the postal savings banks shall be established. The equal taxation of all property. That the salaries paid public officers shall be reduced to the basis of just compensation for services rendered, and all unnecessary offices abolished. That there shall be proper legislation for the purpose of collecting and preserving reliable statistics, to form the basis of intelligent action on all labor questions, to the end that labor may be fully and constantly employed and justly compensated. The establishment of just and equitable rates for railroad fare and transportation. That the Legislature, at the earliest moment possible, shall pass a law giving to mortgagees of real estate the right of redemption for five years after sales. That reasonable limitation laws shall be enacted to prevent land monopolies. The abolition of the State Prison contract system. That no political assessments on candidates for office or office-holders shall be permitted in this party. A reduction of the legal rates of interest. That a debt due for labor performed shall take precedence of all other claims. That no more public lands shall be voted to corporations, but that they shall be held for actual settlers. That we favor a tariff which shall protect American industry and manufacturers. That the Government shall faithfully perform its pledge made to the Union soldier at the time of enlistment, to wit: That they receive 160 acres of land on being discharged, and an equitable payment per month to each soldier, according to the value of the full legal tender dollar.

Ohio Republican.

[Adopted May 28.]

That the Republican party of Ohio, reaffirming the cardinal doctrines of its adopted faith, as heretofore proclaimed, especially pledges itself anew to the maintenance of free suffrage, equal rights, the unity of the Nation, and the supremacy of the National Government in all matters placed by the Constitution under its control.

That the financial administration of the Government by the Republican party, in accomplishing the great work of the resumption of specie payments, in restoring our currency to a par value, in greatly reducing the burden of the National debt, in refunding a large proportion of the same at a rate of interest one-third less than the former rate, thereby alone saving to the

Treasury $13,000,000 a year, and in enhancing the National credit to a standing never before attained, is a source of just pride to the Republicans of Ohio, and deserves the warm approbation of the American people.

Ohio Democratic.

[Adopted June 4.]

That we reaffirm the financial principles heretofore advocated by the Democratic party of Ohio; that the issue of money in any form, and the regulation thereof belong to the General Government alone, and ought not to be delegated or intrusted to individuals or corporations; that we therefore oppose the perpetuation of the present National banking system as a means of control over the currency of the country, and demand the gradual substitution of Treasury notes for National bank currency, to be made receivable for all dues and a legal tender equally with coin, such Government issues to be regulated upon principles established by legislation or organic law so as to secure the greatest possible stability of value. * * * Demanding the full restoration of silver to its original place as a money metal, the same as gold.

Ohio Greenback.

[Adopted at Columbus, June 4.]

That the General Government should issue an ample volume of full legal-tender currency to meet the business needs of the country, and to promptly pay all of its debts. * * * Inflexibly opposed to the issue by the Government of interest-bearing bonds of any description, for any purpose whatever. The National banking system should be immediately abolished. * * * A tariff amply sufficient for protecting American industries should be maintained till a free financial system may have shown it to be unnecessary to tax labor for the support of capital. All internal revenues should be dispensed with, and a graduated income-tax substituted. We demand the immediate calling in and payment of all United States bonds in full legal-tender money.

Pennsylvania Republican.

[Adopted July 23.]

* * * In favor of the discharge of the National debt in coin, according to the understanding between the Government and the lender; of a paper currency redeemable in coin, and of the existing National banking system. * * *. Demand that our present financial system remain undisturbed. * * * That to the policy and practice of protection to home industry and home production inaugurated and sustained by the Republican party, we are indebted for the growth and development of our domestic and foreign commerce, and for the prosperous condition and strength of the National finances, and that to the continuance of that policy must we look in the future for assured prosperity and peace throughout our whole country. In fostering the same we desire to insure constant employment to labor at remunerative wages. * * * That the United States of America is a Nation, not a league. Its Constitution, and all laws made in pursuance thereof, are the supreme law of the land, anything in the constitution or laws of a State to the contrary notwithstanding.

Pennsylvania Democratic.

[Adopted July 16.]

That the Democratic party, as of old, favors a Constitutional currency of gold and silver, and of paper convertible into coin.

Pennsylvania Greenback.

[Adopted July 15.]

* * * In favor of the payment of the National debt strictly in accordance with the stipulations of the contract under which it was created, and that no more interest-bearing bonds of the Federal Government be issued. * * * That the Federal Government only shall issue money; that such money shall be full legal tender, and that full legal-tender greenbacks shall be substituted for National bank notes. * * * Demand, for the sake of economy and convenience, that the trade dollar and fractional silver coin be replaced by fractional paper currency. * * * Demand the enactment of an income tax law.

CONSTITUTIONAL AMENDMENTS

IN THE STATES.

CALIFORNIA.—A new Constitution, making complete changes in the government of the State, was adopted at the September election.

CONNECTICUT.—An amendment providing that elections for the General Assembly shall be biennial, the members to hold their offices for two years, and that if this be adopted there should be no election on the Tuesday after the first Monday of November, 1879, was submitted to the people at a special election in September; also, an amendment providing that the Judges of the Supreme and Superior Courts shall remain upon the bench until seventy-five, instead of until seventy years of age. Both amendments were rejected by the following vote: For biennial sessions amendment, 21,430; against, 46,019. For the judiciary amendment, 18,002; against, 49,221.

INDIANA.—At the election on the first Monday in April, 1880, the following amendments will be voted upon by the people:

First—Requiring every voter to be registered, and to have resided in the State six months, in the township sixty days, and in the ward or precinct thirty days immediately preceding election, before being entitled to vote.

Second—Striking out the words "No negro or mulatto shall have the right of suffrage" from Section 5, Art. 2, of the Constitution.

Third—Providing that all general elections shall be held on the first Tuesday after the first Monday in November, township elections to be held at such times as may be provided by law, and the General Assembly to fix the time for electing all Judges of the Courts.

Fourth—Striking the word "white" from the Constitution.

Fifth—Regulating the fees and salaries of county officers on the basis of population.

Sixth—Substituting the words "such other Courts" for the words "such inferior Courts," in the 7th Article, so as to enable the Legislature to establish other courts not inferior in jurisdiction to the Circuit Court.

Seventh—Providing that no political or municipal corporation in the State shall ever become indebted, in any manner or for any purpose, to an amount in the aggregate exceeding 2 per centum on the value of the taxable property within said corporation, and all bonds or obligations in excess of such amount given by such corporations shall be void: except that in time of war, foreign invasion or other great public calamity, upon a petition of a majority of property owners, obligations may be incurred to the amount petitioned for.

MAINE.—An amendment providing that the Governor and members of the Legislature shall be elected biennially, and hold office two years succeeding their election, was submitted to and adopted by the people on September 8. The first election under the amendment will be held on the second Monday of September, 1880, and the first meeting of the Legislature under the same will be on the first Wednesday of January, 1881.

MISSISSIPPI.—The following amendment was rejected at the November election:

"The political year shall begin on the first Monday in January; the Legislature shall meet at the seat of government on the first Tuesday after the first Monday in January, A. D. 1882; also on the first Tuesday after the first Monday in January, 1883, and biennially thereafter, unless sooner convened by the Governor. The time and place of meeting may be altered by law.

"A general election, by ballot, shall be held on the first Tuesday after the first Monday in November, A. D. 1880, and biennially thereafter. All officers who go into office on the first Monday in January, 1882, shall be elected at the general election in 1880. All officers who go into office on the first Monday in January, 1880, and all officers who go into office on the first Monday in January, 1882, shall hold their respective offices for three years, but the constitutional terms of their successors shall not be hereby affected. Electors, in all cases, except in cases of treason, felony and breach of the peace, shall be privileged from arrest during their attendance at elections, and the going to and returning therefrom."

NEVADA.—The following constitutional amendments have been adopted: That no public funds of any character whatever shall be used for sectarian purposes. Striking the word "white" from section 1 article 2 of the constitution.

OHIO.—Amendments were submitted, October 14, relating to the Judiciary, to the election of Senators and Representatives, to the election of State officers and to the election of township officers, extending the term of township trustees from one to three years. All were rejected, because of their failure to receive a majority of the votes cast. NOTE.—The expenditures for 1869, 1870, 1871, 1872, 1873, 1874, 1875 and 1876 have been analyzed at the Treasury Department, and the amounts paid directly on account of the rebellion were as follows:

1869	$199,623,662 24	1871	$199,745,230 93	1873	$157,963,415 81	1875	$147,882,694 75

‡ The unusually large payment of interest on the public debt during the fiscal year 1878 is accounted for by payments of interest which had accrued in former years, and by the fact that from July 1, 1877, to July 1, 1878, a large amount of 6 per cent bonds (interest payable January and July) were funded in bonds bearing 4 1-2 and 4 per cent interest, payable quarterly. Had the 6 per cent bonds not been converted, the interest thereon from January, 1, 1878, to July 1, 1878, would not have been due and paid until after the beginning of the fiscal year 1879; but the quarterly interest on the 4 1-2 and 4 per cent bonds fell due and was paid during March and April of the fiscal year 1878, and thus caused an apparent increase of interest for the year. The interest falling due within the year was $99,725,461 63.

¶ Includes $5,573,000 on Arrears of Pensions act.

‖ Includes $5,500,000 in payment of the Halifax award, and $3,597,616 41 on account of the Dis't of Col.

** The funding operations involved an increase of interest on public debt. Next year this sum will be largely reduced.

The new constitution was adopted by a large majority, and the debt ordinance, which was submitted to a separate vote, was also approved by a majority of about 5,000 votes, as indicated by the returns received up to the time of going to press. The debt ordinance provides for a reduction of the interest on the $12,000,000 of debt by proposing to pay, instead of 7 per cent, 2 per cent annually for the next five years, 3 per cent for the following fifteen, and 4 per cent thereafter. No interest is to be paid in January, 1880. Bondholders not willing to accept these terms have the option of exchanging their bonds for new bonds representing 75 per cent of their face value, and bearing 4 per cent interest.

ADDENDUM.

MAINE.—December 17, 1879, the Governor and Council have announced that, after examining the papers, they have certified the election of 20 Fusion Senators and 11 Republican, and the election of 78 Fusion Assemblymen and 61 Republican. For five cities—Portland, Bath, Lewiston, Rockland and Saco, with twelve representatives—no certificates have been issued. The result of the count is to dissipate the Republican majority of 7 in the Senate and 29 in the House, and to substitute a Fusion majority of 9 in the Senate and 17 in the House—making a net change of 62 votes. As there was no choice of Governor by the people, the Legislature will choose a Governor. Much excitement has followed the action of the Governor and Council. At this date, the result of the controversy is uncertain.

LOUISIANA.—Complete, but unofficial, returns show a majority of 30,751 for Wiltz for Governor, and 10,478 for the ordinance scaling the public debt. The majority for the new Constitution is 59,148, but 26,378 negative votes being returned. The Senate will consist of 5 Republicans and 31 Democrats: and the House of 17 Republicans, 76 Democrats, 2 Independents and 1 Greenbacker. Democratic majority on joint ballot, 82.

KENTUCKY.—The precise strength of parties in the Legislature is: *Senate*—4 Republicans, 34 Democrats. *House*—Republicans 17, Democrats 83—Democratic majority on joint ballot, 96.

U. S. SENATOR.—On December 16, 1879, William Mahone was elected U. S. Senator from Virginia to succeed Robert E. Withers, from March 4, 1881, to March 3, 1887. The vote was: *Senate*—Mahone, 23, Withers 13, Williams C. Wickham 3, John W. Daniel 1. *House*—Mahone 56, Withers 40, Wickham 2. [Mahone's vote was made up of 'Readjuster' Democrats and all the Republicans except five.]

CORRECTION.—On page 32, in the table of "imports" for 1879, the figures showing the value of goods "brought in American vessels" should be $143,590,353, not $743,590,353.

The O'Conor vote given on page 41 should be credited to 1872.

RADWAY'S

SARSAPARILLIAN RESOLVENT.

Pure blood makes sound flesh, strong bone and a clear skin. If you would have your flesh firm, your bones sound without caries, and your complexion fair, use **RADWAY'S SARSAPARILLIAN RESOLVENT.**

A remedy composed of ingredients of extraordinary medical properties essential to purify, heal, repair, and invigorate the broken-down and wasted body—QUICK, PLEASANT, SAFE and PERMANENT in its treament and cure.

No matter by what name the complaint may be designated, whether it be Scrofula, Consumption, Syphilis, Ulcers, Sores, Tumors, Boils, Erysipelas, or Salt Rheum, diseases of the Lungs, Kidneys, Bladder, Womb, Skin, Liver, Stomach, or Bowels, either chronic or constitutional, the virus of the disease is in the BLOOD which supplies the waste, and builds and repairs these organs and wasted tissues of the system. If the blood is unhealthy, the process of repair must be unsound.

The Sarsaparillian Resolvent not only is a compensating remedy, but secures the harmonious action of each of the organs. It establishes throughout the entire system functional harmony, and supplies the blood vessels with a pure and healthy current of new life. The skin, after a few days' use of the Sarsaparillian, becomes clear and beautiful. Pimples, Blotches, Black Spots, and Skin Eruptions are removed; Sores and Ulcers soon cured. FOR THE PRESIDENTIAL YEAR.

"The Leading American Newspaper."

THE NEW-YORK TRIBUNE FOR 1880

During the coming Presidential year THE TRIBUNE will be a more effectiv agency than ever for telling the news best worth knowing, and for enforcin sound politics. From the day the war closed it has been most anxious for an en of sectional strife. But it saw two years ago, and was the first persistently t proclaim the new danger to the country from the revived alliance of the Soli South and Tammany Hall. Against that danger it sought to rally

THE OLD PARTY OF FREEDOM AND THE UNION

It began by demanding the abandonment of personal dislikes, and set the ex ample. It called for an end to attacks upon each other instead of the enemy and for the heartiest agreement upon whatever fit candidates the majorit should put up against t'e common foe. Since then the tide of disaster has bee turned back; every doubtful State has been won, and the omens for Nationa victory were never more cheering. The Solid South and its Northern allies fa vored Repudiation, and we have kept the Public Faith. They favored Inflation and we have restored Specie Payments. They sought to break down the safe guards of the ballot-box, and we have maintained the election laws.

THE TRIBUNE'S POSITION.

Of THE TRIBUNE'S share in all this, those speak most enthusiastically who hav seen most of the struggle. The Michigan State Committee officially urged the cir culation of THE TRIBUNE as the best means of educating the voters and bringin out the vote. The Maine Republicans declared that no other agency made s many votes. Ohio, Pennsylvania and New-York tell the same story.

THE TRIBUNE is now spending more labor and money than ever before to hol the distinction it has long enjoyed of ***the largest circulation among th best people.*** It secured, and means to retain it, by becoming the medium of th best thought and the voice of the best conscience of the time, by keeping abreas of the highest progress, favoring the freest discussion, hearing all sides, appeal ing always to the best intelligence and the purest morality, and refusing to cate to the tastes of the vile or the prejudices of the ignorant.

SPECIAL FEATURES.

The distinctive features of THE TRIBUNE are known to everybody. It gives al the news. It has the best correspondents, and retains them from year to year It is the only paper that maintains a special telegraphic wire of its own betwee its office and Washington. Its use of the Ocean Cables during the coming yea for foreign news will be more marked than ever. Its scientific, literary, artisti and religious intelligence is the fullest. Its book reviews are the best. Its com mercial and financial news is the most exact. Its type is the largest; and it arrangement the most systematic.

The Semi-Weekly Tribune

is by far the most successful Semi-Weekly in the country, having four times th circulation of any other in New-York. It is specially adapted to the large clas of intelligent, professional or business readers too far from New-York to depen on our papers for the daily news, who nevertheless want the editorials, corre spondence, book reviews, scientific matter, lectures, literary miscellany, etc., fo which THE TRIBUNE is famous. Like THE WEEKLY it contains sixteen pages, an is in convenient form for binding.

The Weekly Tribune

remains the great favorite of our substantial country population. It revises an condenses all the news of the week into readable shape. Its agricultural depart ment is more carefully conducted than ever, and it has always been considere the best. Its market reports have long been the recognized authority on cattle grain and general country produce. There are special departments for th young, and for household interests; the new handiwork department, already ex tremely popular, gives unusually accurate and comprehensive instructions i knitting, crocheting, and kindred subjects; while poetry, fiction and the humor of the day are all abundantly supplied. THE WEEKLY TRIBUNE *is now so ar ranged as to make* ***two complete and separate papers*** *of eight pages each the first containing the news and politics; the second, the correspondence, fiction poetry, household departments, etc.* ***Both sides of the family*** *can thus enjo the paper* ***at the same time.*** The verdict of the tens of thousands of ol readers who have returned to it during the past year is that they find it bette than ever. Increasing patronage and facilities enable us to reduce the rates t the lowest point we have ever touched, and to offer the most amazing premiun yet given.

AN AMAZING PREMIUM

THE TRIBUNE has always dealt liberally with its friends who have used their time and influence in extending its circulation. We take pride in calling attention to the following:

The p. m. in the table refers to the evening of June 11, the a. m. to the morning of June 12. Magnitude of the eclipse = 1.365 (Moon's diameter = 1).

III. An Annular Eclipse of the Sun, November 21, invisible in this country. The centre line of the eclipse passes near the South Pole. At Cape Horn it will be seen as a small partial eclipse.

IV. A Partial Eclipse of the Moon, December 5, invisible in the United States.

CCXLIV.—In all cases where it shall, upon due proof being made, appear to the satisfaction of the Secretary of the Interior that innocent parties have paid the fees and commissions and excess payments required upon the location of claims under the act entitled "An act to amend an act entitled 'An act to enable honorably discharged soldiers and sailors, their widows and orphan children, to acquire homesteads on the public lands of the United States,' and amendments thereto," approved March 3, 1873, and now incorporated in section 2,306 of the Revised Statutes of the United States, which said claims were, after such location found to be fraudulent and void, and the entries or locations made thereon canceled, the Secretary of the Interior is authorized to repay to such innocent parties the fees and commissions, and excess payments paid by them, upon the surrender of the receipts issued therefor by the receivers of public moneys, out of any money in the Treasury not otherwise appropriated, and shall be payable out of the appropriation to refund purchase-money on lands erroneously sold by the United States.

SEC. 2. In all cases where homestead or timber-culture or desert land entries or other entries of public lands have heretofore or shall hereafter be canceled for conflict, or where, from any cause, the entry has been erroneously allowed and cannot be confirmed, the Secretary of the Interior shall cause to be repaid to the person who made such entry, or to his heirs or assigns, the fees and commissions, amount of purchase money, and excesses paid upon the same upon the surrender of the duplicate receipt and the execution of a proper relinquishment of all claims to said lands, whenever such entry shall have been duly canceled by the Commissioner of the General Land Office, and in all cases where parties have paid double-minimum price for land which has afterwards been found not to be within the limits of a railroad land grant, the excess of one dollar and twenty-five cents per acre shall in like manner be repaid to the purchaser thereof, or to his heirs or assigns.—[Approved June 16, 1880.

Chap. CCXXVII.—When any lands of the United States shall have been entered and the Government price paid therefor in full no criminal suit or proceeding by or in the name of the United States shall thereafter be had or further maintained for any trespasses upon or for or on account of any material taken from said lands, and no civil suit or proceeding shall be had or further maintained for or on account of any trespasses upon or material taken from the said lands of the United States in the ordinary clearing of land, in working a mining claim or for agricultural or domestic purposes or for maintaining improvements upon the land of any bona fide settler or for or on account of any timber or material taken or used by any person without fault or knowledge of the trespass or for or on account of any timber taken or used without fraud or collusion by any person who in good faith paid the officers or agents of the United States for the same or for or on account of any alleged conspiracy in relation thereto: *Provided*, That the provisions of this section shall apply only to trespasses and acts done or committed and the conspiracies entered into prior to March 1, 1879: *And provided further*, That defendants in such suits or proceedings shall exhibit to the proper courts or officer the evidence of such entry and payment and shall pay all costs accrued up to the time of such entry. Persons who have heretofore under any of the homestead laws entered lands properly subject to such entry, or persons to whom the right of those having so entered for homesteads, may have been attempted to be transferred by bona fide instrument in writing, may entitle themselves to said lands by paying the government price therefor, and in no case less than one dollar and twenty-five cents per acre, and the amount heretofore paid the government upon said lands shall be taken as part payment of said price: *Provided*, That shall in no wise interfere with the rights or claims of others who may have subsequently entered such lands under the Homestead laws. The price of lands now subject to entry which were raised to two dollars and fifty cents per acre, and put in market prior to January, 1861, by reason of the grant of alternate sections for railroad purposes is hereby reduced to one dollar and twenty-five cents per acre. This act shall not apply to any of the mineral lands of the United States; and no person who shall be prosecuted for or proceeded against on account of any trespass committed or material taken from any of the public lands after March 1, 1879, shall be entitled to the benefit thereof.—[Approved June 15, 1880.

Chap. CLXIV.—The affidavit required to be made by section 2,262 and 2,301 of the Revised Statutes of the United States, may be made before the clerk of the county court or of any court of record, of the county and

State or district and Territory in which the lands are situated; and if said lands are situated in any unorganized county, such affidavit may be made in a similar manner in any adjacent county in said State or Territory, and the affidavit so made and duly subscribed shall have the same force and effect as if made before the register or receiver of the proper land district; and the same shall be transmitted by such clerk of the court to the register and receiver with the fee and charges allowed by law.—[Approved June 9, 1880.

Chap. CXXXVI.—In all cases in which parties who regularly initiated claims to public lands as settlers thereon according to the provisions of the Preemption or Homestead laws, have become insane or shall hereafter become insane before the expiration of the time during which their residence, cultivation or improvement of the land claimed by them is required by law to be continued in order to entitle them to make the proper proof and perfect their claims, it shall be lawful for the required proof and payment to be made for their benefit by any person who may be legally authorized to act for them during their disability, and thereupon their claims shall be confirmed and patented, provided it shall be shown by proof satisfactory to the Commissioner of the General Land Office that the parties complied in good faith with the legal requirements up to the time of their becoming insane, and the requirement in Homestead entries of an affidavit of allegiance by the applicant in certain cases as a prerequisite to the issuing of the patents shall be dispensed with so far as regards such insane parties.—[Approved June 8, 1880.

Chap. CXL.—When a preemption, homestead, or timber-culture claimant shall file a written relinquishment of his claim in the local land-office, the land covered by such claim shall be held as open to settlement and entry without further action on the part of the Commissioner of the General Land Office. In all cases where any person has contested, paid the land-office fees, and procured the cancellation of any preemption, homestead, or timber-culture entry, he shall be notified by the register of the land-office of the district in which such land is situated of such cancellation, and shall be allowed thirty days from date of such notice to enter said lands: *Provided*, That said register shall be entitled to a fee of one dollar for the giving of such notice, to be paid by the contestant, and not to be reported. Any settler who has settled, or who shall hereafter settle, on any of the public lands of the United States, whether surveyed or unsurveyed, with the intention of claiming the same under the Homestead laws, shall be allowed the same time to file his homestead application and perfect his original entry in the United States land-office as is now allowed to settlers under the Preemption laws to put their claims on record, and his right shall relate back to the date of settlement, the same as if he settled under the Preemption laws.—[Approved May 14, 1880.

Chap. IX.—Section 2,325 of the Revised Statutes of the United States is amended by adding thereto the following words: "*Provided*, That where the claimant for a patent is not a resident of or within the land district wherein the vein, lode, ledge, or deposit sought to be patented is located, the application for patent and the affidavits required to be made in this section by the claimant for such patent may be made by his, her, or its authorized agent, where said agent is conversant with the facts sought to be established by said affidavits: *And provided*, That this section shall apply to all applications now pending for patents to mineral lands." Sec. 2,324 of the Revised Statutes of the United States is amended by adding the following words: "*Provided*, That the period within which the work required to be done annually on all unpatented mineral claims shall commence on the 1st day of January succeeding the date of location of such claim, and this sect on shall apply to all claims located since the 10th day of May, anno Domini 1872."—[Approved January 22, 1880.

All pensioners whose pensions shall be increased by the provisions of this act from fifty dollars per month to seventy-two dollars per month shall be paid the difference between said sums monthly, from June 17, 1878, to the time of the taking effect of this act.—[Approved June 16, 1880.

Chap. CCVI.—In case any railroad company fail or refuse to provide railway post-office cars when required by the Post Office Department said company shall have its pay reduced 10 per centum on the rates fixed in section 4,002 of the Revised Statutes as amended by acts of July 12, 1876, and June 17, 1878. The Postmaster-General is hereafter authorized to furnish and issue to the public postal cards with postage stamps impressed upon them, for circulation in the mails exchanged with foreign countries under the provisions of the Universal Postal Union Convention of June 1, 1878, at a postage charge of two cents each, including the cost of their manufacture.—[Approved June 11, 1880.

PARTY PLATFORMS, 1880.

Republican Platform.

[Adopted by the National Convention, Chicago, June 5, 1880.]

The Republican party, in National Convention assembled, at the end of twenty years since the Federal Government was first committed to its charge, submits to the people of the United States this brief report of its administration:

It suppressed a rebellion which had armed nearly a million of men to subvert the National authority; it reconstructed the Union of the States with freedom instead of slavery as its corner-stone; it transformed 4,000,000 human beings from the likeness of things to the rank of citizens; it relieved Congress from the infamous work of hunting fugitive slaves, and charged it to see that slavery does not exist; it has raised the value of our paper currency from 38 per cent to the par of gold; it has restored, upon a solid basis, payment in coin of all National obligations, and has given us a currency absolutely good and equal in every part of our extended country; it has lifted the credit of the Nation from the point of where 6 per cent bonds sold at 86, to that where 4 per cent bonds are eagerly sought at a premium.

Under its administration railways have increased from 31,000 miles in 1860 to more than 82,000 miles in 1879. Our foreign trade increased from $700,000,000 to $1,150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1860, were $265,000,000 more than our imports in 1879. Without resorting to loans it has, since the war closed, defrayed the ordinary expenses of Government besides the accruing interest on the public debt, and has disbursed annually more than $30,000,000 for soldiers' and sailors' pensions. It has paid $880,000,000 of the public debt, and, by refunding the balance at lower rates, has reduced the annual interest charge from nearly $150,000,000 to less than $89,000,000. All the industries of the country have revived, labor is in demand, wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Republican party asks for the continued confidence and support of the people, and this Convention submits for their approval and the following statement of the principles and purposes which will continue to guide and inspire its efforts:

1. We affirm that the work of the Republican party for the last twenty years has been such as to commend it to the favor of the Nation; that the fruits of the costly victories which we have achieved through immense difficulties should be preserved; that the peace regained should be cherished; that the Union should be perpetuated, and that the liberty secured to this generation should be transmitted undiminished to other generations; that the order established and the credit acquired should never be impaired; that the pensions promised should be paid; that the debt so much reduced should be extinguished by the full payment of every dollar thereof; that the reviving industries should be further promoted, and that the commerce already increasing should be steadily encouraged.

2. The Constitution of the United States is a supreme law and not a mere contract. Out of confederated States it made a sovereign nation. Some powers are denied to the Nation, while others are denied to the States, but the boundary between the powers delegated and those reserved is to be determined by the National, and not by the State tribunal.

3. The work of popular education is one left to the care of the several States, but it is the duty of the National Government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the Nation must be guided, not by the genius of any one State, but by the average genius of all.

4. The Constitution wisely forbids Congress to make any law respecting the establishment of religion, but it is idle to hope that the nation can be protected against the influence of secret sectarianism while each State is exposed to its domination. We, therefore, recommend that the Constitution be so amended as to lay the same prohibition upon the Legislature of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

5. We reaffirm the belief avowed in 1876 that the duties levied for the purpose of revenue should so discriminate as to favor American labor; that no further grants of the public domain should be made to any railway or other corporation; that slavery having perished in the States its twin barbarity, polygamy, must die in the Territories; that everywhere the protection accorded to a citizen of American birth must be secured to citizens by American adoption. That we deem it the duty of Congress to develope and improve our seacoast and harbors, but insist that further subsidies to private persons or corporations must cease; that the obligations of the Republic to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory. To do them honor is and shall forever be the grateful privilege and sacred duty of the American people.

6. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and the treaty-making power, the Republican party, regarding the unrestricted immigration of Chinese as a matter of grave concernment under the exercise of both these powers, would limit and restrict that immigration by the enactment of such just, humane and reasonable laws and treaties as will produce that result.

7. That the purity and patriotism which characterized the earlier career of Rutherford B. Hayes in peace and war, and which guided the thoughts of our immediate predecessors to him for a Presidential candidate, have continued to inspire him in his career as Chief Executive; and that history will accord to his Administration the honors which are due to an efficient, just, and courteous discharge of the public business, and will honor his vetoes interposed between the people and attempted partisan laws.

8. We charge upon the Democratic party the habitual sacrifice of patriotism and justice to a supreme and insatiable lust for office and patronage; that to obtain possession of the National Government and control of the place, they have obstructed all efforts to promote the purity and to conserve

the freedom of the suffrage, and have devised fraudulent ballots, and invented fraudulent certification of returns; have labored to unseat lawfully elected members of Congress to secure at all hazards the vote of a majority of States in the House of Representatives; have endeavored to occupy by force and fraud the places of trust given to others by the people of Maine, rescued by the courage and action of Maine's patriotic sons; have, by methods vicious in principle and tyrannical in practice, attached partisan legislation to appropriation bills upon whose passage the very movement of the Government depended; have crushed the rights of the individual; have advocated the principles and sought the favor of the Rebellion against the Nation, and have endeavored to obliterate the sacred memories and to overcome its inestimably valuable results of nationality, personal freedom and individual equality.

The equal and steady and complete enforcement of the laws, and the protection of all our citizens in the enjoyment of all privileges and immunity guaranteed by the Constitution, are the first duties of the nation.

The dangers of a "Solid South" can only be averted by a faithful performance of every promise which the Nation has made to the citizen. The execution of the laws, and the punishment of all those who violate them, are the only safe methods by which an enduring peace can be secured and genuine prosperity established throughout the South. Whatever promises the Nation makes the Nation must perform. A nation cannot with safety relegate this duty to the States. The "Solid South" must be dividedby the peaceful agencies of the ballot, and all honest opinions must there find free expression. To this end the honest voter must be protected against terrorism, violence, or fraud.

And we affirm it to be the duty and the purpose of the Republican party to use all legitimate means to restore all the States of this Union to the most perfect harmony which may be possible, and we submit to the practical, sensible people of these United States to say whether it would not be dangerous to the dearest interests of our country at this time to surrender the administration of the National Government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring distrust and confusion where there is now order, confidence and hope.

The Republican party, adhering to the principles affirmed by its last National Convention of respect for the constitutional rules governing appointments to office, adopts the declaration of President Hayes that the reform of the civil service should be thorough, radical and complete. To this end it demands the cooperation of the Legislative with the Executive Departments of the Government, and that Congress shall so legislate that fitness, ascertained by proper practical tests, shall admit to the public service.

[The Platform was adopted unanimously as above. The candidates were nominated on 8th of June on the 36th ballot, and were: JAMES A. GARFIELD, of Ohio, for President, and CHESTER A. ARTHUR, of New-York, for Vice-President.]

Democratic Platform.

[Adopted by the National Convention, Cincinnati, June 23, 1880.]

The Democrats of the United States, in Convention assembled, declare:

1. We pledge ourselves anew to the constitutional doctrines and traditions of the Democratic party, as illustrated by the teachings and example of a long line of Democratic statesmen and patriots, and embodied in the platform of the last National Convention of the party.

2. Opposition to centralizationism, and to that dangerous spirit of encroachment which tends to consolidate the powers of all the departments in one, and thus to create, whatever be the form of government, a real despotism. No sumptuary laws; separation of Church and State, for the good of each; common schools fostered and protected.

3. Home rule; honest money—the strict maintenance of the public faith—consisting of gold and silver, and paper convertible into coin on demand; the strict maintenance of the public faith, State and National, and a tariff for revenue only.

4. The subordination of the military to the civil power, and a general and thorough reform of the civil service.

5. The right to a free ballot is the right preservative of all rights, and must and shall be maintained in every part of the United States.

6. The existing Administration is the representative of conspiracy only, and its claim of right to surround the ballot-boxes with troops and deputy-marshals, to intimidate and obstruct the electors, and the unprecedented use of the veto to maintain its corrupt and despotic power, insult the people and imperil their institutions.

7. The great fraud of 1876-'77, by which, upon a false count of the electoral vote of two States, the candidate defeated at the polls was declared to be President, and, for the first time in American history, the will of the people was set aside under a threat of military violence, struck a deadly blow at our system of representative government; the Democratic party, to preserve the country from a civil war, submitted for a time in firm and patriotic faith that the people would punish this crime in 1880; this issue precedes and dwarfs every other; it imposes a more sacred duty upon the people of the Union than ever addressed the conscience of a nation or free men.

8. We execrate the course of this Administration in making places in the civil service a reward for political crime, and demand a reform by statute which shall make it forever impossible for the defeated candidate to bribe his way to the seat of a usurper by billeting villains upon the people.

9. The resolution of Samuel J. Tilden not again to be a candidate for the exalted place to which he was elected by a majority of his countrymen, and from which he was excluded by the leaders of the Republican party, is received by the Democracy of the United States with sensibility, and they declare the confidence in his wisdom, patriotism and integrity, unshaken by the assaults of a common enemy, and they further assure him that he is followed into the retirement he has chosen for himself by the sympathy and respect of his fellow-citizens, who regard him as one who, by elevating the stand-

ards of public morality, merits the lasting gratitude of his country and his party.

10. Free ships and a living chance for American commerce on the seas and on the land. No discrimination in favor of transportation lines, corporations or monopolies.

11. Amendment of the Burlingame Treaty. No more Chinese immigration, except for travel, education, and foreign commerce, and therein carefully guarded.

12. Public money and public credit for public purposes solely, and public land for actual settlers.

13. The Democratic party is the friend of labor and the laboring man, and pledges itself to protect him alike against the cormorant and the commune.

14. We congratulate the country upon the honesty and thrift of a Democratic Congress which has reduced the public expenditure $40,000,000 a year; upon the continuation of prosperity at home and the National honor abroad, and, above all, upon the promise of such a change in the administration of the Government as shall insure us genuine and lasting reform in every department of the public service.

[The Platform was adopted unanimously, as above. The candidates were nominated on the 23d of June on the second ballot. On the ballot for President as first taken no candidate had a majority, but changes were made and a nomination was effected. The candidates were WINFIELD S HANCOCK, of Pennsylvania, for President, and WILLIAM H. ENGLISH, of Indiana, for Vice-President.]

Greenback-Labor Platform.

[Adopted by the National Convention, Chicago, June 9.]

1. That the right to make and issue money is a sovereign power, to be maintained by the people for the common benefit. The delegation of this right to corporations is a surrender of the central attribute of sovereignty, void of constitutional sanction, conferring upon a subordinate irresponsible power absolute dominion over industry and commerce. All money, whether metallic or paper, should be issued and its volume controlled by the Government, and not by or through banking corporations, and when so issued should be a full legal-tender for all debts, public and private.

2. That the bonds of the United States should not be refunded, but paid as rapidly as practicable, according to contract. To enable the Government to meet these obligations, legal-tender currency should be substituted for the notes of the national banks, the National banking system abolished, and the unlimited coinage of silver, as well as gold, established by law.

3. That labor should be so protected by National and State authority as to equalize its burdens and insure a just distribution of its results: the eight-hour law of Congress should be enforced; the sanitary condition of industrial establishments placed under rigid control; the competition of contract convict labor abolished; a bureau of labor statistics established; factories, mines and workshops inspected; the employment of children under fourteen years of age forbidden, and wages paid in cash.

4. Slavery being simply cheap labor, and cheap labor being simply slavery, the importation and presence of Chinese serfs necessarily tends to brutalize and degrade American labor; therefore, immediate steps should be taken to abrogate the Burlingame Treaty.

5. Railroad land grants forfeited by reason of non-fulfilment of contract should be immediately reclaimed by the Government; and henceforth the public domain reserved exclusively as homes for actual settlers.

6. It is the duty of Congress to regulate inter-state commerce. All lines of communication and transportation should be brought under such legislative control as shall secure moderate, fair, and uniform rates for passenger and freight traffic.

7. We denounce as destructive to posterity and dangerous to liberty the action of the old parties in fostering and sustaining gigantic land, railroad, and money corporations and monopolies, invested with, and exercising, powers belonging to the Government, and yet not responsible to it for the manner of their exercise.

8. That the Constitution, in giving Congress the power to borrow money, declare war, to raise and support armies, to provide and maintain a navy, never intended that the men who loaned their money for an interest consideration should be preferred to the soldier and sailor who perilled their lives and shed their blood on land and sea in defence of their country: and we condemn the cruel class legislation of the Republican party, which, while professing great gratitude to the soldier, has most unjustly discriminated against him and in favor of the bondholder.

9. All property should bear its just proportion of taxation, and we demand a graduated income tax.

10. We denounce as most dangerous the efforts everywhere manifest to restrict the right of suffrage.

11. We are opposed to an increase of the standing army in time of peace, and the insidious scheme to establish an enormous military power under the guise of militia laws.

12. We demand absolute democratic rules for the Government of Congress, placing all representatives of the people upon an equal footing, and taking away from committees a veto power greater than that of the President.

13. We demand a government of the people, by the people, and for the people instead of a government of the bondholders, by the bondholders, and for the bondholders; and we denounce every attempt to stir up sectional strife as an effort to conceal monstrous crimes against the people.

14. In the furtherance of these ends we ask the cooperation of all fair-minded people. We have no quarrels with individuals, wage no war upon classes, but only against vicious institutions. We are not content to endure further discipline from our present actual rulers, who, having dominion over money, over transportation, over land and labor, and largely over the press and the machinery of government, wield unwarrantable power over our institutions and over our life and property.

Resolved, That every citizen of due age, sound mind, and not a felon, be fully franchised, and that this resolution be referred to the States, with recommendation for their favorable consideration.

[The resolutions were unanimously adopt-

The Prohibition Reform Party.

At its fourth National Convention, Cleveland, Ohio, General NEAL DOW, of Maine, was nominated June 17, 1880, for President, and the Rev. Dr. H. A. THOMPSON, of Ohio, for Vice-President.

The Platform is devoted to portrayal of the evils of the liquor traffic, and invites all voters to unite with them in the use of the ballot "for the abolition of the drink system now existing under the authority of the National and State Governments." It also "demands as a right that women having in other respects privileges as citizens shall be clothed with the ballot for their protection, and as a rightful means for a proper settlement of the liquor question." This party had Electoral tickets in but few of the States.

The American Party's

Candidates were: For President, General JOHN W. PHELPS, of Vermont; for Vice-President, the Hon. SAMUEL C. POMEROY, of Kansas. They were nominated June 17, 1880. The declared object of the party is "to expose, withstand and remove secret societies, Freemasonry in particular, and other anti-Christ an movements, in order to save the churches of Christ from being depraved: to redeem the administration of justice from perversion, and our republican government from corruption."

CONSTITUTIONAL AMENDMENTS
IN THE STATES.

ARKANSAS.—An amendment declaring null and void the bonds issued under the Act of April 6, 1869, from No. 491 to No. 1,800, inclusive, known as the "Holford Bonds," and railroad aid bonds issued under Act of July 21, 1868, and "Levee Bonds" issued under the Acts of March 16, 1869, April 12, 1869, and March 23, 1871, and prohibiting any tax or appropriation to pay either principal or interest, was rejected at the election September 6. The Yeas were 34,497; the Nays, 41,049; to which are added 27,439 who voted at the election but not on the amendment—making a total of 68,488 against, or an adverse majority of 3,991. The total vote polled was 132,935.

CONNECTICUT.—An amendment that "the judges of the Supreme Court of Errors and of the Superior Court shall, upon nomination of the Governor, be appointed by the General Assembly in such manner as shall by law be prescribed," was submitted at an election held October 4, 1880, and was adopted—yeas, 20,897; nays, 9,310.

INDIANA.—The amendments printed in the ALMANAC FOR 1880 were submitted to popular vote at a special election April 5, 1880, with the following result:

Amendment.	For.	Against.	Maj.	Total.
1. Prescribe qualifications of voters	169,479	152,363	17,116	321,842
2. Suffrage of colored persons	177,542	139,0 2	38,540	316,514
3. Date of election from October to November	174,400	144,812	29,588	319,212
4. To strike out word "white"	176,320	136,279	40,041	312,599
5. Relating to fees	131,887	136,177	45,710	318,064
6. Additional courts	175,612	141,296	34,316	316 908
9. To restrict municipal debt	176,981	126,999	49,982	303,980

June 18—Chief Justice Biddle, Judges Howk and Worden assenting, decided that as a majority of all the electors resident in the State had not voted in favor of the amendment, the affirmative vote of the majority of the electors who actually voted was not adequate, and that the Amendments had therefore not been constitutionally ratified. Judges Niblack and Scott dissented. September 23, the Court, by a majority vote, overruled a petition for a rehearing of the case. As a result, Indiana will remain an October State until a new amendment can be passed by the Legislature and submitted to the people.

MAINE.—An amendment that a "plurality" shall elect the Governor, and another that the members of the Legislature shall hold their offices for two years—both to apply to those elected in September, 1880—were adopted: the former, yeas 57,015, nays 35,402: the latter, yeas 61,653, nays 17,214.

MICHIGAN.—An amendment fixing the annual salary of the Governor at $3,000, the Judges of the Circuit Courts at $1,500, the State Treasurer, the Auditor General and the Superintendent of Public Instruction at $1,000 each, the Secretary of State, the Commissioner of the Land Office, and the Attorney General at $800 each, prohibiting them from receiving any fees or perquisites, and the Legislature from increasing these salaries, was rejected at the spring election of 1880—yeas, 49,035; nays, 91,153; blank, 42—total, 140,830.

At the November election, in 1880, votes were taken in FLORIDA, IOWA and KANSAS on calling a constitutional convention, and in COLORADO, ILLINOIS, IOWA, KANSAS, MICHIGAN, NEVADA, NEW-YORK, NORTH CAROLINA and SOUTH CAROLINA on Constitutional Amendments, the substance of which and the votes will be found in the subsequent pages with the other election tables of those States.

NOTE.—The expenditures for 1869, 1870, 1871, 1872, 1873, 1874, 1875 and 1876 have been analyzed at the Treasury Department, and the amounts paid directly on account of the rebellion were as follows:

1869.....	$199,823,462 24	1871.....	$109,745,220 93	1873.....	$157,262,415 81

				1875.....	140,919,679 33
				1876.....	147,882,034 75

A letter of the Secretary of the Treasury to the Senate, June 10 1880 shows that of the gross expenditures of the Government from July 1, 1861, to June 30, 1879, of $4,944 571,431 03, the sum of $6,189 929,908 58 was expenditure growing out of the War of the Rebellion.

‡ The unusually large payment of interest on the public debt during the fiscal year 1878 is accounted for by payments of interest which had accrued in former years, and by the fact that from July 1, 1877, to July 1, 1878, a large amount of 6 per cent bonds (interest payable January and July) were funded in bonds bearing 4 1-2 and 4 per cent interest, payable quarterly. Had the 6 per cent bonds not been converted, the interest thereon from January, 1, 1878, to July 1, 1878, would not have been due and paid until after the beginning of the fiscal year 1879; but the quarterly interest on the 4 1-2 and 4 per cent bonds fell due and was paid during March and April of the fiscal year 1878, and thus caused an apparent increase of interest for the year. The interest falling due within the year was $99,735,461 63.

¶ Includes $5,373 000 on Arrears of Pensions act.

‖ Includes $5,500 000 in payment of the Halifax award, and $3,597,516 41 on account of the Dis't of Col.

** The funding operations involved a temporary increase of interest on public debt.

‡4,842 Lynch votes and 715 Chalmers votes are claimed to have been thrown out by the Election Commissioners in six of the twelve counties for alleged irregularities and informalities, besides others "shotgunned out." In Coahoma County it is also charged that every box save one was thrown out, and the county, which polled 2,769 votes in 1876, is returned on President, as having cast 576, and on Congress, 578.

The Presidential vote given above is that declared by the State Board of Canvassers. That given in the tables of County Returns is the vote cast for the first-named candidate for Electors at-Large on each ticket. The application of this rule in gathering and presenting the County returns by towns has caused, and will explain, an occasional unimportant variation in those totals from the returns as declared by the State Board of Canvassers For instance, Mr. Hewitt, the first-named Democratic candidate for Elector-at-Large, received in the City of New-York 2 votes less than the rest of his colleagues. The

returns by Assembly Districts, therefore, show General Hancock's vote in New-York City to have been 123,013, whereas the vote, as declared by the State Board of Canvassers, was 123,015. Either one name must be taken as a test, or the highest vote must be taken, or an average must be made. In dealing with a large number of towns, the former rule was preferred, for its simplicity.

The Amendment amends Sections Twelve and Thirteen of Article Six so as to read as follows:

§ 12. The Superior Court in the City of New-York, the Court of Common Pleas for the City and County of New-York, the Superior Court of Buffalo, and the City Court of Brooklyn are continued, with the powers and jurisdiction they now severally have, and such further civil and criminal jurisdiction as may be conferred by law. The Superior Court of New-York shall be composed of the six Judges in office at the adoption of this article, and their successors. The Court of Common Pleas of New-York, of the three Judges then in office, and their successors, and three additional Judges. The Superior Court of Buffalo, of the Judges now in office, and their successors; and the City Court of Brooklyn, of such number of Judges, not exceeding three, as may be provided by law. The Judges of said courts in office at the adoption of this article are continued until the expiration of their terms. A Chief Judge shall be appointed by the Judges of each of said Courts from their own number who shall act as such during his official term. Vacancies in the office of the Judges named in this section, occurring otherwise than by expiration of term, shall be filled in the same manner as vacancies in the Supreme Court. The Legislature may provide for detailing Judges of the Superior Court and Court of Common Pleas of New-York to hold circuits and special terms of the Supreme Court in that city; and for detailing Judges of the City Court of Brooklyn, to hold circuits and special terms of the Supreme Court in Kings County as the public interest may require.

§ 13. Justices of the Supreme Court shall be chosen by the electors of their respective judicial districts. Judges of all the courts mentioned in the last preceding section shall be chosen by the electors of the cities respectively in which the said courts are instituted. The official terms of the said Justices and Judges who shall be elected after the adoption of this article shall be fourteen years from and including the first day of January next after their election. But no person shall hold the office of Justice or Judge of any court longer than until and including the last day of December next after he shall be seventy years of age. The compensation of every Judge of the Court of Appeals, and of every Justice of the Supreme Court, whose term of office shall be abridged pursuant to this provision, and who shall have served as such Judge or Justice ten years or more, shall be continued during the remainder of the term for which he was elected.

Health is Wealth.---Health of Body is Wealth of Mind.

RADWAY'S

SARSAPARILLIAN RESOLVENT.

Pure blood makes sound flesh, strong bone and a clear skin. If you would have your flesh firm, your bones sound without caries, and your complexion fair, use **RADWAY'S SARSAPARILLIAN RESOLVENT.**

A remedy composed of ingredients of extraordinary medical properties essential to purify, heal, repair and invigorate the broken-down and wasted body—QUICK, PLEASANT, SAFE and PERMANENT in its treatment and cure.

No matter by what name the complaint may be designated, whether it be Scrofula, Consumption, Syphilis, Ulcers, Sores, Tumors, Boils, Erysipelas, or Salt Rheum, Diseases of the Lungs, Kidneys, Bladder, Womb, Skin, Liver, Stomach, or Bowels, either chronic or constitutional, the virus of the disease is in the BLOOD which supplies the waste, and builds and repairs these organs and wasted tissues of the system. If the blood is unhealthy, the process of repair must be unsound.

The Sarsaparillian Resolvent not only is a compensating remedy, but secures the harmonious action of each of the organs. It establishes throughout the entire system functional harmony, and supplies the blood vessels with a pure and healthy current of new life. The skin, after a few days' use of the Sarsaparillian, becomes clear and beautiful. Pimples, Blotches, Black Spots, and Skin Eruptions are removed; Sores and Ulcers soon cured. Persons suffering from Scrofula, Eruptive Diseases of the Eyes, Mouth, Ears, Legs, Throat and Glands that have accumulated and spread, either from uncured diseases or mercury, or from the use of *Corrosive Sublimate*, may rely upon a cure if the Sarsaparillian is continued a sufficient time to make its impression on the system. "THE LEADING AMERICAN NEWSPAPER."

THE TRIBUNE FOR 1881.

THE LARGEST CIRCULATION AMONG THE BEST PEOPLE.

During the past year THE NEW-YORK TRIBUNE reached the largest circulation it ever attained, with the single exception of a short period in the first Lincoln campaign. It is a larger circulation, and more widely distributed over the whole country than any ever enjoyed by any other newspaper in the United States. This fact may be taken as the verdict of the American People on THE TRIBUNE'S political force, its fidelity to sound principles, and its merits as a newspaper.

For 1881, THE TRIBUNE will try to deserve equally well of the public. What and how much it did for the success of General Garfield it is content to let earnest Republicans tell. It now hopes to give to his Administration a discriminating support as effective as its efforts for his election. THE TRIBUNE will labor to promote a free and fair suffrage, South and North, sound money, Protection to Home Industry, judicious liberality in Internal Improvements, and a Civil Service conducted on business principles, on the theory of elevating, not of ignoring or degrading politics. The events to be recorded in THE TRIBUNE for 1881 will have a peculiar interest. The year promises to show whether the South will still sacrifice everything to solidity; and whether the Democratic party, after twenty years of disloyality and defeat, will dissolve or reform. Abroad it will show whether England can compose Ireland; whether the Republic in France, without the support of the leaders who established it, can stand alone; whether the Turk can longer pollute Europe. In Science it promises such practical triumphs as the use of electricity for gas, new modes of heating, and new forms of power in place of steam. In Literature and Art it offers the very flower of our Nineteenth Century development; in Religion, a concentration of force and union of organizations on simpler creeds and better work. No intelligent man will be willing to live through the year without reading of these things; and he will be wise to look for them in the journal which has long enjoyed the distinction of

The Largest Circulation Among the Best People.

This position THE TRIBUNE secured and means to retain by becoming the medium of the best thought and the voice of the best conscience of the time; by keeping abreast of the highest progress, favoring the freest discussion, hearing all sides, appealing always to the best intelligence and the purest morality, and refusing to cater to the tastes of the vile or the prejudices of the ignorant.

The well-known special features of THE TRIBUNE will be sedulously maintained. Its Agricultural Department will remain the fullest and best. The Household and the Young Folks' Departments, the literary, scientific and religious features, the standard market reports, will all be kept up, and, as opportunity offers, extended.

The special premiums for THE TRIBUNE now surpass in liberality any ever offered by any other paper. These, with terms to clubs, and other interesting information, will be found on the following page.

Any further information concerning premiums, etc., will be promptly and cheerfully given. Address, THE TRIBUNE, NEW-YORK.

TRIBUNE ALMANAC FOR 1882.

ECLIPSES.

In the year 1882 there will be two eclipses, both of the Sun.

I. A Total Eclipse of the Sun, May 17, invisible in this country. The line of totality starts in Northern Africa, passes across the Red Sea and Central Asia, and leaves that Continent at Shanghai. It will be visible in Europe as a partial eclipse.

II. An Annular Eclipse of the Sun, November 10, invisible in the United States. The central track of this eclipse begins near the Philippine Islands, passes north of Australia and New-Zealand, and along the southern part of New-Guinea, and ends near Easter Island in the Southern Pacific Ocean. In Australia and New-Zealand it will be visible as a partial eclipse.

TRANSIT OF VENUS.

In addition to these solar eclipses, there will be a Transit of Venus across the Sun's disk, December 6. This is the last Transit of Venus that will occur for two centuries, the next transit taking place June 8, A. D. 2004. In Europe, the ingress or entrance of the planet on the solar surface will alone be seen. At San Francisco, and in most portions of the Northwest, ingress will take place before sunrise. In all other parts of the United States, the whole transit will be visible. The following table shows the time of ingress and egress at the places named. External contact will take place at Ingress 20 minutes earlier, and at Egress 20 minutes later, than the times named for internal contact.

Eclipses of Jupiter's Satellites.

The Eclipses of Jupiter's Satellites have been carefully calculated, and the times of their disappearance and reappearance set down in the National Ephemeris. They are useful in furnishing local time where the longitude is known, or the longitude where correct local time is known. In the following table are given the phases of the eclipses visible at Washington, with the Washington mean time of their occurrence. Between conjunction and opposition the shadow of Jupiter lies to the west or right of the planet (by direct vision), where the phenomena should be looked for. After opposition the satellites disappear, and reappear on the east or left-hand side of the planet. The satellites are represented by the Roman numerals I. II, III, according to the order of their distance from Jupiter. D is the disappearance or immersion of the satellite in the shadow of the planet. R its reappearance. The fourth satellite will not be eclipsed during 1882.

PARTY PLATFORMS, 1881.

Massachusetts Republican.

[Adopted September 21.]

The Republicans of Massachusetts declare their continued devotion to the principles of the National Republican party; the sovereign, inviolable nationality of the union of States; the independence in prerogatives and in functions of the executive, legislative and judicial departments; freedom of all men obedient to law; the equal rights under law of all citizens; impartial suffrage as the basis of political power; fair elections as the means of ascertaining the popular will; the rule of the lawful majority; payment of the public debt to the last dollar of honorable obligation; a metallic currency of equal and stable status for the security of the people in their trade and savings; honesty, efficiency and economy in the public business; the exemption of the Civil Service from partisan spoliation; the promotion at public expense of general education; the development of our natural resources, and the fostering protection of American capital and American labor engaged in industries that tend to make us a self-reliant Nation, prepared for every exigency of peace or war.

Recognizing with satisfaction that so much has been accomplished toward the universal acceptance and faithful application of these principles, we turn confidently to the work remaining to be done, and set forth as among measures of present desire and urgency the following:

First—The exertion of all powers of the Government to more effectually guard the right of every citizen entitled to vote to the free exercise and just effect of his suffrage. It is the duty of Congress to refuse to admit to seats in that body persons who were chosen at elections where legal voters had no fair chance to vote, where the ballot-boxes were fraudulently purged or stuffed, or where the legal votes cast were dishonestly counted.

Second—Legislation by Congress to give the country a currency having one standard of value—that of the gold dollar. To this end the coinage of silver dollars of less intrinsic value than the gold dollar should be stopped, and the law making paper money a legal tender should be repealed.

Third—A revision of the Tariff laws to make them conform more justly to the present development and needs of our various industries and foreign commerce; but this measure, affecting vitally industries in which vast capital is invested, and upon which millions of our people are dependent for daily bread, should be comprehensive, not partial; conservative, not destructive. In our judgment it cannot be undertaken safely until after the whole subject shall have been thoroughly investigated by a competent National commission. For this reason we urge the prompt passage of a bill creating such a commission with adequate powers.

Fourth—A thorough reform in the methods of making and obtaining appointments to the Civil Service. Reform in this regard implies an abandonment of the system of appointment by favor, in reward of personal or partisan claims, a system aristocratic, because open only to the few and closed to the many, a system affording the fewest restraints against the abuse, tending to extravagance and inefficiency in the public business, and to selfishness, corruption and violent politics, to the aggravation of all the baneful effects of the spirit of party against which Washington, in his farewell address, solemnly warned his countrymen. The needed reform will comprehend these aims, namely: The maintenance of the Constitutional prerogative of the President to make nominations on his sole responsibility, and of the Constitutional prerogative of the Senate to confirm, or refuse to confirm, such nominations, free from Executive dictation; the relief and exclusion of the members of the legislative branch from the business of selecting office-holders in the department of the Administration; the prohibition of assessments upon the salary of office-holders for party purposes, appointments to clerkships to depend, in the first instance, upon successfully passing a proper examination, open to all applicants without distinction of party, and, secondly, upon satisfactory service during a period of probation; tenure of office during good behavior, or for a reasonable fixed term, with promotion for meritorious performance of duty, and no removals except for cause. We enjoin upon our Members of Congress the duty of advancing this reform by every means in their power, experience having shown that the voluntary efforts of any Administration in this cause are apt to be partial, ineffectual, and subject to relapse. We urge upon our representatives that they are expected to aid the adoption of measures designed to give to good intentions the support of a commanding law, binding upon the willing and the unwilling alike.

Fifth—The establishment by law of methods of ascertaining the results of Presidential elections, so as to give the conclusive effect the Constitution demands to the action of each State, and to prevent the exercise by the Houses of Congress of anything in the nature of appellate or revisory power over the action of the constituted authority of the State in such cases.

Sixth—The devotion of some part of the revenues of the Nation to aid the States where illiteracy is most prevalent in supporting an efficient system of common school education, so far as may be consistent with the Constitution of the United States.

Seventh—A wise and stable Indian policy,

which shall recognize that Indians living in peace and doing no wrong have rights which individuals and the Government are bound to respect. We approve of the efforts of the last two Administrations for the education in civilization and virtue of the Indian tribes, and recommend a multiplication of the promising experiments at Hampton and Carlisle. We also approve of the policy of giving homesteads to the Indians in severalty, and of bringing them under the dominion and protection of the laws of the land, administered by courts of justice, with a view to their ultimate admission to full citizenship.

Eighth—Immediate and stringent measures to suppress the crime of polygamy, which, under the guise of a precept of religion, is spreading over the Southeastern Territories and intrenching itself in defiance of law and morality, a rank offence and an increasing threat. It has been too long tolerated.

For the second time in its brief history the Republican party is called to mourn the untimely death by assassination of a trusted and beloved leader chosen to the Chief Magistracy of the people, and while in the administration of their high office. Abraham Lincoln and James A. Garfield sprang from the class whom the former called the "plain people." Both disciplined in early life by poverty and toil, both obedient to the voice that bade them to aspire, to strive to be honest, and to serve their country, and rose from obscurity to the first places in the affections and the confidence of the Nation; were elevated to its highest honor; proved their right to a rank among the wisest and bravest of the earth; died the death of martyrs to duty and to patriotism, and are enrolled among the immortals whose virtues and whose fame are no longer the exclusive possession of a party or a land, but the pride of all mankind and the precious heritage of all coming ages. The Administration of President Garfield, although cut off almost as soon as it had begun, will be memorable in our annals as one of rapid and splendid statesmanship. It vindicated, in an unparalleled contest, the Constitutional prerogative of the executive office; it successfully completed the great work of refunding the public debt, notwithstanding the embarrassing situation created by an incompetent Congress; it overthrew a powerful conspiracy of plunderers of the Treasury and prepared their indictment; it introduced into the Post Office Department a business system that will make it self-supporting, while increasing its usefulness. In profound gratitude for the example of such a citizen and such a public servant, we tender the sincere sympathies of this Convention to his aged mother, his noble wife and his orphaned children.

General Chester A. Arthur was elected by the Republican National Convention as the associate of General Garfield on the Republican ticket, and chosen by the people to be his successor in the Presidency in such a case as has arisen. The Republicans of Massachusetts, in full appreciation of the peculiar embarrassments of his assumption of the office, and in full expectation of his faithfulness to the principles of the party and the just anticipations of the people of the country, pledge their cordial, considerate and united support to him.

Massachusetts Democratic.

[Adopted October 5.)

We, the Democrats of Massachusetts, convened to consult upon the common weal, once more avow our constant faith in the expediency and right of democracy in government as expounded by its great teachers, those early sages of the Republic, Jefferson and Madison. We believe the government best adapted to social welfare is the one which assures equal privileges, domestic tranquillity and justice with the least abridgment of individual freedom. Admonished by the lessons of history, we are jealously watchful of the government power, so liable to abuse by the ambition and lust of rulers, and would hold it within the narrowest efficient limits, establishing its responsible repositories as close as possible to the people. We believe the distribution of supreme governmental powers in the dual sovereignty of State and Nation, defined in the Federal Constitution, and affirmed in our State Constitution, is the most conservative of a pure administration and of democratic political conditions.

We deny that the right inheres in the sovereignty of a State to defeat the Federal sovereignty by renunciation of allegiance to the Union, and we support the Federal Constitution as supreme in authority over State and people in respect to all matters expressly relegated to its jurisdiction, and the Union as indestructible save by successful revolution or the common consent; but we equally maintain the right of the people of each State to exercise fully all the powers of political sovereignty not relinquished to the general government for the assertion of its prerogatives and dignity as the representatives of a great nation. The application of these conservative principles to all the concerns of government, Federal and State, is especially important to the safety of our democratic institutions against the insidious encroachment of aristocratic tendencies and the efforts of organized avarice and ambition to insure the powers of government for their profit and aggrandizement by the sacrifice of the common welfare.

We regard the National debt as a hindrance to our commercial well-being, the removal of which by honest payment as speedily as possible with simple and moderate taxation should be the strenuous policy of the Government, and to that end we insist upon austere frugality and integrity in public expenditures, and the most advantageous investment of our interest-bearing debt, which should be as favorable as that of any other nation. The debt should be so placed as to be within the power of the Government to pay it as rapidly as our available resources shall allow. We regard the defeat of the Wood Funding bill in the last Congress by the influence and under the menace of the organized money power as a triumph of private selfishness over public interest, and a financial loss only partially repaired by the unlawful expedient to which Mr. Windom resorted. Our fiscal legislation and the management of the Treasury Department have deferred too much to the wily operators who gamble in the money centres for the wealth and industry of the country. Our satisfaction in the debt reduction is qualified by the fact that the reduction would be greater by many millions of dollars annually but for official dishonesty and ex

travagance. No apparent zeal in correcting abuses when found out can exonerate the party in power from culpable responsibility for the existence of such abuses under its rule. Under a capable administration such colossal frauds as those exposed in the Postal Service, and similar ones that have scandalized the last three Federal administrations, would be impossible. We demand that the guilty officials and their confederates, however high in place or party favor, shall be punished for their crimes and made to disgorge their plunder as indemnity for the past, and that such reform shall be instituted in administrative methods as shall prevent like conspiracies in the future.

We do strongly assert the importance of an intelligently bold revision of the tariff laws, now confessedly ill-adjusted and, in fact, burdensome, by which several industries now discriminated against may obtain relief from invidious injustice, monopolies be arrested in their spoliations, and the incidental benefits and burdens be equitably proportioned to all, as may be consistent with the needs of the revenue. Our National policy and legislation, to be democratic and just, must discourage all monopolies and do equal justice to each one of the various industries which engage the enterprise and labor of the people. We hold it manifest that the permanent prosperity of our continent—a land in which all the industrial arts have a home—cannot be strengthened or made secure by the destruction or impoverishment of certain branches of industry to build up and sustain others. The coming government should protect all and oppress none. Our statesmanship is called to seriously contemplate the near event when our artisans and manufacturers will, like our agricultural interests, seek a market for their productions in addition to the home market in even competition with the manufacturers and artisans of other countries. We urge that the burden by taxation on the producing classes by the present tariff is a grievance that ought to give place to lighter duties more justly distributed. We regard it as crippling the shoe and leather and many other industries of the country, and as destructive to foreign commerce under our national flag. The decay of the carrying trade, ship building and the fisheries, as well as the loss of prestige on the ocean, is the result of the high taxation, direct and indirect, which a mistaken policy has loaded on these industries. We protest that too much revenue is raised, and that the weight of Federal taxation falls unequally on the laboring and middle class interests of the country; further, that the tonnage duties imposed on American vessels should be abolished. The drawback law for shipbuilding, now inoperative for useful purposes, should be remodelled to give practical relief against the wrongful depression of shipbuilding by taxation, which it condemns. We reiterate our faith in the ability of American shipmasters, sailors and shipbuilders to compete with their mates of any nation in the carrying trade whenever the load of Federal and local taxation shall be removed from the men and ships that float our flag. We ask not bounties, but we do demand that Congress shall give our commerce a living chance upon the ocean.

We declare our fixed purpose so soon as Democrats shall have a controlling part in the National Administration, that the civil service be simplified from its present overgrown and corrupting proportions; that appointments to it be regulated by law, and removed so far as possible from personal favoritism and political patronage, and that all subordinate civil officers shall know and feel that during their prescribed term of office they owe all to their country and nothing to their party chiefs, while they shall also know and feel that they cannot, any more than Senators and Representatives, fasten themselves as a permanent life burden on the body politic.

We feel as profoundly as any of our countrymen the sorrowful stroke that bows the heart of the Nation in solemn sadness above the sepulchre of its cruelly murdered Chief Magistrate; but we lift our heads to behold the Republic unshaken and stately as ever in the path of its great career. Touched by the manifestations of patriotic feeling which the tragic event evokes from all classes and sections, we realize with gladness that the Nation has builded anew on its original and sure foundation—the kindred affection and loyal instincts of all its people. We trust that the recent unkindness between the North and South is finally buried in that hallowed grave of the Nation's dead, and that no unworthy party spirit or sectional uncharitableness will ever vex its repose.

New-York Republican.

[Adopted October 5.]

The Republicans of New-York declare as follows:

First—That we unite with our fellow-citizens throughout the Union in deploring the incalculable calamity which has befallen the country in the death of the late President, James Abram Garfield. Under the kindly influence of American institutions and by the force of noble manhood he rose from the humblest walk of life to the highest earthly station. By manliness and gentleness of nature; by loftiness of public spirit and disciplined intelligence for public affairs; by strength of political conviction, blended with singular moderation of temper and urbanity of expression—above all by that rare and noble temper which dares to be just, and which alone composes angry States, reconciles parties and secures wise reform, he was singularly fitted for the great office to which he was elevated by the free choice of his fellow-citizens. The opening of his Administration had won the confidence of the country by completing the refunding of the public debt, by exposing a vast system of public robbery and by hastening the prosecution of the robbers, by its frank declaration of the intention to ask the aid of Congress to restore the conduct of the public business to business principles, and by its triumphant vindication of the constitutional authority of the Executive office. Suddenly stricken by a mortal blow, he lay face to face with death for eighty days with such sublime serenity of courage, unquailing faith, cheerful patience and gracious courtesy that the heart of Christendom beat with sympathy and admiration and brought every nation to our side as friends and brothers. Already his name shines among the world's heroes, and it is written upon American hearts with the names of Washington and Lincoln. Cherishing the memory of his

brave, simple, manly character, inspired by his lofty aims and unsullied life, and impressively warned by the circumstances of his assassination, we pledge ourselves anew to the great National objects to which the late President was devoted, and which are now bequeathed to the party that he so patriotically served, and of whose name and fame he was so justly proud. We respectfully offer to the venerable mother, the devoted wife and the bereaved children of the late President the assurance of our deep and tender sympathy in a sorrow which only Divine power can console, but which has all the alleviation that the spotless memory of the dead, the tearful gratitude of the country, and the sincere grief of the world can afford.

Secondly—That we have entire confidence in the ability, integrity and patriotic intentions of Chester A. Arthur, President of the United States; that his life-long record gives earnest of his fidelity and devotion to the cause and principles of the Republican party; and, believing that he will carry out the views expressed by him in his inaugural address, and that his Administration will be in line with that of his lamented predecessor, in accord with the clearly defined principles and policy of the Republican party, and in harmony with the just expectations of those who gave him their suffrages for the high and responsible office to which he was elected, we tender to him our entire confidence and cordial support. His manly bearing and sympathetic acts in the time of National affliction command our respect and admiration.

Thirdly—That the triumphs of Republican management of the National finances are being constantly maintained, as shown by the payment of more than $17,000,000 of public debt during the month of September, and by the reduction of the annual interest to less than $62,000,000, while the surplus revenues justify the reduction of the taxes at an early day; and that this duty Congress should approach with due regard to the protection of American industry, and with the aim to reduce the number of tax-gatherers, and remove occasion for offensive and costly litigation.

Fourthly—That those who conspire to defraud the Government are the worst enemies of the party to which they belong, and the Republican party has among its strongest claims to popular gratitude the war which it has waged against the corruption which grew out of the expenditures consequent on the Rebellion, the punishment which it has meted out to dishonest officials of whatever rank, and its persistent vigor in favor of economical and honest administration. The abuses and prosecution of the abuses connected with the Star Routes in the Post Office Department redound to the credit of President Garfield, and in pressing the prosecution to the full satisfaction of justice, President Arthur may be assured of the hearty approval of the people.

Fifthly—That we pledge President Arthur our earnest support in every effort for the enforcement of Civil Service reform, recognizing as we do the fact that abuses in connection with the dispensation of official patronage may be largely eliminated, if not wholly removed, by wise and practicable methods of administration.

Sixthly—That the wisdom, prudence and economy shown by Governor Alonzo B. Cornell during his administration of the affairs of the State, entitle him to the thanks and gratitude of the people. His careful scrutiny of legislation, his judicious exercise of the veto power, his persistent enforcement of the principles of retrenchment, and his fearless discharge of all the duties of his office, have, in the development of the best qualities of practicable statesmanship, vindicated the wisdom of his election.

Seventhly—That as the Republican party has always been identified with whatever was deemed essential to the maintenance of the commercial supremacy of the State, we are in favor of submitting to the people the question of making our canals practically free.

Eighthly—That we are in favor of an equitable system of taxation that will reach corporations as well as individuals, and that we are opposed to all monopolies that oppress the people or unfairly discriminate against local interests.

New-York Democratic.

[Adopted October 12.]

The Democratic party of New-York again declares its fidelity to the principles set forth by the New-York State Democratic Conventions of 1874, 1875 and 1876, which were thrice approved at the ballot boxes by the people of the Empire State, and were vindicated by the wise administration of the Democratic State Executives then chosen, and to the principles set forth by the National Democratic Convention at St. Louis, which were approved by decisive popular and electoral majorities in the Presidential election of 1876. The victories then won in this State and in the United States were in the name and for the sake of reform. The people were defrauded of the fruits of victory in the Federal elections by the false count of the electoral votes in 1876 and flagrant corruption in the election of 1880. Reform throughout the Federal administration is still a necessity. The continuing disclosures of new and hitherto concealed plundering of the people's fund by inner rings in the Treasury, the Post Office, and the Interior departments, demonstrate that reform is now more than ever a necessity. It remains for the the National Democratic party to restore the Federal Government to the fraternal spirit, the constitutional principles, the frugal expenditure and the administrative purity of the fathers of the Republic. It remains likewise for the Democracy of the State of New-York, and it is their first political duty, to resume and carry on to a successful completion in all departments of its government the great measures and policy of administrative reform which between 1874 and 1876 reduced by one-half the burden of our State taxation, and which then and during the three succeeding years established throughout the Executive departments vigor, economy and fidelity to public trusts. To that immediate duty this Convention pledges the united efforts of the Democracy of New-York, and the loyal devotion of the nominees whom it shall commend to the choice of their fellow-citizens.

The assassination of the late President of the United States was a crime against authority, against free institutions and against humanity. We deplore and denounce the crime in all its public and private aspects. We extend, as citizens, our most profound condolence to the family of the murdered

Chief Magistrate, and regard with great gratification the universal expressions of sympathy extended by all nations and peoples.

We renew the expression of our demand for the refunding of the National debt at the lowest possible rate of interest. The New-York Democracy, as always, stand by gold and silver as the legal tender of the Constitution, and by the doctrine that all paper mediums of money must be based on those metals, at the standard values of the world. We demand the payment of principal and interest of every dollar of public indebtedness. "Readjustment" is repudiation. The act of the Northern Republican leaders in giving the support of that party to repudiation in Virginia, Mississippi, Minnesota and other States, is a national disgrace, dangerous as a precedent and destructive of the public credit. We call upon the Democrats in Congress to maintain the standard of retrenchment by which their Democratic predecessors reduced the Federal expenses $40,000,000 in a year. We demand a thorough and immediate investigation into the Star Route and other frauds upon the National Treasury, and a vigorous prosecution, already too long delayed, of all of the participants, both high and low, in these grave crimes, whereby the moneys of the people were stolen from the Treasury and the plunderers were made to provide a corruption fund which was used to carry the last Presidential election for the Republican party.

We indorse and applaud the united and honest action for Democratic principles and candidates of the fifty-four Democratic members of the last Legislature. They honored their State, their party, and themselves. We denounce the Republican majority, because that majority defeated every measure of transportation reform at the bidding of its masters, the corporations. It enacted jobs directly increasing the public burdens by millions. It failed to meet the urgent question of assessment and taxation reform. It refused the demand of the State for a feasible and enforcible Excise law. It left the farmers of New-York where the action of the Governor placed them, at the mercy of the oleomargarine ring. It struck hands, for political greed, with the abettors of disease and death in the metropolis. It prolonged the session of the Legislature far into the summer at an aggregate expense of $200,000 to the people. It became in a factional struggle of placemen the participant in scandals and crimes which brought dishonor and disgrace upon the good name of our State. When the Republican Legislature adjourned the people rejoiced as if delivered from a pestilence, and the officers of the law were obliged to begin the work of prosecuting the briberies and perjuries committed by corrupt leaders of that party while plying their vocation in the Capital of the State.

We are in favor of such a reform by legislative enactment, as well as by administrative action, in the Civil Service of the country as will substitute for the present periodical scramble for spoils a wise system of appointment and promotion, by which the incumbency of subordinate offices shall be regulated by law and depend only upon capacity and character, and demand that no assessments shall be levied upon public officers for political purposes.

The public welfare demands that the various questions relating to chartered monopolies and the methods of transportation should be met and decided, and we are in favor of the adoption of measures to restrict the growing power of such monopolies. They should be subjected to the supervision of commissioners established by public authority. All unjust discriminations in the transportation of passengers and merchandise should be prohibited. The charges of corporations which have taken the property of private citizens for public use should be limited to the cost of service with a reasonable profit, instead of the mercenary exaction "of all the traffic will bear."

We approve of the unanimous action of the Democratic members of the last Legislature in providing for the early submission to the people of an amendment to the Constitution in favor of free canals.

The Democratic party, now and always unalterably opposed to the centralization of power in either the State or Federal Governments, hereby requests its representatives in the Legislature to provide and make effective an amendment to the Constitution which shall extend the principle and the powers of local self-government to the cities of the State.

To the record of the Democracy of New-York we point with confidence. We challenge a comparison of its record with that furnished by the factions which were once the Republican party of this State.

To the candidates of this Convention we pledge a hearty support, and we confidently submit our action, as the representatives of a free Democracy, to the good people of this Commonwealth for their verdict at the polls.

New-York Greenback-Labor.

[Adopted August 24.]

The seventeen years of peace which have elapsed since the war prove that neither the Republican nor the Democratic party can restore harmony, confidence or good feeling between the people of the North and South; that while these parties exist the country will remain divided into two great hostile political camps, in both of which the people will be governed by sectional prejudice instead of reason and judgment, because the people of the South hate the Republican party for the wrongs they claim that party has brought upon their section, while the people of the North despise the Democratic party for its cowardice on all questions of public interest and its utter lack of fixed principles or policy. During these years no united effort has been made by either of these parties to correct the abuses of corporations or restrain their corrupting influence over legislation; and during much of this time honest labor was unemployed and forced to idleness and want because both united in a policy of contracting the currency to such an extent as rendered the profitable employment of labor impossible. During this time land monopolists have been permitted to obtain control of nearly all the valuable public lands, but no laws have been proposed by either of these parties for the protection of actual settlers or which guarantee citizens their right to vote and have their votes honestly counted. Under such circumstances the organization and success of a new party based on questions of present interest to the entire people, and recognizing the changed conditions incorpo-

rated capital has brought upon the country—a party which shall be in accord with the principles and theories of liberty laid down by the founders of our Government—must precede any just, wise or beneficial legislation for the American people; therefore,

Resolved, That the platform of principles adopted by the Convention of the National Greenback-Labor party, held in Chicago, June 9, 1880, embracing the following demands:

The unification of the people of the whole country; the overthrow of all monopolies by the resumption by the Government of the power to issue and control the money of the people, and by a Government control of railroads and other transportation corporations; the just payment of our National debt according to the laws under which it was contracted; the protection of labor by the establishment of an honest fiscal and financial system, and by securing to every citizen the inalienable right to the soil, and the general administration of the Government in the interest of the producing many, instead of, as at present, the non-producing few—is one under which all citizens desiring to accomplish these reforms can unite under the banner of that political party which first presented them as questions to be settled by American citizens.

THE RESOLUTIONS.

Resolved, That all the money paid to railroad companies for transporting persons or property in excess of what is required to pay the legitimate expenses of operating such roads and a fair return on their actual cost, is in violation of the fundamental law of public use which allows railroads to be built, and should immediately be prohibited by legislative enactment.

Second—That railroad companies should be prohibited by law from charging more for transporting property during the season when water navigation is closed than they charge for like services during the season of open-water navigation.

Third—That we work for the lawful suppression of any traffic or custom that encourages crime.

Fourth—That this Convention recognizes the National Greenback Party as the original anti-monopoly organization of the country, and, as such, extends the hand of sympathy to the anti-monopoly leagues for the public service they are rendering in educating the people on one of the questions contained for years in our platform.

Fifth—That the Government should exchange its legal-tender notes for any of its interest-bearing debts at par on demand and for gold or silver bullion or coin at their legal weight values.

Sixth—That we recognize the fact that all chief executive officers should have entire control of the selection and appointment of their assistants, to the end that the administrative machinery may work harmoniously; but for the purpose of relieving both State and National politics from the odium of executive interference, we demand that all persons performing executive service for the State or General Government shall be deprived of the elective franchise during the period of such service.

Seventh—That we protest against the proposed sale of public lands in Minnesota, as advertised by the Secretaries of the Treasury and Interior, except to actual settlers and in parcels not exceeding 120 acres.

Eighth—That as the Irish people are battling for the same rights that are gradually being wrested from us, we extend to them and all others our sympathy and aid, and bid them God-speed in their battle against tyranny.

Ninth—That we regard the attempted assassination of the President of the United States as an outrage which deserves the universal condemnation of every American citizen.

Tenth—That we extend to the family of the President our sincere sympathy in this hour of their great affliction, and sincerely hope that the dutiful son, the devoted and affectionate father, will soon be restored in health to the bosom of his family.

Ohio Republican.

[Adopted June 8.]

The Republicans of Ohio, in Convention assembled, hereby reaffirm and readopt the principles and policy of the party as shown in its history.

Resolved, That the Republicans of Ohio heartily approve and indorse the Administration of James A. Garfield, President of the United States; and we hereby pledge to him our cordial support in the performance of all the duties devolving upon him as the Chief Magistrate of the Nation.

Second—That we hereby indorse the wise policy of the Republican party in giving full protection to American labor and in discriminating in favor of home production.

Third—That the public interests require that the General Assembly should submit to a vote of the people such amendments to the Constitution of the State relative to the manufacture, sale and use of intoxicating liquors as shall leave the whole matter to legislation.

Ohio Democratic.

[Adopted July 13.]

The Democrats of Ohio, proud of their citizenship in this great State, for the purpose of maintaining the prosperity of the Commonwealth, and to promote the welfare and happiness of the whole people, submit the following declaration of principles upon which they ask the suffrages of the people: The equality of all people before the law; equal taxation; unpolitical legislation, and a free and pure ballot as the corner-stone of free institutions; opposition to monopolies and subsidies of all kinds; the strictest economy in National, State and local administrations, that labor may be lightly burdened; the maintenance and advancement of the common school system.

Resolved, That the abuses of the present contract system in our State Prison, by which the products of criminal labor are brought into competition with the products of honest labor, to the great injury of the latter, are vicious and unwise, and should be corrected.

Second—That the course of the last Republican Legislature deserves the condemnation of the people for its incompetency, hypocrisy, unnecessary and heavy increase in the burdens of taxation, and for its reorganization of the benevolent institutions of

the State solely for the purpose and as a means for the distribution of spoils.

Third—That, as the humanities are non-partisan, and as the treatment of criminals should be non-political, the management of the charitable and punitive institutions of the State should be free from partisan charge or appointments.

Fourth—That we are in favor of a Civil Service Reform whereby offices shall be held to be a public trust to be administered for the public good, not spoils to be enjoyed as the reward of partisan zeal or service.

Fifth—That the Democrats of Ohio in this year, as in all years, are in favor of the largest individual liberty consistent with the public order, and are opposed to legislation merely sumptuary.

Sixth—That the recent discovery of enormous peculations in high public places and Republican attempt to purchase votes by corruption should convince the country that the Republican organization is not worthy of public confidence.

Seventh—That the power delegated to the General Government to regulate commerce among the States, as well as the power reserved to the States to regulate commerce within their own borders, should both be exercised to prevent unjust discrimination and unreasonable charges by our railroads. A tariff should be for revenue, levied and adjusted in its details, with a view to equity to the public burdens, and the encouragement of productive industries without creating monopolies; and we favor the appointment of a commission to suggest a method of revision which shall accomplish this result.

The committee also recommended the adoption of the following, though not included in the platform:

Resolved, That we deeply deplore the recent attempt upon the life of the President of the United States by an assassin, and denounce assassination in this Republic as the highest and most revolting of crimes, and we extend to the President and his family our deepest sympathies and our earnest hopes that a speedy recovery be vouchsafed to him.

Pennsylvania Republican.

[Adopted September 8.]

Resolved, That the Republican party of Pennsylvania is in the most hearty accord with the Administration of President Garfield, and, while uniting in the prayers of all good people for his speedy recovery, pledges continued fealty and the most active support in the prompt and courageous correction of all governmental abuses. As Republicans we are in favor of any proper and well-considered reform, either in the government of the Nation, the State, municipality or county, and we court suggestion as to any or all of these ends, and only ask that in their advocacy well-established safeguards shall not be hastily supplanted by experiments. The Administration of President Garfield has set the right example in this direction, and while firmly adhering to the principles and better practices of the great party which called it into existence, it yet insists upon faithfulness and honesty in every branch of the public service. That the bullet of an assassin should not interrupt this work. It should be pursued while its author lives, and beyond his life, if through increasing misfortune it should be taken away.

Second—That the Republican party has ever been progressive and reformatory, and while realizing that nothing in government is wholly right, we desire to be always brave enough to seek every avenue of approach to the right, to the end that all our people may enjoy the ever-increasing blessings of good government.

Third—That to President James A. Garfield, this tender and loving, this struggling and suffering, this pure and brave man, now become the beloved of this people and the admired of all people, we tender for ourselves and our constituents assurances of deep and heartfelt sympathy, and, keenly appreciating the value of such a life to his country, we express the prayerful hope that he may soon be restored to the discharge of the important duties for which he is remarkably qualified and from which, by a peculiarly infamous crime and in undeserved assault for a conscientious exercise of proper executive power, he has been temporarily withdrawn.

Fourth—That in State as in Nation, the Republican party is committed to the course of economical and honest administration. we demand the use of all necessary means and the enforcement of all laws intended to prevent fraud and waste, and we require a close and watchful guardianship over all of the multifarious interests committed to the care of our organization.

Fifth—That in any revision of our tariff legislation which may be made care shall be taken to discriminate in favor of our industries, and thereby promote the causes which are rapidly making America a controlling power in finances, as it already is an established leader in political thought.

Pennsylvania Democratic.

[Adopted September 29.]

Resolved, That the Democratic party of Pennsylvania, in Convention assembled, declare:

First—For the preservation of the Constitution of the United States, home rule, freedom of elections, for resistance to revolutionary changes tending to consolidation or empire; against the election of any person to the Presidency a third time, and against the presence of troops at the polls; against the appropriation of public money for any purpose but the support of the Government, and against class legislation, which despoils labor to build up monopoly.

Second—That the Democratic party, as of old, favors a constitutional currency of gold and silver in all forms, and coalition with repudiators merits the condemnation of honest people. The refusal of a Republican Administration to accede to the Democratic demand for a further reduction in the rate of interest on the National debt subjects the Government to a needless expense of millions of dollars annually.

Third—That in view of the exposure of extensive frauds in the Postal and Treasury Departments under the last Federal administration, the people demand prompt and unfaltering prosecution of the thieves. Their successful operations prove that there will be no real reform in the management of Departments of the Federal Government without a sweeping change therein. Sincere Civil Service reform will begin with a return to the Jeffersonian tests for office-holders of

honesty, capability and faithfulness to the Constitution.

Seventh—That no monopoly or exclusive right in the forces of nature, in grants of eminent domain, in the diffusion of information among the people by telegraph, and associations for furnishing dispatches to the press, for the grant of privileges affecting the daily business of the citizen, can or ought rightfully to exist under our form of government. These are at all times to be subject to such legislative regulation and control as the rights and interests of the people demand. That the delegated power of Congress to regulate commerce among the States, and the reserved power of the States to regulate the same within their borders, should be forthwith exercised to prevent unjust discrimination by common carriers against individuals and localities, and all the provisions of the Constitution of Pennsylvania relative to the exercise and abuse of the corporate franchise and the duties of common carriers to the public should be enforced without delay by appropriate legislation. That all governmental powers should be used in restraint of monopolies and not in aid of them, and simple and speedy remedies should be provided by legislative enactment by which any citizen injured in his business may, in State and Federal courts, by due process of law, have quick, certain and adequate redress for corporate wrongs. That vested rights must be protected and respected, and great corporations warring between themselves to the injury of the public interests and their own shareholders must be regulated and controlled by wise and effective laws. That franchises, the property of the people, shall be granted and exercised solely for the public benefit and subject to immediate and absolute forfeiture by due process of law when used for oppression or extortion, or when otherwise abused. No corporation to be above the people or the law. We thus reaffirm the ancient doctrines of the Democratic party, and most cordially invite our fellow-citizens, of whatever party, to join with us in carrying out the principles and policy we hereby announce, and to the advocacy of which we pledge ourselves until the right shall prevail.

Resolved, That all good citizens, regardless of party affiliations, sincerely mourn the death of President Garfield, and that we, as representatives of more than 400,000 Democratic voters, express their individual and collective grief at the calamity which has befallen the Republic, their sorrow and sympathy with the domestic affliction of the President's stricken household, and their execration of his assassin and of the murderer's foul crime.

Virginia Republican.

[Adopted August 11.]

Whereas, It is proper that when the people assemble in convention they should avow distinctly the principles of government on which they stand; now, therefore, be it

Resolved, That we, the Republicans of Virginia, hereby make a declaration of our allegiance and adhesion to the principles of the Republican party of the country, and our determination to stand squarely by the organization of the Republican party of Virginia, always defending it against the assaults of all persons or parties whatsoever.

Second—That amongst the principles of the Republican party none is of more vital importance to the welfare and interest of the country in all its parts than that which pertains to the sanctity of Government contracts. It therefore becomes the special duty and province of the Republican party of Virginia to guard and protect the credit of our time-honored State, which has been besmirched with repudiation, or received with distrust, by the gross mismanagement of various factions of the Democratic party, which have controlled the legislation of the State

Third—That the Republican party of Virginia hereby pledges itself to redeem the State from the discredit that now hangs over her in regard to her just obligations for moneys loaned her for constructing her internal improvements and charitable institutions, which, permeating every quarter of the State, bring benefits of far greater value than their cost to our whole people, and we in the most solemn form pledge the Republican party of the State to the full payment of the whole debt of the State, less the one-third set aside as justly falling on West Virginia; that the industries of the country should be fostered through protective laws, so as to develop our own resources, employ our own labor, create a home market, enhance values, and promote the happiness and prosperity of the people.

Fourth—That the public school system of Virginia is the creature of the Republican party, and we demand that every dollar the Constitution dedicates to it shall be sacredly applied thereto as a means of educating the children of the State, without regard to condition or race.

Fifth—That the elective franchise as an equal right should be based on manhood qalification, and that we favor the repeal of the requirements of the prepayment of the capitation tax as a prerequisite to the franchise as opposed to the Constitution of the United States, and in violation of the condition whereby the State was readmitted as a member of our Constitutional Union, as well as against the spirit of the Constitution; but demand the imposition of the capitation tax as a source of revenue for the support of the public schools without its disfranchising effects.

Sixth—That we favor the repeal of the disqualification for the elective franchise by a conviction of petty larceny, and of the infamous laws which place it in the power of a single justice of the peace (ofttimes being more corrupt than the criminal before him) to disfranchise his fellowman.

Seventh—Finally, that we urge the repeal of the barbarous law permitting the imposition of stripes as degrading and inhuman, contrary to the genius of a true and enlightened people, and a relic of barbarism.

[The Convention considered it inexpedient to nominate candidates for State officers.]

Virginia Readjuster.

PARTY PLATFORMS, 1881.

Massachusetts Republican.

[Adopted September 21.]

The Republicans of Massachusetts declare their continued devotion to the principles of the National Republican party; the sovereign, inviolable nationality of the union of States; the independence in prerogatives and in functions of the executive, legislative and judicial departments; freedom of all men obedient to law; the equal rights under law of all citizens; impartial suffrage as the basis of political power; fair elections as the means of ascertaining the popular will; the rule of the lawful majority; payment of the public debt to the last dollar of honorable obligation; a metallic currency of equal and stable status for the security of the people in their trade and savings; honesty, efficiency and economy in the public business; the exemption of the Civil Service from partisan spoliation; the promotion at public expense of general education; the development of our natural resources, and the fostering protection of American capital and American labor engaged in industries that tend to make us a self-reliant Nation, prepared for every exigency of peace or war.

Recognizing with satisfaction that so much has been accomplished toward the universal acceptance and faithful application of these principles, we turn confidently to the work remaining to be done, and set forth as among measures of present desire and urgency the following:

First—The exertion of all powers of the Government to more effectually guard the right of every citizen entitled to vote to the free exercise and and just effect of his suffrage. It is the duty of Congress to refuse to admit to seats in that body persons who were chosen at elections where legal voters had no fair chance to vote, where the ballot-boxes were fraudulently purged or stuffed, or where the legal votes cast were dishonestly counted.

Second—Legislation by Congress to give the country a currency having one standard of value—that of the gold dollar. To this end the coinage of silver dollars of less intrinsic value than the gold dollar should be stopped, and the law making paper money a legal tender should be repealed.

Third—A revision of the Tariff laws to make them conform more justly to the present development and needs of our various industries and foreign commerce; but this measure, affecting vitally industries in which vast capital is invested, and upon which millions of our people are dependent for daily bread, should be comprehensive, not partial; conservative, not destructive. In our judgment it cannot be undertaken safely until after the whole subject shall have been thoroughly investigated by a competent National commission. For this reason we urge the prompt passage of a bill creating such a commission with adequate powers.

Fourth—A thorough reform in the methods of making and obtaining appointments to the Civil Service. Reform in this regard implies an abandonment of the system of appointment by favor, in reward of personal or partisan claims, a system aristocratic, because open only to the few and closed to the many, a system affording the fewest restraints against the abuse, tending to extravagance and inefficiency in the public business, and to selfishness, corruption and violent politics, to the aggravation of all the baneful effects of the spirit of party against which Washington, in his farewell address, solemnly warned his countrymen. The needed reform will comprehend these aims, namely: The maintenance of the Constitutional prerogative of the President to make nominations on his sole responsibility, and of the Constitutional prerogative of the Senate to confirm, or refuse to confirm, such nominations, free from Executive dictation; the relief and exclusion of the members of the legislative branch from the business of selecting office-holders in the department of the Administration; the prohibition of assessments upon the salary of office-holders for party purposes, appointments to clerkships to depend, in the first instance, upon successfully passing a proper examination, open to all applicants without distinction of party, and, secondly, upon satisfactory service during a period of probation; tenure of office during good behavior, or for a reasonable fixed term, with promotion for meritorious performance of duty, and no removals except for cause. We enjoin upon our Members of Congress the duty of advancing this reform by every means in their power, experience having shown that the voluntary efforts of any Administration in this cause are apt to be partial, ineffectual, and subject to relapse. We urge upon our representatives that they are expected to aid the adoption of measures designed to give to good intentions the support of a commanding law, binding upon the willing and the unwilling alike.

Fifth—The establishment by law of methods of ascertaining the results of Presidential elections, so as to give the conclusive effect the Constitution demands to the action of each State, and to prevent the exercise by the Houses of Congress of anything in the nature of appellate or revisory power over the action of the constituted authority of the State in such cases.

Sixth—The devotion of some part of the revenues of the Nation to aid the States where illiteracy is most prevalent in supporting an efficient system of common school education, so far as may be consistent with the Constitution of the United States.

Seventh—A wise and stable Indian policy,

which shall recognize that Indians living in peace and doing no wrong have rights which individuals and the Government are bound to respect. We approve of the efforts of the last two Administrations for the education in civilization and virtue of the Indian tribes, and recommend a multiplication of the promising experiments at Hampton and Carlisle. We also approve of the policy of giving homesteads to the Indians in severalty, and of bringing them under the dominion and protection of the laws of the land, administered by courts of justice, with a view to their ultimate admission to full citizenship.

Eighth—Immediate and stringent measures to suppress the crime of polygamy, which, under the guise of a precept of religion, is spreading over the Southeastern Territories and intrenching itself in defiance of law and morality, a rank offence and an increasing threat. It has been too long tolerated.

For the second time in its brief history the Republican party is called to mourn the untimely death by assassination of a trusted and beloved leader chosen to the Chief Magistracy of the people, and while in the administration of their high office. Abraham Lincoln and James A. Garfield sprang from the class whom the former called the "plain people." Both disciplined in early life by poverty and toil, both obedient to the voice that bade them to aspire, to strive to be honest, and to serve their country, and rose from obscurity to the first places in the affections and the confidence of the Nation; were elevated to its highest honor; proved their right to a rank among the wisest and bravest of the earth; died the death of martyrs to duty and to patriotism, and are enrolled among the immortals whose virtues and whose fame are no longer the exclusive possession of a party or a land, but the pride of all mankind and the precious heritage of all coming ages. The Administration of President Garfield, although cut off almost as soon as it had begun, will be memorable in our annals as one of rapid and splendid statesmanship. It vindicated, in an unparalleled contest, the Constitutional prerogative of the executive office; it successfully completed the great work of refunding the public debt, notwithstanding the embarrassing situation created by an incompetent Congress; it overthrew a powerful conspiracy of plunderers of the Treasury and prepared their indictment; it introduced into the Post Office Department a business system that will make it self-supporting, while increasing its usefulness. In profound gratitude for the example of such a citizen and such a public servant, we tender the sincere sympathies of this Convention to his aged mother, his noble wife and his orphaned children.

General Chester A. Arthur was elected by the Republican National Convention as the associate of General Garfield on the Republican ticket, and chosen by the people to be his successor in the Presidency in such a case as has arisen. The Republicans of Massachusetts, in full appreciation of the peculiar embarrassments of his assumption of the office, and in full expectation of his faithfulness to the principles of the party and the just anticipations of the people of the country, pledge their cordial, considerate and united support to him.

Massachusetts Democratic.

[Adopted October 5.)

We, the Democrats of Massachusetts, convened to consult upon the common weal, once more avow our constant faith in the expediency and right of democracy in government as expounded by its great teachers, those early sages of the Republic, Jefferson and Madison. We believe the government best adapted to social welfare is the one which assures equal privileges, domestic tranquility and justice with the least abridgment of individual freedom. Admonished by the lessons of history, we are jealously watchful of the government power, so liable to abuse by the ambition and lust of rulers, and would hold it within the narrowest efficient limits, establishing its responsible repositories as close as possible to the people. We believe the distribution of supreme governmental powers in the dual sovereignty of State and Nation, defined in the Federal Constitution, and affirmed in our State Constitution, is the most conservative of a pure administration and of democratic political conditions.

We deny that the right inheres in the sovereignty of a State to defeat the Federal sovereignty by renunciation of allegiance to the Union, and we support the Federal Constitution as supreme in authority over State and people in respect to all matters expressly relegated to its jurisdiction, and the Union as indestructible save by successful revolution or the common consent; but we equally maintain the right of the people of each State to exercise fully all the powers of political sovereignty not relinquished to the general government for the assertion of its prerogatives and dignity as the representatives of a great nation. The application of these conservative principles to all the concerns of government, Federal and State, is especially important to the safety of our democratic institutions against the insidious encroachment of aristocratic tendencies and the efforts of organized avarice and ambition to insure the powers of government for their profit and aggrandizement by the sacrifice of the common welfare.

We regard the National debt as a hindrance to our commercial well-being, the removal of which by honest payment as speedily as possible with simple and moderate taxation should be the strenuous policy of the Government, and to that end we insist upon austere frugality and integrity in public expenditures, and the most advantageous investment of our interest-bearing debt, which should be as favorable as that of any other nation. The debt should be so placed as to be within the power of the Government to pay it as rapidly as our available resources shall allow. We regard the defeat of the Wood Funding bill in the last Congress by the influence and under the menace of the organized money power as a triumph of private selfishness over public interest, and a financial loss only partially repaired by the unlawful expedient to which Mr. Windom resorted. Our fiscal legislation and the management of the Treasury Department have deferred too much to the wily operators who gamble in the money centres for the wealth and industry of the country. Our satisfaction in the debt reduction is qualified by the fact that the reduction would be greater by many millions of dollars annually but for official dishonesty and ex

travagance. No apparent zeal in correcting abuses when found out can exonerate the party in power from culpable responsibility for the existence of such abuses under its rule. Under a capable administration such colossal frauds as those exposed in the Postal Service, and similar ones that have scandalized the last three Federal administrations, would be impossible. We demand that the guilty officials and their confederates, however high in place or party favor, shall be punished for their crimes and made to disgorge their plunder as indemnity for the past, and that such reform shall be instituted in administrative methods as shall prevent like conspiracies in the future.

We do strongly assert the importance of an intelligently bold revision of the tariff laws, now confessedly ill-adjusted and, in fact, burdensome, by which several industries now discriminated against may obtain relief from invidious injustice, monopolies be arrested in their spoliations, and the incidental benefits and burdens be equitably proportioned to all, as may be consistent with the needs of the revenue. Our National policy and legislation, to be democratic and just, must discourage all monopolies and do equal justice to each one of the various industries which engage the enterprise and labor of the people. We hold it manifest that the permanent prosperity of our continent—a land in which all the industrial arts have a home—cannot be strengthened or made secure by the destruction or impoverishment of certain branches of industry to build up and sustain others. The coming government should protect all and oppress none. Our statesmanship is called to seriously contemplate the near event when our artisans and manufacturers will, like our agricultural interests, seek a market for their productions in addition to the home market in even competition with the manufacturers and artisans of other countries. We urge that the burden by taxation on the producing classes by the present tariff is a grievance that ought to give place to lighter duties more justly distributed. We regard it as crippling the shoe and leather and many other industries of the country, and as destructive to foreign commerce under our national flag. The decay of the carrying trade, ship building and the fisheries, as well as the loss of prestige on the ocean, is the result of the high taxation, direct and indirect, which a mistaken policy has loaded on these industries. We protest that too much revenue is raised, and that the weight of Federal taxation falls unequally on the laboring and middle class interests of the country; further, that the tonnage duties imposed on American vessels should be abolished. The drawback law for shipbuilding, now inoperative for useful purposes, should be remodelled to give practical relief against the wrongful depression of shipbuilding by taxation, which it condemns. We reiterate our faith in the ability of American shipmasters, sailors and shipbuilders to compete with their mates of any nation in the carrying trade whenever the load of Federal and local taxation shall be removed from the men and ships that float our flag. We ask not bounties, but we do demand that Congress shall give our commerce a living chance upon the ocean.

We declare our fixed purpose so soon as Democrats shall have a controlling part in the National Administration, that the civil service be simplified from its present overgrown and corrupting proportions; that appointments to it be regulated by law, and removed so far as possible from personal favoritism and political patronage, and that all subordinate civil officers shall know and feel that during their prescribed term of office they owe all to their country and nothing to their party chiefs, while they shall also know and feel that they cannot, any more than Senators and Representatives, fasten themselves as a permanent life burden on the body politic.

We feel as profoundly as any of our countrymen the sorrowful stroke that bows the heart of the Nation in solemn sadness above the sepulchre of its cruelly murdered Chief Magistrate; but we lift our heads to behold the Republic unshaken and stately as ever in the path of its great career. Touched by the manifestations of patriotic feeling which the tragic event evokes from all classes and sections, we realize with gladness that the Nation has builded anew on its original and sure foundation—the kindred affection and loyal instincts of all its people. We trust that the recent unkindness between the North and South is finally buried in that hallowed grave of the Nation's dead, and that no unworthy party spirit or sectional uncharitableness will ever vex its repose.

New-York Republican.

[Adopted October 5.]

The Republicans of New-York declare as follows:

First—That we unite with our fellow-citizens throughout the Union in deploring the incalculable calamity which has befallen the country in the death of the late President, James Abram Garfield. Under the kindly influence of American institutions and by the force of noble manhood he rose from the humblest walk of life to the highest earthly station. By manliness and gentleness of nature; by loftiness of public spirit and disciplined intelligence for public affairs; by strength of political conviction, blended with singular moderation of temper and urbanity of expression—above all by that rare and noble temper which dares to be just, and which alone composes angry States, reconciles parties and secures wise reform, he was singularly fitted for the great office to which he was elevated by the free choice of his fellow-citizens. The opening of his Administration had won the confidence of the country by completing the refunding of the public debt, by exposing a vast system of public robbery and by hastening the prosecution of the robbers, by its frank declaration of the intention to ask the aid of Congress to restore the conduct of the public business to business principles, and by its triumphant vindication of the constitutional authority of the Executive office. Suddenly stricken by a mortal blow, he lay face to face with death for eighty days with such sublime serenity of courage, unquailing faith, cheerful patience and gracious courtesy that the heart of Christendom beat with sympathy and admiration and brought every nation to our side as friends and brothers. Already his name shines among the world's heroes, and it is written upon American hearts with the names of Washington and Lincoln. Cherishing the memory of his

brave, simple, manly character, inspired by his lofty aims and unsullied life, and impressively warned by the circumstances of his assassination, we pledge ourselves anew to the great National objects to which the late President was devoted, and which are now bequeathed to the party that he so patriotically served, and of whose name and fame he was so justly proud. We respectfully offer to the venerable mother, the devoted wife and the bereaved children of the late President the assurance of our deep and tender sympathy in a sorrow which only Divine power can console, but which has all the alleviation that the spotless memory of the dead, the tearful gratitude of the country, and the sincere grief of the world can afford.

Secondly—That we have entire confidence in the ability, integrity and patriotic intentions of Chester A. Arthur, President of the United States; that his life-long record gives earnest of his fidelity and devotion to the cause and principles of the Republican party; and, believing that he will carry out the views expressed by him in his inaugural address, and that his Administration will be in line with that of his lamented predecessor, in accord with the clearly defined principles and policy of the Republican party, and in harmony with the just expectations of those who gave him their suffrages for the high and responsible office to which he was elected, we tender to him our entire confidence and cordial support. His manly bearing and sympathetic acts in the time of National affliction command our respect and admiration.

Thirdly—That the triumphs of Republican management of the National finances are being constantly maintained, as shown by the payment of more than $17,000,000 of public debt during the month of September, and by the reduction of the annual interest to less than $62,000,000, while the surplus revenues justify the reduction of the taxes at an early day; and that this duty Congress should approach with due regard to the protection of American industry, and with the aim to reduce the number of tax-gatherers, and remove occasion for offensive and costly litigation.

Fourthly—That those who conspire to defraud the Government are the worst enemies of the party to which they belong, and the Republican party has among its strongest claims to popular gratitude the war which it has waged against the corruption which grew out of the expenditures consequent on the Rebellion, the punishment which it has meted out to dishonest officials of whatever rank, and its persistent vigor in favor of economical and honest administration. The abuses and prosecution of the abuses connected with the Star Routes in the Post Office Department redound to the credit of President Garfield, and in pressing the prosecution to the full satisfaction of justice, President Arthur may be assured of the hearty approval of the people.

Fifthly—That we pledge President Arthur our earnest support in every effort for the enforcement of Civil Service reform, recognizing as we do the fact that abuses in connection with the dispensation of official patronage may be largely eliminated, if not wholly removed, by wise and practicable methods of administration.

Sixthly—That the wisdom, prudence and economy shown by Governor Alonso B. Cornell during his administration of the affairs of the State, entitle him to the thanks and gratitude of the people. His careful scrutiny of legislation, his judicious exercise of the veto power, his persistent enforcement of the principles of retrenchment, and his fearless discharge of all the duties of his office, have, in the development of the best qualities of practicable statesmanship, vindicated the wisdom of his election.

Seventhly—That as the Republican party has always been identified with whatever was deemed essential to the maintenance of the commercial supremacy of the State, we are in favor of submitting to the people the question of making our canals practically free.

Eighthly—That we are in favor of an equitable system of taxation that will reach corporations as well as individuals, and that we are opposed to all monopolies that oppress the people or unfairly discriminate against local interests.

New-York Democratic.

[Adopted October 12.]

The Democratic party of New-York again declares its fidelity to the principles set forth by the New-York State Democratic Conventions of 1874, 1875 and 1876, which were thrice approved at the ballot boxes by the people of the Empire State, and were vindicated by the wise administration of the Democratic State Executives then chosen, and to the principles set forth by the National Democratic Convention at St. Louis, which were approved by decisive popular and electoral majorities in the Presidential election of 1876. The victories then won in this State and in the United States were in the name and for the sake of reform. The people were defrauded of the fruits of victory in the Federal elections by the false count of the electoral votes in 1876 and flagrant corruption in the election of 1880. Reform throughout the Federal administration is still a necessity. The continuing disclosures of new and hitherto concealed plundering of the people's fund by inner rings in the Treasury, the Post Office, and the Interior departments, demonstrate that reform is now more than ever a necessity. It remains for the the National Democratic party to restore the Federal Government to the fraternal spirit, the constitutional principles the frugal expenditure and the administrative purity of the fathers of the Republic It remains likewise for the Democracy o the State of New-York, and it is their firs political duty, to resume and carry on to successful completion in all departments o its government the great measures an policy of administrative reform which be tween 1874 and 1876 reduced by one-hal the burden of our State taxation, and whic then and during the three succeeding year established throughout the Executive de partments vigor, economy and fidelity t public trusts. To that immediate duty thi Convention pledges the united efforts of th Democracy of New-York, and the loyal de votion of the nominees whom it shall com mend to the choice of their fellow-citizens.

The assassination of the late President the United States was a crime against au thority, against free institutions and again humanity. We deplore and denounce th crime in all its public and private aspect We extend, as citizens, our most profoun condolence to the family of the murdere

Chief Magistrate, and regard with great gratification the universal expressions of sympathy extended by all nations and peoples.

We renew the expression of our demand for the refunding of the National debt at the lowest possible rate of interest. The New-York Democracy, as always, stand by gold and silver as the legal tender of the Constitution, and by the doctrine that all paper mediums of money must be based on those metals, at the standard values of the world. We demand the payment of principal and interest of every dollar of public indebtedness. "Readjustment" is repudiation. The act of the Northern Republican leaders in giving the support of that party to repudiation in Virginia, Mississippi, Minnesota and other States, is a national disgrace, dangerous as a precedent and destructive of the public credit. We call upon the Democrats in Congress to maintain the standard of retrenchment by which their Democratic predecessors reduced the Federal expenses $40,000,000 in a year. We demand a thorough and immediate investigation into the Star Route and other frauds upon the National Treasury, and a vigorous prosecution, already too long delayed, of all of the participants, both high and low, in these grave crimes, whereby the moneys of the people were stolen from the Treasury and the plunderers were made to provide a corruption fund which was used to carry the last Presidential election for the Republican party.

We indorse and applaud the united and honest action for Democratic principles and candidates of the fifty-four Democratic members of the last Legislature. They honored their State, their party, and themselves. We denounce the Republican majority, because that majority defeated every measure of transportation reform at the bidding of its masters, the corporations. It enacted jobs directly increasing the public burdens by millions. It failed to meet the urgent question of assessment and taxation reform. It refused the demand of the State for a feasible and enforcible Excise law. It left the farmers of New-York where the action of the Governor placed them, at the mercy of the oleomargarine ring. It struck hands, for political greed, with the abettors of disease and death in the metropolis. It prolonged the session of the Legislature far into the summer at an aggregate expense of $200,000 to the people. It became in a factional struggle of placemen the participant in scandals and crimes which brought dishonor and disgrace upon the good name of our State. When the Republican Legislature adjourned the people rejoiced as if delivered from a pestilence, and the officers of the law were obliged to begin the work of prosecuting the briberies and perjuries committed by corrupt leaders of that party while plying their vocation in the Capital of the State.

We are in favor of such a reform by legislative enactment, as well as by administrative action, in the Civil Service of the country as will substitute for the present periodical scramble for spoils a wise system of appointment and promotion, by which the incumbency of subordinate offices shall be regulated by law and depend only upon capacity and character, and demand that no assessments shall be levied upon public officers for political purposes.

The public welfare demands that the various questions relating to chartered monopolies and the methods of transportation should be met and decided, and we are in favor of the adoption of measures to restrict the growing power of such monopolies. They should be subjected to the supervision of commissioners established by public authority. All unjust discriminations in the transportation of passengers and merchandise should be prohibited. The charges of corporations which have taken the property of private citizens for public use should be limited to the cost of service with a reasonable profit, instead of the mercenary exaction "of all the traffic will bear."

We approve of the unanimous action of the Democratic members of the last Legislature in providing for the early submission to the people of an amendment to the Constitution in favor of free canals.

The Democratic party, now and always unalterably opposed to the centralization of power in either the State or Federal Governments, hereby requests its representatives in the Legislature to provide and make effective an amendment to the Constitution which shall extend the principle and the powers of local self-government to the cities of the State.

To the record of the Democracy of New-York we point with confidence. We challenge a comparison of its record with that furnished by the factions which were once the Republican party of this State.

To the candidates of this Convention we pledge a hearty support, and we confidently submit our action, as the representatives of a free Democracy, to the good people of this Commonwealth for their verdict at the polls.

New-York Greenback-Labor.

[Adopted August 24.]

The seventeen years of peace which have elapsed since the war prove that neither the Republican nor the Democratic party can restore harmony, confidence or good feeling between the people of the North and South; that while these parties exist the country will remain divided into two great hostile political camps, in both of which the people will be governed by sectional prejudice instead of reason and judgment, because the people of the South hate the Republican party for the wrongs they claim that party has brought upon their section, while the people of the North despise the Democratic party for its cowardice on all questions of public interest and its utter lack of fixed principles or policy. During these years no united effort has been made by either of these parties to correct the abuses of corporations or restrain their corrupting influence over legislation; and during much of this time honest labor was unemployed and forced to idleness and want because both united in a policy of contracting the currency to such an extent as rendered the profitable employment of labor impossible. During this time land monopolists have been permitted to obtain control of nearly all the valuable public lands, but no laws have been proposed by either of these parties for the protection of actual settlers or which guarantee citizens their right to vote and have their votes honestly counted. Under such circumstances the organization and success of a new party based on questions of present interest to the entire people, and recognizing the changed conditions incorpo-

rated capital has brought upon the country—a party which shall be in accord with the principles and theories of liberty laid down by the founders of our Government—must precede any just, wise or beneficial legislation for the American people; therefore.

Resolved, That the platform of principles adopted by the Convention of the National Greenback-Labor party, held in Chicago, June 9, 1880, embracing the following demands:

The unification of the people of the whole country; the overthrow of all monopolies by the resumption by the Government of the power to issue and control the money of the people, and by a Government control of railroads and other transportation corporations; the just payment of our National debt according to the laws under which it was contracted; the protection of labor by the establishment of an honest fiscal and financial system, and by securing to every citizen the inalienable right to the soil, and the general administration of the Government in the interest of the producing many, instead of, as at present, the non-producing few—is one under which all citizens desiring to accomplish these reforms can unite under the banner of that political party which first presented them as questions to be settled by American citizens.

THE RESOLUTIONS.

Resolved, That all the money paid to railroad companies for transporting persons or property in excess of what is required to pay the legitimate expenses of operating such roads and a fair return on their actual cost, is in violation of the fundamental law of public use which allows railroads to be built, and should immediately be prohibited by legislative enactment.

Second—That railroad companies should be prohibited by law from charging more for transporting property during the season when water navigation is closed than they charge for like services during the season of open-water navigation.

Third—That we work for the lawful suppression of any traffic or custom that encourages crime.

Fourth—That this Convention recognizes the National Greenback Party as the original anti-monopoly organization of the country, and, as such, extends the hand of sympathy to the anti-monopoly leagues for the public service they are rendering in educating the people on one of the questions contained for years in our platform.

Fifth—That the Government should exchange its legal-tender notes for any of its interest-bearing debts at par on demand and for gold or silver bullion or coin at their legal weight values.

Sixth—That we recognize the fact that all chief executive officers should have entire control of the selection and appointment of their assistants, to the end that the administrative machinery may work harmoniously; but for the purpose of relieving both State and National politics from the odium of executive interference, we demand that all persons performing executive service for the State or General Government shall be deprived of the elective franchise during the period of such service.

Seventh—That we protest against the proposed sale of public lands in Minnesota, as advertised by the Secretaries of the Treasury and Interior, except to actual settlers and in parcels not exceeding 120 acres.

Eighth—That as the Irish people are battling for the same rights that are gradually being wrested from us, we extend to them and all others our sympathy and aid, and bid them God-speed in their battle against tyranny.

Ninth—That we regard the attempted assassination of the President of the United States as an outrage which deserves the universal condemnation of every American citizen.

Tenth—That we extend to the family of the President our sincere sympathy in this hour of their great affliction, and sincerely hope that the dutiful son, the devoted and affectionate father, will soon be restored in health to the bosom of his family.

Ohio Republican.

[Adopted June 8.]

The Republicans of Ohio, in Convention assembled, hereby reaffirm and readopt the principles and policy of the party as shown in its history.

Resolved, That the Republicans of Ohio heartily approve and indorse the Administration of James A. Garfield, President of the United States; and we hereby pledge to him our cordial support in the performance of all the duties devolving upon him as the Chief Magistrate of the Nation.

Second—That we hereby indorse the wise policy of the Republican party in giving full protection to American labor and in discriminating in favor of home production.

Third—That the public interests require that the General Assembly should submit to a vote of the people such amendments to the Constitution of the State relative to the manufacture, sale and use of intoxicating liquors as shall leave the whole matter to legislation.

Ohio Democratic.

[Adopted July 13.]

The Democrats of Ohio, proud of their citizenship in this great State, for the purpose of maintaining the prosperity of the Commonwealth, and to promote the welfare and happiness of the whole people, submit the following declaration of principles upon which they ask the suffrages of the people: The equality of all people before the law; equal taxation; unpolitical legislation, and a free and pure ballot as the corner-stone of free institutions; opposition to monopolies and subsidies of all kinds; the strictest economy in National, State and local administrations, that labor may be lightly burdened; the maintenance and advancement of the common school system.

Resolved, That the abuses of the present contract system in our State Prison, by which the products of criminal labor are brought into competition with the products of honest labor, to the great injury of the latter, are vicious and unwise, and should be corrected.

Second—That the course of the last Republican Legislature deserves the condemnation of the people for its incompetency, hypocrisy, unnecessary and heavy increase in the burdens of taxation, and for its reorganization of the benevolent institutions of

the State solely for the purpose and as a means for the distribution of spoils.

Third—That, as the humanities are non-partisan, and as the treatment of criminals should be non-political, the management of the charitable and punitive institutions of the State should be free from partisan charge or appointments.

Fourth—That we are in favor of a Civil Service Reform whereby offices shall be held to be a public trust to be administered for the public good, not spoils to be enjoyed as the reward of partisan zeal or service.

Fifth—That the Democrats of Ohio in this year, as in all years, are in favor of the largest individual liberty consistent with the public order, and are opposed to legislation merely sumptuary.

Sixth—That the recent discovery of enormous peculations in high public places and Republican attempt to purchase votes by corruption should convince the country that the Republican organization is not worthy of public confidence.

Seventh—That the power delegated to the General Government to regulate commerce among the States, as well as the power reserved to the States to regulate commerce within their own borders, should both be exercised to prevent unjust discrimination and unreasonable charges by our railroads. A tariff should be for revenue, levied and adjusted in its details, with a view to equity to the public burdens, and the encouragement of productive industries without creating monopolies; and we favor the appointment of a commission to suggest a method of revision which shall accomplish this result.

The committee also recommended the adoption of the following, though not included in the platform:

Resolved, That we deeply deplore the recent attempt upon the life of the President of the United States by an assassin, and denounce assassination in this Republic as the highest and most revolting of crimes, and we extend to the President and his family our deepest sympathies and our earnest hopes that a speedy recovery be vouchsafed to him.

Pennsylvania Republican.

[Adopted September 8.]

Resolved, That the Republican party of Pennsylvania is in the most hearty accord with the Administration of President Garfield, and, while uniting in the prayers of all good people for his speedy recovery, pledges continued fealty and the most active support in the prompt and courageous correction of all governmental abuses. As Republicans we are in favor of any proper and well-considered reform, either in the government of the Nation, the State, municipality or county, and we court suggestion as to any or all of these ends, and only ask that in their advocacy well-established safeguards shall not be hastily supplanted by experiments. The Administration of President Garfield has set the right example in this direction, and while firmly adhering to the principles and better practices of the great party which called it into existence, it yet insists upon faithfulness and honesty in every branch of the public service. That the bullet of an assassin should not interrupt this work. It should be pursued while its author lives, and beyond his life, if through increasing misfortune it should be taken away.

Second—That the Republican party has ever been progressive and reformatory, and while realizing that nothing in government is wholly right, we desire to be always brave enough to seek every avenue of approach to the right, to the end that all our people may enjoy the ever-increasing blessings of good government.

Third—That to President James A. Garfield, this tender and loving, this struggling and suffering, this pure and brave man, now become the beloved of this people and the admired of all people, we tender for ourselves and our constituents assurances of deep and heartfelt sympathy, and, keenly appreciating the value of such a life to his country, we express the prayerful hope that he may soon be restored to the discharge of the important duties for which he is remarkably qualified and from which, by a peculiarly infamous crime and in undeserved assault for a conscientious exercise of proper executive power, he has been temporarily withdrawn.

Fourth—That in State as in Nation, the Republican party is committed to the course of economical and honest administration. we demand the use of all necessary means and the enforcement of all laws intended to prevent fraud and waste, and we require a close and watchful guardianship over all of the multifarious interests committed to the care of our organization.

Fifth—That in any revision of our tariff legislation which may be made care shall be taken to discriminate in favor of our industries, and thereby promote the causes which are rapidly making America a controlling power in finances, as it already is an established leader in political thought.

Pennsylvania Democratic.

[Adopted September 29.]

Resolved, That the Democratic party of Pennsylvania, in Convention assembled, declare:

First—For the preservation of the Constitution of the United States, home rule, freedom of elections, for resistance to revolutionary changes tending to consolidation or empire; against the election of any person to the Presidency a third time, and against the presence of troops at the polls; against the appropriation of public money for any purpose but the support of the Government, and against class legislation, which despoils labor to build up monopoly.

Second—That the Democratic party, as of old, favors a constitutional currency of gold and silver in all forms, and coalition with repudiators merits the condemnation of honest people. The refusal of a Republican Administration to accede to the Democratic demand for a further reduction in the rate of interest on the National debt subjects the Government to a needless expense of millions of dollars annually.

Third—That in view of the exposure of extensive frauds in the Postal and Treasury Departments under the last Federal administration, the people demand prompt and unfaltering prosecution of the thieves. Their successful operations prove that there will be no real reform in the management of Departments of the Federal Government without a sweeping change therein. Sincere Civil Service reform will begin with a return to the Jeffersonian tests for office-holders of

honesty, capability and faithfulness to the Constitution.

Seventh—That no monopoly or exclusive right in the forces of nature, in grants of eminent domain, in the diffusion of information among the people by telegraph, and associations for furnishing dispatches to the press, for the grant of privileges affecting the daily business of the citizen, can or ought rightfully to exist under our form of government. These are at all times to be subject to such legislative regulation and control as the rights and interests of the people demand. That the delegated power of Congress to regulate commerce among the States, and the reserved power of the States to regulate the same within their borders, should be forthwith exercised to prevent unjust discrimination by common carriers against individuals and localities, and all the provisions of the Constitution of Pennsylvania relative to the exercise and abuse of the corporate franchise and the duties of common carriers to the public should be enforced without delay by appropriate legislation. That all governmental powers should be used in restraint of monopolies and not in aid of them, and simple and speedy remedies should be provided by legislative enactment by which any citizen injured in his business may, in State and Federal courts, by due process of law, have quick, certain and adequate redress for corporate wrongs. That vested rights must be protected and respected, and great corporations warring between themselves to the injury of the public interests and their own shareholders must be regulated and controlled by wise and effective laws. That franchises, the property of the people, shall be granted and exercised solely for the public benefit and subject to immediate and absolute forfeiture by due process of law when used for oppression or extortion, or when otherwise abused. No corporation to be above the people or the law. We thus reaffirm the ancient doctrines of the Democratic party, and most cordially invite our fellow-citizens, of whatever party, to join with us in carrying out the principles and policy we hereby announce, and to the advocacy of which we pledge ourselves until the right shall prevail.

Resolved, That all good citizens, regardless of party affiliations, sincerely mourn the death of President Garfield, and that we, as representatives of more than 400,000 Democratic voters, express their individual and collective grief at the calamity which has befallen the Republic, their sorrow and sympathy with the domestic affliction of the President's stricken household, and their execration of his assassin and of the murderer's foul crime.

Virginia Republican.

[Adopted August 11.]

Whereas, It is proper that when the people assemble in convention they should avow distinctly the principles of government on which they stand; now, therefore, be it

Resolved, That we, the Republicans of Virginia, hereby make a declaration of our allegiance and adhesion to the principles of the Republican party of the country, and our determination to stand squarely by the organization of the Republican party of Virginia, always defending it against the assaults of all persons or parties whatsoever.

Second—That amongst the principles of the Republican party none is of more vital importance to the welfare and interest of the country in all its parts than that which pertains to the sanctity of Government contracts. It therefore becomes the special duty and province of the Republican party of Virginia to guard and protect the credit of our time-honored State, which has been besmirched with repudiation, or received with distrust, by the gross mismanagement of various factions of the Democratic party, which have controlled the legislation of the State

Third—That the Republican party of Virginia hereby pledges itself to redeem the State from the discredit that now hangs over her in regard to her just obligations for moneys loaned her for constructing her internal improvements and charitable institutions, which, permeating every quarter of the State, bring benefits of far greater value than their cost to our whole people, and we in the most solemn form pledge the Republican party of the State to the full payment of the whole debt of the State, less the one-third set aside as justly falling on West Virginia; that the industries of the country should be fostered through protective laws, so as to develop our own resources, employ our own labor, create a home market, enhance values, and promote the happiness and prosperity of the people.

Fourth—That the public school system of Virginia is the creature of the Republican party, and we demand that every dollar the Constitution dedicates to it shall be sacredly applied thereto as a means of educating the children of the State, without regard to condition or race.

Fifth—That the elective franchise as an equal right should be based on manhood qualification, and that we favor the repeal of the requirements of the prepayment of the capitation tax as a prerequisite to the franchise as opposed to the Constitution of the United States, and in violation of the condition whereby the State was readmitted as a member of our Constitutional Union, as well as against the spirit of the Constitution; but demand the imposition of the capitation tax as a source of revenue for the support of the public schools without its disfranchising effects.

Sixth—That we favor the repeal of the disqualification for the elective franchise by a conviction of petty larceny, and of the infamous laws which place it in the power of a single justice of the peace (oftimes being more corrupt than the criminal before him) to disfranchise his fellowman.

Seventh—Finally, that we urge the repeal of the barbarous law permitting the imposition of stripes as degrading and inhuman, contrary to the genius of a true and enlightened people, and a relic of barbarism.

[The Convention considered it inexpedient to nominate candidates for State officers.]

Virginia Readjuster.

[Adopted June 2.]

First—We recognize our obligation to support the institution for the deaf, dumb and blind, the lunatic asylum, the public free schools and the Government out of the revenues of the State; and we deprecate and denounce that policy of ring rule and subor-

dinated sovereignty which for years borrowed money out of banks at high rates of interest for the discharge of these paramount trusts, while our revenues were left the prey of commercial exchanges, available to the State only at the option of speculators and syndicates.

Second—We reassert our purpose to settle and adjust our State obligations on the principles of the "Bill to re-establish public credit," known as the "Riddleberger bill," passed by the last General Assembly and vetoed by the Governor. We maintain that this measure recognizes the just debt of Virginia, in this, that it assumes two-thirds of all the money Virginia borrowed, and sets aside the other third to West Virginia to be dealt with by her in her own way and at her own pleasure; that it places those of her creditors who have received but 6 per cent instalments of interest in nine years upon an exact equality with those who by corrupt agencies were enabled to absorb and monopolize our means of payment; that it agrees to pay such rate of interest on our securities as can with certainty be met out of the revenues of the State, and that it contains all the essential features of finality.

Third—We reassert our adherence to the Constitutional requirements for the "equal and uniform" taxation of property, exempting none except that specified by the Constitution and used exclusively for "religious, charitable and educational purposes."

Fourth—We reassert that the paramount obligation of the various works of internal improvement is to the people of the State, by whose authority they were created, by whose money they were constructed, and by whose grace they live; and it is enjoined upon our representative and executive officers to enforce the discharge of that duty; to insure to our people such rates, facilities and connections as will protect every industry and interest against discrimination, tend to the development of our agricultural and mineral resources, encourage the investment of active capital in manufactures and the profitable employment of labor in industrial enterprises, grasp for our city and our whole State those advantages to which by their geographical position they are entitled, and fulfil all the great public ends for which they were designed.

Fifth—The Readjusters hold the right to a free ballot to be the right preservative of all rights, and that it should be maintained in every State in the Union. We believe the capitation tax restriction upon the suffrage in Virginia to be in conflict with the XIVth Amendment to the Constitution of the United States. We believe that it is a violation of that condition of reconstruction wherein the pledge was given not so to amend our State Constitution as to deprive any citizen or class of citizens of a right to vote, except as punishment for such crimes as are felony at common law. We believe such a prerequisite to voting to be contrary to the genius of our institutions, the very foundation of which is representation as antecedent to taxation. We know that it has been a failure as a measure for the collection of revenue, the pretended reason for its invention in 1876, and we know the base, demoralizing and dangerous uses to which it has has been prostituted. We know it contributes to the increase of monopoly power, and to corrupting the voter. For these and other reasons we adhere to the purpose hitherto expressed to provide more effectual legislation for the collection of this tax, dedicated by the Constitution to the public free schools, and to abolish it as a qualification for and restriction upon suffrage.

Sixth—The Readjusters congratulate the whole people of Virginia on the progress of the last few years in developing mineral resources and promoting manufacturing enterprises in the State, and they declare their purpose to aid these great and growing industries by all proper and essential legislation, State and Federal. To this end they will continue their efforts in behalf of more cordial and fraternal relations between the sections and States, and especially for that concord and harmony which will make the country to know how earnestly and sincerely Virginia invites all men into her borders as visitors or to become citizens without fear of social or political ostracism; that every man, from whatever section of country, shall enjoy the fullest freedom of thought, speech, politics and religion, and that the State which first formulated these principles as fundamental in free government is yet the citadel for their exercise and protection.

Virginia Democratic.

[Adopted August 4.]

The Conservative-Democratic party of Virginia—Democratic in its Federal relations and Conservative in its State policy—assembled in convention, in view of the present condition of the Union and of this Commonwealth, for the clear and distinct assertion of its political principles, doth declare that we adopt the following articles of political faith:

First—Equality of right and exact justice to all men, special privileges to none; freedom of religion, freedom of the press, and freedom of the person under the protection of the habeas corpus; of trial by juries impartially selected, and of a pure, upright and non-partisan judiciary; elections by the people, free from force or fraud of citizens or of the military and civil officers of Government; and the selection for public offices of those who are honest and best fitted to fill them; the support of the State governments in all their rights as the most competent administrations of our domestic concerns and the surest bulwarks against anti-republican tendencies; and the preservation of the General Government in its whole constitutional vigor as the best sheet-anchor of our peace at home and our safety abroad.

Second—That the maintenance of the public credit of Virginia is an essential means to the promotion of her prosperity. We condemn repudiation in every shape and form as a blot upon her honor, a blow at her permanent welfare, and an obstacle to her progress in wealth, influence and power; and that we will make every effort to secure a settlement of the public debt, with the consent of her creditors, which is consistent with her honor and dictated by justice and sound public policy; that it is eminently desirable and proper that the several classes of the debt now existing should be unified, so that equality, which is equity, may control in the annual payment of interest and the ultimate redemption of principal; that,

Digitized by Google

with a view of securing such equality, we pledge our party to use all lawful authority to secure a settlement of the State debt so that there shall be but one class of the public debt; that we will use all lawful and constitutional means in our power to secure a settlement of the State debt upon the basis of a 3 per cent bond, and that the Conservative-Democratic party pledges itself, as a part of its policy, not to increase the present rate of taxation.

Third—That we will uphold, in its full constitutional integrity and efficiency, our public-school system for the education of both white and colored children—a system inaugurated by the Constitution of the State and established by the action of the Conservative party years before it was required by the Constitution; and will take the most effectual means for the faithful execution of the same by applying to its support all the revenues set apart for that object by the Constitution or otherwise.

Fourth—Upon this declaration of principles we cordially invite the cooperation of all Conservative Democrats, whatever may have been or now are their views upon the public debt, in the election of the nominees of this Convention and in the maintenance of the supremacy of the Democratic party in this State.

Resolved, further, That any intimation, coming from any quarter, that the Conservative-Democratic party of Virginia has been, is now, or proposes to be, opposed to an honest ballot and a fair count, is a calumny upon the State of Virginia as unfounded in fact as it is dishonorable to its authors.

That special efforts be made to foster and encourage the agricultural, mechanical, mining, manufacturing and other industrial interests of the State.

That, in common with all good citizens of the Union, we reflect with deep abhorrence upon the crime of the man who aimed a blow at the life of the eminent citizen who was called by the constitutional voice of fifty millions of people to be the President of the United States; and we tender to him and to his friends the sympathy and respect of this Convention and of those we represent, in this great calamity, and our hearty desire for his complete restoration to health and return to the discharge of his important duties, for the welfare and honor of our common country.

INAUGURAL ADDRESSES

OF PRESIDENTS GARFIELD AND ARTHUR.

Of James A. Garfield.

March 4, 1881.

FELLOW-CITIZENS: We stand to-day upon an eminence which overlooks a hundred years of national life—a century crowded with perils, but crowned with the triumphs of liberty and law. Before continuing the onward march, let us pause on this height for a moment to strengthen our faith and renew our hope by a glance at the pathway along which our people have traveled.

It is now three days more than a hundred years since the adoption of the first written Constitution of the United States—the articles of confederation and perpetual union. The new Republic was then beset with danger on every hand. It had not conquered a place in the family of nations. The decisive battle of the war for independence, whose centennial anniversary will soon be gratefully celebrated at Yorktown, had not yet been fought. The colonists were struggling not only against the armies of a great nation but against the settled opinions of mankind; for the world did not then believe that the supreme authority of government could be safely intrusted to the guardianship of the people themselves.

We cannot overestimate the fervent love of liberty, the intelligent courage, the sum of common sense with which our fathers made the great experiment of self-government. When they found, after a short trial, that the Confederacy of States was too weak to meet the necessities of a vigorous and expanding Republic, they boldly set it aside, and in its stead established a national Union, founded directly upon the will of the people, endowed with full power of self-preservation and ample authority for the accomplishment of its great object.

Under this Constitution the boundaries of freedom have been enlarged, the foundations of order and peace have been strengthened, and the growth of our people in all the better elements of national life has indicated the wisdom of the founders and given new hope to their descendants. Under this Constitution our people long ago made themselves safe against danger from without, and secured for their mariners and flag equality of rights on all the seas. Under this Constitution twenty-five States have been added to the Union, with constitutions and laws, framed and enforced by their own citizens, to secure the manifold blessings of local self-government.

The jurisdiction of this Constitution now covers an area fifty times greater than that of the original thirteen States, and a population twenty times greater than that of 1780.

The supreme trial of the Constitution came at last under the tremendous pressure of civil war. We ourselves are witnesses that the Union emerged from the blood and fire of that conflict purified and made stronger for all the beneficent purposes of good government.

And now, at the close of this first century of growth, with the inspirations of its history in their hearts, our people have lately reviewed the condition of the nation, passed judgment upon the conduct and opinions of political parties, and have registered their will concerning the future administration of the Government. To interpret and to execute that will in accordance with the Constitution is the paramount duty of the Executive.

Even from this brief review it is manifest that the Nation is resolutely facing to the front, resolved to employ its best energies in developing the great possibilities of the future. Sacredly preserving whatever has been gained to liberty and good government during the century, our people are deter-

mined to leave behind them all those bitter controversies concerning things which have been irrevocably settled, and the further discussion of which can only stir up strife and delay the onward march.

The supremacy of the Nation and its laws should be no longer a question of debate. The discussion which for half a century threatened the existence of the Union was closed at last in the high court of war by a decree from which there is no appeal, that the Constitution and the laws made in pursuance thereof are and shall continue to be the supreme law of the land, binding alike upon the States and the people. This decree does not disturb the autonomy of the States nor interfere with any of their necessary rights of local self-government, but it does fix and establish the permanent supremacy of the Union.

The will of the Nation, speaking with the voice of battle and through the amended Constitution, has fulfilled the great promise of 1776 by proclaiming "liberty throughout the land to all the inhabitants thereof."

The elevation of the negro race from slavery to the full rights of citizenship is the most important political change we have known since the adoption of the Constitution of 1787. No thoughtful man can fail to appreciate its beneficent effect upon our institutions and people. It has freed us from the perpetual danger of war and dissolution. It has added immensely to the moral and industrial forces of our people. It has liberated the master as well as the slave from a relation which wronged and enfeebled both. It has surrendered to their own guardianship the manhood of more than 5,000,000 of people, and has opened to each one of them a career of freedom and usefulness. It has given new inspiration to the power of self-help in both races, by making labor more honorable to the one and more necessary to the other. The influence of this force will grow greater and bear richer fruit with the coming years.

No doubt this great change has caused serious disturbance to our Southern communities. This is to be deplored, though it was perhaps unavoidable. But those who resisted the change should remember that, under our institutions, there was no middle ground for the negro race between slavery and equal citizenship. There can be no permanent disfranchised peasantry in the United States. Freedom can never yield its fullness of blessings so long as the law or its administration places the smallest obstacle in the pathway of any virtuous citizen.

The emancipated race has already made remarkable progress. With unquestioning devotion to the Union, with a patience and gentleness not born of fear, they have "followed the light as God gave them to see the light." They are rapidly laying the material foundations of self support, widening their circle of intelligence, and beginning to enjoy the blessings that gather around the homes of the industrious poor. They deserve the generous encouragement of all good men. So far as my authority can lawfully extend, they shall enjoy the full and equal protection of the Constitution and the laws.

The free enjoyment of equal suffrage is still in question, and a frank statement of the issue may aid in its solution. It is alleged that in many communities negro citizens are particularly denied the freedom of the ballot. In so far as the truth of this allegation is admitted, it is answered that in many places honest local government is impossible if the mass of uneducated negroes are allowed to vote. These are grave allegations. So far as the latter is true, it is the only palliation that can be offered for opposing the freedom of the ballot. Bad local government is certainly a great evil, which ought to be prevented; but to violate the freedom and sanctities of the suffrage is more than an evil. It is a crime which, if persisted in, will destroy the Government itself. Suicide is not a remedy. If in other lands it be high treason to compass the death of the King, it shall be counted no less a crime here to strangle our sovereign power and stifle its voice.

It has been said that unsettled questions have no pity for the repose of Nations. It should be said with the utmost emphasis that this question of the suffrage will never give repose or safety to the States or to the Nation until each, within its own jurisdiction, makes and keeps the ballot free and pure by the strong sanctions of the law.

But the danger which arises from ignorance in the voter cannot be denied. It covers a field far wider than that of negro suffrage and the present condition of the race. It is a danger that lurks and hides in the sources and fountains of power in every State. We have no standard by which to measure the disaster that may be brought upon us by ignorance and vice in the citizens when joined to corruption and fraud in the suffrage.

The voters of the Union who make and unmake constitutions, and upon whose will hang the destinies of our governments, can transmit their supreme authority to no successors save the coming generation of voters, who are the sole heirs of sovereign power. If that generation comes to its inheritance blinded by ignorance and corrupted by vice, the fall of the Republic will be certain and remediless.

The census has already sounded the alarm in the appalling figures which mark how dangerously high the tide of illiteracy has risen among our voters and their children.

To the South this question is of supreme importance, but the responsibility for the existence of slavery did not rest upon the South alone. The Nation itself is responsible for the extension of the suffrage, and is under special obligations to aid in removing the illiteracy which it has added to the voting population. For the North and South alike, there is but one remedy. All the constitutional power of the Nation and of the States, and all the volunteer forces of the people should be surrendered to meet this danger by the savory influence of universal education.

It is the high privilege and sacred duty of those now living to educate their successors and fit them, by intelligence and virtue, for the inheritance which awaits them.

In this beneficent work sections and races should be forgotten, and partisanship should be unknown. Let our people find a new meaning in the divine oracle which declares that "A little child shall lead them," for our own little children will soon control the destinies of the Republic.

My countrymen, we do not now differ in our judgment concerning the controversies

of past generations, and fifty years hence our children will not be divided in their opinions concerning our controversies. They will surely bless their fathers and their fathers' God that the Union was preserved, that slavery was overthrown, and that both races were made equal before the law. We may hasten or we may retard, but we cannot prevent the final reconciliation. It is not possible for us now to make a truce with time by anticipating and accepting its inevitable verdict.

Enterprises of the highest importance to our moral and material well-being unite us and offer ample employment of our best powers. Let all our people, leaving behind them the battle-fields of dead issues, move forward, and in their strength of liberty and the restored Union, win the grander victories of peace.

The prosperity which now prevails is without parallel in our history. Fruitful seasons have done much to secure it, but they have not done all. The preservation of the public credit and the resumption of specie payments so successfully attained by the administration of my predecessors has enabled our people to secure the blessings which the seasons brought.

By the experience of commercial nations in all ages, it has been found that gold and silver afford the only safe foundation for a monetary system. Confusion has recently been created by variations in the relative value of the two metals. But I confidently believe that arrangements can be made between the leading commercial nations which will secure the general use of both metals. Congress should provide that the compulsory coinage of silver now required by law may not disturb our monetary system by driving either metal out of circulation. If possible such an adjustment should be made that the purchasing power of every coined dollar will be exactly equal to its debt-paying power in all the markets of the world.

The chief duty of the National Government, in connection with the currency of the country, is to coin money and declare its value. Grave doubts have been entertained whether Congress is authorized by the Constitution to make any form of paper money legal tender. The present issue of United States notes has been sustained by the necessities of war, but such paper should depend for its value and currency upon its convenience in use and its prompt redemption in coin at the will of the holder, and not upon its compulsory circulation. These notes are not money, but promises to pay money. If the holders demand it the promise should be kept.

The refunding of the National debt at a lower rate of interest should be accomplished without compelling the withdrawal of the National bank notes, and thus disturbing the business of the country.

I venture to refer to the position I have occupied on financial questions during a long service in Congress, and to say that time and experience have strengthened the opinions I have so often expressed on these subjects.

The finances of the Government shall suffer no detriment which it may be possible for my administration to prevent.

The interests of agriculture deserve more attention from the Government than they have yet received. The farms of the United States afford homes and employment for more than one-half our people, and furnish much the largest part of all our exports. As the Government lights our coasts for the protection of mariners and the benefit of commerce, so it should give to the tillers of the soil the best lights of practical science and experience.

Our manufacturers are rapidly making us industrially independent, and are opening to capital and labor new and profitable fields of employment. Their steady and healthy growth should still be matured. Our facilities for transportation should be promoted by the continued improvement of our harbors and great interior water-ways and by the increase of our tonnage on the ocean.

The development of the world's commerce has led to an urgent demand for shortening the sea voyage around Cape Horn by constructing ship canals or railways across the the isthmus which unites the continents. Various plans to this end have been suggested and will need consideration; but none of them has been sufficiently matured to warrant the United States in extending pecuniary aid. The subject, however, is one which will immediately engage the attention of the Government with a view to a thorough protection to American interests. We will urge no narrow policy nor seek peculiar or exclusive privileges in any commercial route; but in the language of my predecessor, I believe it to be the right "and duty of the United States to assert and maintain such supervision and authority over any interoceanic canal across the isthmus that connects North and South America as will protect our National interests."

The Constitution guarantees absolute religious freedom. Congress is prohibited from making any law respecting an establishment of religion or prohibiting the free exercise thereof. The Territories of the United States are subject to the direct legislative authority of Congress; and hence the General Government is responsible for any violation of the Constitution in any of them. It is, therefore, a reproach to the Government that in the most populous of the Territories the constitutional guarantee is not enjoyed by the people and the authority of Congress is set at naught. The Mormon Church not only offends the moral sense of manhood by sanctioning polygamy, but prevents the administration of justice through ordinary instrumentalities of law.

In my judgment, it is the duty of Congress, while respecting to the uttermost the conscientious convictions and religious scruples of every citizen, to prohibit within its jurisdiction all criminal practices, especially of that class which destroy the family relations and endanger social order. Nor can any ecclesiastical organization be safely permitted to usurp in the smallest degree the functions and powers of the National Government.

The civil service can never be placed on a satisfactory basis until it is regulated by law. For the good of the service itself, for the protection of those who are intrusted with the appointing power against the waste of time and obstruction to the public business caused by the inordinate pressure for place, and for the protection of incumbents against intrigue and wrong, I shall, at the proper time, ask Congress to fix the tenure of the minor offices of the several Executive Departments, and prescribe the grounds upon which removals shall be made during

Digitized by Google

the terms for which incumbents have been appointed.

Finally, acting always within the authority and limitations of the Constitution, invading neither the rights of the States nor the reserved rights of the people, it will be the purpose of my administration to maintain the authority of the Nation and in all places within its jurisdiction; to enforce obedience to all the laws of the Union in the interests of the people; to demand rigid economy in all the expenditures of the Government; and to require the honest and faithful service of all executive officers, remembering that the offices were created, not for the benefit of incumbents or their supporters, but for the service of the Government.

And now, fellow-citizens, I am about to assume the great trust which you have committed to my hands. I appeal to you for that earnest and thoughtful support which makes this Government in fact, as it is in law, a Government of the people.

I shall greatly rely upon the wisdom and patriotism of Congress and of those who share with me the responsibilities and duties of administration. And above all, upon our efforts to promote the welfare of this great people and their Government, I reverently invoke the support and blessings of Almighty God.

Of Chester A. Arthur,

September 22, 1881.

For the fourth time in the history of the Republic its Chief Magistrate has been removed by death. All hearts are filled with grief and horror at the hideous crime which has darkened our land, and the memory of the murdered President, his protracted sufferings, his unyielding fortitude, the example and achievements of his life and the pathos of his death, will forever illumine the pages of our history.

For the fourth time the officer elected by the people and ordained by the Constitution to fill a vacancy so created is called to assume the Executive Chair. The wisdom of our fathers, foreseeing even the most dire possibilities, made sure that the Government should never be imperilled because of the uncertainty of human life. Men may die, but the fabric of our free institutions remains unshaken. No higher or more assuring proof could exist of the strength and permanence of popular government than the fact that though the chosen of the people be struck down, his constitutional successor is peacefully installed without shock or strain except the sorrow which mourns the bereavement. All the noble aspirations of my lamented predecessor, which found expression in his life, the measures devised and suggested during his brief Administration to correct abuses and enforce economy, to advance prosperity and promote the general welfare, to insure domestic security and maintain friendly and honorable relations with the nations of the earth, will be garnered in the hearts of the people, and it will be my earnest endeavor to profit and to see that the Nation shall profit by his example and experience. Prosperity blesses our country. Our fiscal policy is fixed by law, is well grounded and generally approved. No threatening issue mars our foreign intercourse, and the wisdom, integrity and thrift of our people may be trusted to continue undisturbed the present assured career of peace, tranquility and welfare. The gloom and anxiety which have enshrouded the country must make repose especially welcome now. No demand for speedy legislation has been heard, no adequate occasion is apparent for an unusual session of Congress. The Constitution defines the functions and powers of the Executive as clearly as those of either of the other two departments of the Government, and he must answer for the just exercise of the discretion it permits and the performance of the duties it imposes. Summoned to these high duties and responsibilities, and profoundly conscious of their magnitude and gravity, I assume the trust imposed by the Constitution, relying for aid on divine guidance and the virtue, patriotism and intelligence of the American people.

[President Garfield was shot by Charles J. Guiteau, in Washington City, at 9:20 a. m., July 2, 1881. He died at Elberon, N. J., at 10:35 p. m., September 19, 1881. President Arthur, on telegraphic announcement from the Cabinet of the death of President Garfield, and on their suggestion, took the oath of office at once. It was administered at 2:15 a. m., September 20, 1881, in New-York City, before Judge Brady, of the State Court. CONSTITUTIONAL AMENDMENTS

IN THE STATES.

INDIANA.

The seven amendments submitted in 1880—for which see the ALMANAC for 1880—and adopted by the people as stated in the ALMANAC for 1881, and readopted and resubmitted by the Legislature because of a decision of the Court that they were not legally ratified at the former election, were ratified at a special election March 14, 1881, by the following vote:

Amendment.	For.	Against.	Majority.	Total.
1. Prescribes qualifications of voters	123,736	45,975	77,761	169,711
2. Suffrage of colored persons	124,952	42,896	82,056	167,848
3. Date of election to November	128,038	40,163	87,875	168,201
4. To strike out the word "white"	125,170	42,162	83,008	167,332

9. To restrict municipal debt	126,221	36,435	89,786	162,656

This proposed amendment was passed by the Legislature of 1881, which, if passed by the Legislature of 1883, will be submitted to popular vote:

Amend Section 2 of Article II thereof, so that it will read as follows:

Sec. 2. In all elections, not otherwise provided for by this Constitution, every citizen of the United States, of the age of twenty-one years and upwards, who shall have resided in the State during the six months, and in the township sixty days, and in the ward or precinct thirty days, immediately preceding such election, and every person of foreign birth, of the age of twenty-one years and upwards, who shall have resided in the United States one year, and who shall have resided in this State during the six months, and in the township sixty days, and in the ward or precinct thirty days immediately preceding such election, and shall have declared his or her intention to become a citizen of the United States, conformably to the laws of the United States on the subject of naturalization, shall be entitled to vote in the township, ward or precinct where he or she may reside, if he or she shall have been duly registered according to law.

IOWA.

Two constitutional amendments are submitted to the next General Assembly for approval and submission to a vote of the people, or rejection: Add to Section 26 of Article I the words: "No person shall manufacture for sale, or sell, or keep for sale as a beverage, any intoxicating liquors whatever, including ale, wine, and beer." Also, a joint resolution to increase the jurisdiction of justices of the peace from $100 to $300.

MASSACHUSETTS.

An amendment that "No person, having served in the Army or Navy of the United States in time of war, and having been honorably discharged from such service, if otherwise qualified to vote, shall be disqualified therefrom on account of being a pauper; or, if a pauper, because of the non-payment of poll-tax," was submitted to popular vote.

MARYLAND.

The following proposed amendment passed the Legislature January, 1880, to stand as Section 5 of Article IV, was submitted to the people November 8, 1881, and adopted:

Sec. 5. After the election for judges, as hereinbefore provided, there shall be held in this State, in every fifteenth year thereafter, on the Tuesday after the first Monday in November of such year, an election for judges as herein provided; and in case of death, resignation, removal or disqualification, by reason of age or otherwise, of any judge, the Governor shall appoint a person duly qualified to fill said office, who shall hold the same until the next general election for members of the General Assembly, when a successor shall be elected, whose term of office shall be the same as hereinbefore provided; and upon the expiration of the term of fifteen years for which any judges may be elected to fill a vacancy, an election for his successor shall take place at the next general election for members of the General Assembly to occur upon or after the expiration of the said term; and the Governor shall appoint a person duly qualified to hold said office from the expiration of such term of fifteen years until the election and qualification of his successor.

MICHIGAN.

Three amendments were submitted to popular vote at the spring election, April 4, 1881. The first, to stand as Section 12 of Article XIII, requires the Legislature to establish at least one library in each township and city; and all fines assessed and collected in the several counties and townships for any breach of the penal laws shall be exclusively applied to the support of such libraries, unless otherwise ordered by the township board of any township, or the board of education of any city; *Provided*, that in no case shall such fines be used for other than library or school purposes—was adopted, yeas, 59,815; nays, 51,475. The second, to stand as Section 12 of Article VI, provides that the clerk of each county organized for judicial purposes shall be the clerk of the circuit court of such county, and that the Supreme Court shall have power to appoint a clerk for such supreme court—was adopted, yeas, 69,233; nays, 62,593. The third, to stand as Section 6 of Article VI, provides that the State shall be divided into judicial circuits, in each of which the electors shall elect one circuit judge, who shall hold office for six years and until his successor is elected and qualified; and that the Legislature may provide for the election of more than one circuit judge in the circuit in which the City of Detroit is situated, and the circuit judge or judges of said circuit shall, in addition to the usual salary, receive from Wayne County such additional salary as may from time to time be fixed by the supervisors of said county—was adopted, yeas, 60,468; nays, 53,840.

MINNESOTA.

Several amendments were submitted: To prohibit special legislation in certain cases; for the sale of swamp lands, the proceeds to be applied to educational and charitable purposes; for a general law defining the powers of municipal corporations over the assessments for certain local improvements; and to fix the pay of members of the Legislature, and prohibit them from changing the rate.

MISSOURI.

A proposed amendment is to be submitted to popular vote at the November election in 1882, concerning the judicial department. It adds one to the number of judges of the Supreme Court, which is to be divided into two divisions, with three judges each, one to be called the civil, the other the criminal side of the Court, and to act separately for the disposition of causes, two of a side to be a quorum. After January 1, 1883, the jurisdiction of the St. Louis Court of Appeals and the election for judge thereof shall be restricted to the Eighth Judicial Circuit, and after that time it shall not have jurisdiction of any criminal case. The amendment contains sundry minor provisions.

NEW-YORK.

The following proposed amendments to the Constitution will be acted upon by the Legislature of 1882; if agreed to by a majority of each house they will be submitted to the people. The two sets of Canal amendments conflict, and the Legislature will probably submit but one to the people.

I.—Amending Article VI by adding the following section: "Section 28. The Legislature, at the first session thereof after the adoption of this amendment, shall provide for organizing in the Supreme Court not more than five general terms thereof; and for the election, at the general election next after the adoption of this amendment by the electors of the judicial districts mentioned in this section respectively, of not more than two Justices of the Supreme Court, in addition to the Justices of that court now in office, in the first, fifth, seventh and eighth, and not more than one Justice of that court in the second, third, fourth and sixth judicial districts. The Justices so elected shall be invested with their offices on the first Monday of June next after their election." [The number of general terms is now limited to four. There are now five Judges in the 1st District, five in the IId and four each in the other six districts.]

II.—Amending Section 12 of Article VI so as to provide "for detailing Judges of the Superior Court of Buffalo to hold Circuit Courts of Oyer and Terminer and special terms of the Supreme Court."

III.—Amending Sections 3, 5 and 6 of Article VII so as to read as follows:

SECTION 3. The debts mentioned in the preceding section of this article having been fully paid or provided for, and no longer liens upon the revenues of the canals, the surplus revenues of the canals, after paying the cost of collection, superintendence and ordinary repairs, shall in each fiscal year be credited to the reserve fund created under the sixth section of this article, and held to meet appropriations as therein provided. The rates of toll established for the year one thousand eight hundred and eighty, on persons and property transported on the canals, shall neither be increased nor reduced except by the Canal Board, with the concurrence of the Legislature. All contracts for work or materials on any canal shall be made with the person who shall offer to do or provide the same at the lowest price with adequate security for their performance. No extra compensation shall be made to any contractor; but if from any unforeseen cause the terms of any contract shall prove to be unjust and oppressive, the Canal Board may, upon the application of the contractor, cancel such contract. The Legislature shall not sell, lease or otherwise dispose of the Erie Canal, the Oswego Canal, the Champlain Canal, the Cayuga and Seneca Canal or the Black River Canal; but they shall remain the property of the State, and under its management forever.

SEC. 5. There shall annually be imposed and levied a tax which shall be sufficient to pay the interest and extinguish the principal of the canal debt, as the same shall become due and payable, and the proceeds of such tax shall, in each fiscal year, be appropriated and set apart for the sinking fund constituted for the payment of the principal and the interest of the aforesaid debt.

SEC. 6. There shall be created a canal repair trust fund, under the control and management of the Commissioners of the Canal Fund, which shall be made up and sustained in the following manner:

1. By the transfer thereto of any unexpended moneys remaining in treasury at the time of the adoption of this section, belonging to the canal fund and standing on the books of the canal department to the credit of the "fund for extraordinary repairs," the "fund for the enlargement of the Champlain Canal" and the "fund for the reconstruction of the Oneida Lake Canal."

2. From the surplus revenues in each fiscal year, after paying the expenses of collection, superintendence and ordinary repairs of the canals.

All of which fund so hereby created shall be separately kept and safely invested by the Commissioners of the Canal Fund, and may under the direction and enactment of the Legislature from time to time be appropriated, to make good any failure in the revenues to meet the appropriation for the ordinary expenditures or for the permanent improvement of the canals.

IV.—Amending Sections 3, 5 and 6 of Article VII, so as to read as follows:

SECTION 3. The first and second sections of this article having been fully complied with, no tolls shall hereafter be imposed on persons or property transported on the canals, but all boats navigating the canals, and the owners and masters thereof, shall be subject to such laws and regulations as have been or may hereafter be enacted concerning the navigation of the canals. The Legislature shall, annually, by equitable taxes, make provision for the expenses of the superintendence and repairs of canals. The canal debt contracted under the section hereby amended, which on the 1st day of October, 1880, amounted to $8,982,200, shall continue to be known as the "canal debt under article seven, section three, of the Constitution," and the sinking fund applicable to the payment thereof, together with the contributions to be made thereto, shall continue to be known as the "canal debt sinking fund," and the principal and interest of said debt shall be met as provided in

the fifth section of this article. All contracts for work or materials on any canals shall be made with the person who shall offer to do or provide the same at the lowest price, with adequate security for their performance. No extra compensation shall be made to any contractor, but if from any unforeseen cause the terms of any contract shall prove to be unjust and oppressive, the Canal Board may, upon the application of the contractor, cancel such contract.

SEC. 5. There shall annually be imposed and levied a tax, which shall be sufficient to pay the interest and extinguish the principal of the canal debt mentioned in the third section of this article, as the same shall become due and payable, and the proceeds of such tax shall, in each fiscal year, be appropriated and set apart for the sinking fund constituted for the payment of the principal and the interest of the aforesaid debt. But the Legislature may, in its discretion, impose for the fiscal year beginning on the 1st day of October, 1883, a State tax on each dollar of the valuation of the property in this State, which may by law then be subject to taxation, sufficient, with the accumulation of the sinking fund applicable thereto, to pay in full both the principal and interest of the canal debt before mentioned, and the proceeds of such tax shall be appropriated and set apart fo the sinking fund constituted for the payment of the principal and interest of said debt. In the event of such action by the Legislature, then the Legislature shall, under the law directing the assessment and levy of such tax, make such provision for the retirement of the canal debt, as it shall deem equitable and just to the creditors of the State.

SEC. 6. The Legislature shall not sell, lease or otherwise dispose of the Erie Canal, the Oswego Canal, the Champlain Canal, the Cayuga and Seneca Canal or the Black River Canal; but they shall remain the property of the State and under its management forever. All funds that may be derived from any lease, sale or disposition of any canal shall be applied in payment of the canal debt mentioned in the third section of this article.

V.—Amending Section 11 of Article VIII by adding the following words: "No county containing a city over 100,000 inhabitants, or any such city, shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed ten per centum of the assessed valuation of the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided. No such county or such city, whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate, subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit. This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, for amounts actually contained, or to be contained, in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes. Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water, but the term of the bonds issued to provide for the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds, for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity. Any such city whose debt now exceeds said 10 per centum shall decrease the amount each year, at the rate of at least 1 per centum on the assessed valuation of the taxable property of said city, until such debt is reduced to an amount equal to the rate of said 10 per centum. The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over 100,000 inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not, in the aggregate, exceed in any one year 2 per centum of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt."

NORTH CAROLINA.

A proposed amendment to prohibit the manufacture or sale of intoxicating liquors as a beverage was voted upon at a special election in August, 1881, and rejected by a very large vote, but one County having voted affirmatively.

TEXAS.

Two amendments were submitted September 6, 1881. The first amendment modifies Sections 2, 3, 5, 6, 8 and 17 of Article V., and has for its object the enlargement and improvement of the Supreme and Appellate Courts, and a better definition of the jurisdiction and functions of the District Court. Among the changes is one increasing the number of Supreme Court judges from three to six. The other amendment authorizes the Legislature to sit in regular session for 100 days, the members to receive $5 a day and mileage, each way, at the rate of $5 for every twenty-five miles, computed by the most direct route. Under the present Constitution, $5 a day is allowed for sixty days only, and long sessions are discouraged by cutting down the pay of members to $2 a day for any extension beyond sixty days. The first amendment received 20,149 votes; there were 36,647 against it. The second amendment received 12,493 votes; there were 44,569 against it. At the same election, Austin received the largest vote, and over one-third of the vote cast, for the location of the Main University; and Galveston was likewise chosen for the location of the medical department of the University.

VIRGINIA.

A proposed amendment strikes out the clause that a citizen cannot vote "unless he has paid to the State before the day of election the capitation tax required by law for the preceding year."

WISCONSIN.

The amendments submitted relate to the Legislature, fix biennial sessions, and authorize the creation of Representative Districts irrespective of county lines.

The New-York Tribune.

"The Leading American Newspaper."

During the year 1882 THE TRIBUNE hopes to employ with increasing success the work and the methods which have won for it so large a measure of popular approval. It has attained, and means never to lose, the high standard of success which was aimed at by its founder, the largest circulation, among the best people. So large a circulation and one so widely distributed over the entire territory of the Nation has never been attained by any other newspaper in the United States. We accept this fact as the verdict of the American people upon the conduct and character of THE TRIBUNE. The position it occupies could never have been gained nor retained but by preeminent merits as a newspaper, as an organ of sound opinion, and an advocate of just public measures.

In short, THE TRIBUNE will, as heretofore, continue to be the medium of the best thought and the voice of the best conscience of the time; will keep abreast of the highest progress, favor the freest discussion, hear all sides, appeal always to the most enlighted intelligence and the purest morality, and refuse peremptorily to cater to the tastes of the vile or the prejudices of the ignorant.

The well-known special features of THE TRIBUNE will be carefully maintained. Its Agricultural Department will remain as it is, the fullest and best. The Household and Young Folks' Departments, the literary, scientific and religious features, the standard market reports, will all be kept up and extended as opportunity may serve.

HARPER'S MAGAZINE.

HARPER'S MAGAZINE, established 1850, begins its sixty-fourth volume with the December Number. It is the oldest and most vigorous of American magazines—"The Giant of the monthlies," as it has been truly styled—fresher and fuller of promise to the second generation of its readers than it was to the first. It is to-day the most popular magazine in the world. Not only is its American circulation larger than that of any other magazine, but its edition issued in London exceeds during its first year that of any English periodical of the same class.

HARPER'S WEEKLY.

All the great events which have transpired in every part of the world since this journal was established have been illustrated, described and discussed in its pages; and the twenty-five volumes which are now before the public present a complete history of the world's achievements in art, literature, science, industry, and politics during the last quarter of a century. At the same time, the conductors of HARPER'S WEEKLY have always given due prominence to all branches of American interests.

HARPER'S BAZAR.

HARPER'S BAZAR is universally acknowledged to be the best periodical for women published in the United States. It has been the aim of the publishers to adapt it to the necessities of the rich and the poor alike; and gratifying proof of their success is found in the fact, that the BAZAR is a welcome visitor and a trusted adviser in the homes of people of all classes and circumstances throughout the continent.

HARPER'S YOUNG PEOPLE.

The name of HARPER'S YOUNG PEOPLE is now a household word in many thousands of homes throughout the English-speaking world. The efforts of the publishers have been directed to sustaining the pure, elevating, and entertaining character of the paper, which has won for it the reputation of being "the best periodical for juvenile readers." Public and private teachers in every part of the country have hailed it as a powerful ally of the schools in the great work of education.

In any prosecution for bigamy, polygamy, or unlawful cohabitation, under any statute of the United States, it shall be sufficient cause of challenge to any person drawn or summoned as a juryman or talesman, first, that he is or has been living in the practice of bigamy, polygamy, or unlawful cohabitation with more than one woman, or that he is or has been guilty of an offence punishable by either of the foregoing sections, or by section 5,352 of the Revised Statutes, or the act of July 1, 1862, entitled "An act to punish and prevent the practice of polygamy in the Territories of the United States and other places, and disapproving and annulling certain acts of the legislative assembly of the Territory of Utah"; or, second, that he believes it right for a man to have more than one living and undivorced wife at the same time, or to live in the practice of cohabiting with more than one woman; and any person appearing or offered as a juror or talesman, and challenged on either of the foregoing grounds, may be questioned on his oath as to the existence of any such cause of challenge, and other evidence may be introduced bearing upon the question raised by such challenge; and this question shall be tried by the court. But as to the first ground of challenge before mentioned, the person challenged shall not be bound to answer if he shall say upon his oath that he declines on the ground that his answer may tend to criminate himself; and if he shall answer as to said first ground, his answer shall not be given in evidence in any criminal prosecution against him for any offence named in sections 1 or 3 of this act; but if he declines to answer on any ground, he shall be rejected as incompetent.

The President is hereby authorized to grant amnesty to such classes of offenders guilty of bigamy, polygamy, or unlawful cohabitation, before the passage of this act, on such conditions and under such limitations as he shall think proper; but no such amnesty shall have effect unless the conditions thereof shall be complied with.

The members of said board so appointed by the President shall each receive a salary at the rate of $3,000 per annum, and shall continue in office until the legislative assembly of said Territory shall make provision for filling said offices as herein authorized. The canvass and return of all the votes at elections in said Territory for members of the legislative assembly thereof shall also be returned to said board, which shall canvass all such returns and issue certificates of election to those persons who, being eligible for such election, shall appear to have been lawfully elected, which certificates shall be the only evidence of the right of such persons to sit in such assembly; *provided*, that said board of five persons shall not exclude any person otherwise eligible to vote from the polls on account of any opinion such person may entertain on the subject of bigamy or polygamy, nor shall they refuse to count any such vote on account of the opinion of the person casting it on the subject of bigamy or polygamy; but each house of such assembly, after its organization, shall have power to decide upon the elections and qualifications of its members. And at or after the first meeting of said legislative assembly whose members shall have been elected and returned according to the provisions of this act, said legislative assembly may make such laws, conformable to the organic act of said Territory and not inconsistent with other laws of the United States, as it shall deem proper concerning the filling of the offices in said Territory declared vacant by this act.—[Approved March 22, 1882.

The jurisdiction for suits hereafter brought by or against any association established under any law providing for national banking associations, except suits between them and the United States, or its officers and agents, shall be the same as, and not other than, the jurisdiction for suits by or against banks not organized under any law of the United States which do or might do banking business where such national banking associations may be doing business when such suits may be begun. And all laws and parts of laws of the United States inconsistent with this proviso be, and the same are hereby, repealed.

That the circulating notes of any association so extending the period of its succession issued to it prior to such extension shall be redeemed as provided in section 3 of the act of June 20, 1874, and any gain that may arise from the failure to present such circulating notes for redemption shall inure to the benefit of the United States; and from time to time, as such notes are redeemed or lawful money deposited therefor as provided herein, new circulating notes shall be issued as provided by this act, bearing such devices as shall make them readily distinguishable from the circulating notes heretofore issued; *provided, however*, that each banking association which shall obtain the benefit of this act shall reimburse to the Treasury the cost of preparing the plate or plates for such new circulating notes as shall be issued to it.

Sec. 8. That national banks now organized or hereafter organized, having a capital of $150,000 or less, shall not be required to keep on deposit or deposit with the Treasurer of the United States U. And all national banks which have heretofore made or shall hereafter make deposits of lawful money for the reduction of their circulation shall be assessed and shall pay an assessment in the manner specified in section 3 of the act approved June 20, 1874, for the cost of transporting and redeeming their notes redeemed from such deposits subsequently to June 30, 1881.

Sec. 10. That upon a deposit of bonds as described in sections 5,159 and 5,160, except as modified by section 4 of the act of June 20, 1874, and as modified by section 8 of this act, the association making the same shall be entitled to receive from the Comptroller of the Currency circulating notes of different denominations, in blank, equal in amount to 90 per cent of the current market value, not exceeding par, of the United States bonds so transferred and delivered, and at no time shall the total amount of such notes issued to any such association exceed 90 per cent of the amount at such time actually paid in of its capital stock; and the provisions of sections 5,171 and 5,176 of the Revised Statutes are hereby repealed.

Sec. 11. That the Secretary of the Treasury is hereby authorized to receive at the Treasury any bonds of the United States bearing 3½ per cent interest, and to issue in exchange therefor an equal amount of registered bonds of the United States of the denominations of $50, $100, $500, $1,000 and $10,000, of such form as he may prescribe, bearing interest at the rate of 3 per cent per annum, payable quarterly at the Treasury of the United States. Such bonds shall be exempt from all taxation by or under State authority, and be payable at the pleasure of the United States; *provided*, that the bonds herein authorized shall not be called in and paid so long as any bonds of the United States heretofore issued bearing a higher rate of interest than 3 per cent, and which shall be redeemable at the pleasure of the United States, shall be outstanding and uncalled. The last of the said bonds originally issued under this act, and their substitutes, shall be first called in, and this order of payment shall be followed until all shall have been paid.

Sec. 12. That the Secretary of the Treasury is authorized and directed to receive deposits of gold coin with the Treasurer or Assistant-Treasurers of the United States, in sums not less than $20, and to issue certificates therefor in denominations of not less than $20 each, corresponding with the denominations of United States notes. The coin deposited for or representing the certificates of deposits shall be retained in the Treasury for the payment of the same on demand. Said certificates shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such certificates, as also silver certificates, when held by any national banking association, shall be counted as part of its lawful reserve; and no national banking association shall be a member of any clearing-house in which such certificates shall not be receivable in the settlement of clearing-house balances; *provided*, That the Secretary of the Treasury shall suspend the issue of such gold certificates whenever the amount of gold coin and gold bullion in the Treasury reserved for the redemption of United States notes falls below $100,000,000; and the provisions of section 5,207 of the Revised Statutes shall be applicable to the certificates herein authorized and directed to be issued.

Sec. 14. That Congress may at any time amend, alter, or repeal this act and the acts of which this is amendatory.—[Approved July 12, 1882.

CCCLXXIX.—Postmaster-Gen'l is authorized, where the mail service would be thereby improved, to extend service on a mail route under contract, at not exceeding pro rata additional pay, for a distance not exceeding twenty-five miles beyond either terminal point; *provided*, that no service shall be extended beyond the original terminal points more than once during the term for which the contract shall have been made.—[Approved August 3, 1882.

Chap. CXVII.—Whenever any contractor or subcontractor shall sublet his contract on any route for a less sum than that for which he contracted to perform the service, the Postmaster-General may, whenever he shall deem it for the good of the service, declare the original contract at an end, and enter into a contract with the last subcontractor, without advertising, to perform the service on the terms at which the last subcontractor agreed with the original contractor or former subcontractor to perform the same; *provided*, that such last subcontractor shall enter into a good and sufficient bond, and that the original contractor shall not be released from his contract until a good and sufficient bond has been made by such last subcontractor and accepted by the Post Office Department; *provided further*, that when a contract hereafter made is declared void on account of its having been sublet, the contractor shall not be entitled to one month's extra pay as provided for by law; *and provided further*, that if any person shall hereafter perform any service for any contractor or subcontractor in carrying the mail, he shall, upon filing in the department his contract for such service, and satisfactory evidence of its performance, thereafter have a lien on any money due such contractor or subcontractor for such service to the amount of the same; and if such contractor or subcontractor shall fail to pay the party or parties who have performed service as aforesaid the amount due for such service within two months after the expiration of the quarter in which such service shall have been performed, the Postmaster-General may cause the amount due to be paid said party or parties and charged to the contractor, provided that such payment shall not in any case exceed the rate of pay per annum of the contractor or subcontractor: *and provided further*, that where any person, corporation, or partnership shall have contracts for the performance of mail service upon more than one route, and any failure to perform the service according to contract on any one or more of such routes shall occur, no payment shall be made for service on any of the routes under contract with such person, corporation or partnership until such failure has been removed and all penalties therefor fully satisfied.—[Approved May 4, 1882.

CCCXLII—The charge of desertion now standing on the rolls of the United States against any soldier who served in the late war in the volunteer service shall be removed in all cases where it shall be made to appear to the satisfaction of the Secretary of War, from such rolls, or from other satisfactory testimony, that any such soldier served faithfully until the expiration of his term of enlistment, or until the 22d of May, 1865, or was prevented from completing his term of service by reason of wounds received or disease contracted in the line of duty, but who, by reason of absence from his command at the time the same was mustered out, failed to be mustered out and to receive an honorable discharge; also, where it shall appear that such soldier charged with desertion or with absence without leave did not intend to desert, and after such charge of desertion or absence without leave voluntarily returned to his command and served in the line of his duty until he was mustered out of the service and received a certificate of honorable discharge. That when the charge of desertion shall be removed from the record of any soldier, such soldier, or, in case of his death, the heirs or legal representatives of such soldier, shall receive all pay and bounty which may have been withheld on account of such charge of desertion or absence without leave; *provided*, that this act shall not be so construed as to give to any such soldier as may be entitled to relief under the provisions of this act, or, in case of his death, to the heirs or legal representatives of any such soldier, the right to receive pay and bounty for any period of time during which such soldier was absent from his command without leave of absence; *and provided*, that no soldier, nor the heirs or legal representatives of any soldiers who served in the Army a period of less than 12 months*, or who intentionally deserted, shall be entitled to the benefit of the provisions of this act.—[Approved August 7, 1882.

And in every vessel propelled by steam or other power requiring engine-room, there shall also be deducted from the tonnage the space actually occupied by or required to be inclosed for the proper working of the boilers and machinery, including the shaft trunk or alley in screw steamers, with the addition in the case of vessels propelled with paddle-wheels of 50 per cent, and in the case of vessels propelled by screws of 75 per cent of the tonnage of such space, not exceeding 50 per cent of such tonnage.

Whenever the rules concerning the measurement for tonnage of vessels of the United States have been substantially adopted by the government of any foreign country, the vessels of such foreign country may be deemed to be of the tonnage denoted in their certificates of register, and thereupon it shall not be necessary for such vessels to be remeasured at any port in the United States.—[Approved August 5, 1882.

PARTY PLATFORMS, 1882.

Indiana Republican.

[Adopted August 9, 1882.]

* * * The Republican party resolves that, reposing trust in the people as the fountain of power, we demand that the pending amendments to the Constitution shall be agreed to and submitted by the next Legislature to the voters of the State for their decision thereon. These amendments were not partisan in their origin and are not so in character, and should not be made so in voting upon them. Recognizing the fact that the people are divided in sentiment in regard to the propriety of their adoption or rejection, and cherishing the right of private judgment, we favor the submission of these amendments to a special election, so that there may be an intelligent decision thereon, uninfluenced by partisan issues. * * *

Indiana Democratic.

[Adopted August 2, 1882.]

* * * The Democratic party is now, as it has always been, opposed to all sumptuary legislation, and it is especially opposed to the proposed amendment to the Constitution of Indiana known as the prohibitory amendment, and we are in favor of the submission of said proposed amendment, as well as other proposed amendments, to the people, according to the provisions of the Constitution for its own amendment; and the people have the right to oppose or favor the adoption of any or all the amendments at all stages of their consideration, and any submission of constitutional amendment, to a vote of the people should be at a time and under circumstances most favorable to a full vote, and therefore should be at a general election. * * *

New-York Republican.

[Adopted September 21, 1882.]

Resolved That the Republican party of New-York has no new doctrine to present upon the questions which have heretofore occupied much of public attention, such as honest money, pure elections, the regulation of the traffic in intoxicating liquors, the protection of home industry and the necessity of restricting the power and influence of corporations. It is content to be judged by its past declarations and acts.

2. That equitable taxation, reaching corporations as well as persons, is approved as a correct system which should be perfected; that the practical results of recent legislation upon the subject fully justify the action of the Republican party in its adoption.

3. That monopolies oppressing the people or unfairly discriminating against local interests are wrong in principle and should not be tolerated.

4. That stringent legislation should be enacted to secure the purity and honesty of primary elections, and that all possible safeguards should be thrown about these sources of the political action of the people.

5. That the practice of appealing to the Legislature to overrule the action of the local authorities when confining themselves within the powers conferred upon them should be discouraged both by the Legislature and the Governor, and should be resorted to only in extreme cases.

6. That changes in the fundamental law should not ordinarily be the subject of party action, but they should when proposed always be carefully scrutinized by the people, who should signify their wishes with reference to them as generally they do in their selection of their representatives. We, therefore, urge the people of the State without reference to party to examine with intelligent care the Constitutional amendments submitted to them, and to give full expression at the polls to their judgment and wishes thereon.

7. That while there are varying opinions on the sale of liquors, we subscribe to the principle that propositions on that subject, like all other propositions for change in the fundamental law, ought to be submitted to the popular vote.

8. That the conduct of the Democracy in this State during this year emphatically attests anew their signal unworthiness of public confidence. They signalized their return to power in the Legislature by wantonly sacrificing the public interests upon the altar of greedy and reckless partisanship. A party which could devote nearly two months to a quarrel of its factions for spoils, but could give no time to the equalization of taxation, and to other questions vitally affecting the welfare of the people, insults the intelligence of the electors of New-York when it asks them to approve its flagrant abuse of legislative powers by handing over to it the executive branch of the State Government.

9. That the financial achievements of the Republican Administration are next in importance to its work of the preservation of the Nation itself, as they are attended by the rapid liquidation of a great public debt, incurred to meet the National emergency, and by the reduction of the rate of interest to its present low figures, and that it is the policy of the party to bring taxation within the lowest possible limits, and by the strictest system of economy, reduce the Governmental expenses and the number of those employed in the collection of the revenue, thus relieving the people of all unnecessary burdens.

10. That the Civil Service should be placed upon a proper basis by adequate legislation, so as to give facilities for the execution of the law now upon the statute book, with competitive tests for admission to the service so arranged as to secure the necessary qualifications for the positions sought, together with a fixed term for incumbents, removals from office during the term of appointment to be only for cause.

11. That the recent law of Congress designed to suppress polygamy, which offends the moral sense of mankind and prevents the administering of justice through the usual instrumentalities of law, approves itself to the people, and that it should be supplemented by such laws as may be necessary to attain the object in view.

12. That the economy and efficiency of the present Republican State Administration entitle its members to the highest praise. Governor Cornell's fearless and firm exercise of the veto power, while it has naturally brought down upon him hostile criticism, has shown his determination to protect the interests of the State and the people alike against individuals and corporations.

13. That we tender the President, Chester A. Arthur, our assurance of confidence in his Administration, and our approval of the wise and patriotic course pursued by him under the embarrassing circumstances of his accession to office. His courage in resisting the enactment of the River and Harbor bill which violated the accepted rules of constitutional power, and which while authorizing many needed public improvements, carried with it a large and wasteful appropriation for works of neither National nor public good, has secured for him the admiration even of his enemies.

14. That a hearty support be pledged to the nominees of this convention, whose records in public life, distinguished abilities and special fitness commend them to the people's approval at the ballot-box.

New-York Democratic.

[Adopted September 22, 1882.]

The Democracy of New-York, in convention assembled, declare,

First—That whereas the country is again subjected, by Republican maladministration, to the evils and abuses which afflicted it in 1874, we reaffirm the principles of our platform of that year, under which the Republican party was driven from power and the Government of the State brought back for a time to the practice of economy and honesty.

2. We arraign the Republican majority in Congress for its culpable failure to reduce the amount of taxation to a sum sufficient only for the legitimate requirements of Government under an honest and frugal Administration, and we favor such tariff and fiscal reforms as shall relieve an overtaxed people from all unnecessary burdens and prevent the accumulation of a fund to be lavished in profligate legislation, and in the support of a horde of useless and idle placemen. In particular, we proclaim our condemnation of the River and Harbor bill, in which, by the multiplication and mutual support of obnoxious provisions, an infamous measure purchased its passage through Congress, in disregard of the limitations of the Constitution and to the depravation of the public morals.

3. In the nomination of the Secretary of the Treasury for Governor of New-York, by which, in effect, a candidate for the Chief Magistracy of the State was appointed by the President, we see a fresh and impressive proof of the dangerous power of public patronage, and, urged by the alarming spectacle, we protest against Federal intervention in State elections, and repeat our demand of 1881, for a reform and purification of the Civil Service, and we are further admonished by recent experience of Republican corruption, of the necessity of forbidding by penal enactment, the levying of blackmail upon dependent officeholders, to promote the interests of a party which finds no support in the intelligent and independent convictions of the people.

4. We hold the present Republican Administration responsible for unredressed outrages on our foreign-born fellow-citizens, and we demand for them when abroad the protection to which they are entitled in return for their voluntary allegiance, and which the honor of the American Government requires shall be extended to them. We also arraign the Republican party for the wholesale gift of the public lands to railroad jobbers, thus robbing the mass of the people of their rightful inheritance; and we demand that so far as possible these lands shall be reclaimed and reserved for occupation by actual settlers, and we request the Democratic representatives in Congress from the State of New-York to use their power to secure this great blessing.

5. We charge in this State the Republican party has lowered the standard of the public service by its local administration and by the representatives it has sent to the two Houses of Congress; that it has made the State Legislature the instrument of the lobby to rob the public and enrich corporations, and has refused to its Governor the renomination which was due to him by custom, because he dared to use his veto power to thwart such purposes, in disregard of those who sought to control him by the influence of political and moneyed power.

6. We demand the restoration of the New-York State National Guard to the efficiency of which it has been deprived, and which made it the representative of the soldiery spirit of the people.

7. In order to restore our merchant marine to its former prosperity, we demand the immediate revision and amendment of the laws relating to shipping and the carriage of ocean freight.

8. We favor the adoption by the next Legislature of the resolution of 1882, providing an amendment to the Constitution for the local self-government of cities.

9. Primary elections, openly and honestly conducted, afford the surest means of securing the most suitable candidates for public office, thus best preserving a Democratic form of government. We therefore favor the speedy passage of general laws providing against fraud and intimidation at such elections.

10. The public welfare demands that the various questions relating to chartered monopolies and the methods of transportation should be met and decided, and we are in favor of the adoption of measures to restrict the growing power of such monopolies. They should be subjected to the strict supervision of the commission now provided by law. All unjust discriminations in the transportation of passengers and merchandise should be prohibited. The charges of corporations which have taken the property of private citizens for public use should be limited to the cost of service, with a reasonable profit, instead of the mercenary exaction of "all the traffic will bear." The laws should be revised that taxation may be reduced, so far as possible, and that personal and corporate property may severally pay their fair proportion of taxes.

11. We approve the submission to the vote of the people of the constitutional amendment in favor of free canals, and we have full confidence that they will dispose of it in such a manner as to promote all the great interests of the State—agricultural, manufacturing and commercial.

12. We reaffirm the policy always maintained by the Democratic party that it is of the first importance that labor should be made free, healthful and secure of just remuneration; that convict labor should not come into competition with the industry of law-abiding citizens; that the labor of chil-

dren should be surrounded with such safeguards as their health, their right of education and their future as useful members of the community demand; that workshops, whether large or small, should be under such sanitary control as will insure the health and comfort of the employed, and will protect all against unwholesome labor and surroundings; that labor shall have the same right as capital to combine for its own protection; and that all legislation which cramps industry or which enables the powerful to oppress the weak, should be repealed; and to promote the interests of labor we recommend the collection of statistics and information respecting the improvements, the needs and the abuses of the various branches of industry.

15. Whereas the founders of the Democratic party inculcated a frequent recurrence to fundamental principles, the Democracy of New-York again avow their fidelity to those tenets of economy, simplicity and respect for the liberty of the individual which characterized the administration of Government in the primitive days of the Republic.

New-York Greenback-Labor

[Adopted July 19, 1882.]

That all railroad and telegraph companies doing business under the laws of this State, and which have forfeited their chartered privileges as common carriers by failing to provide suitable and speedy facilities for transacting their business, should immediately be taken possession of by the State and operated for the benefit of the people. That the stock and bonds of all railroad and telegraph companies should be limited to the actual cost of construction and equipment. That no discriminating rates between individuals or communities should be allowed. That the books of the companies representing such property should be open to public inspection, and that commissioners should be elected by the people to carry out these provisions.

That the Penal Code laws enacted by the Legislature of this State violate every principle for which our free government was established; and we demand the repeal of all sections affecting the rights, privileges or liberty of any person not proved guilty of crime under the common law.

That the prison system of the State is an outrage on civilization by bringing honest labor in competition with prison labor, and we demand that the prisons of this State be removed to the mineral lands in the northern part of the State, that thereafter no mechanical business shall be done therein, and that all sums earned by prisoners in excess of the actual cost of their support should be paid to their families or paid to them at the end of their terms of service.

That incorporate capital which now holds absolute control over the money, the highways, the public lands, and the legislation of this State and country, should be restricted in its power to purchase or control large tracts of lands; and that all land owned by individuals or corporations in excess of what is required for their personal use, or for the transaction of their business, should be taxed so as to render its ownership valueless.

Ohio Republican.

[Adopted June 7, 1882.]

Fifth—That the tax-paying people of the State demand that, by specific taxation, the traffic in intoxicating liquors shall be made to bear its share of the public burdens, and that the Constitution, so far as it may be an obstacle in the way of the exercise, by the people, through their representatives, of practical control over the liquor traffic, to the end that the evils resulting therefrom may be effectually provided against, should be amended at the earliest date allowed by law.

6. That all laws upon the statute books must be respected and enforced until repealed by legislation or abrogated by legal authority.

Ohio Democratic.

[Adopted July 20, 1882.]

Fifth—That the Democratic party has ever maintained, and still steadfastly adheres to, the doctrine of the largest liberty consistent with the public welfare, and is opposed to legislation merely sumptuary.

Pennsylvania Republican (Regular).

[Adopted May 10, 1882.]

First—That we unequivocally condemn the use of patronage to promote personal political ends, and require that all offices bestowed within the party shall be upon the sole basis of fitness.

2. That competent and faithful officers should not be removed except for cause.

3. That the non-elective minor offices should be filled in accordance with rules established by law.

4. That the ascertained popular will shall be faithfully carried out in State and National Conventions, and by those holding office by the favor of the party.

5. That we condemn compulsory assessments for political purposes, and proscription for failure to respond either to such assessments or to requests for voluntary contributions; and that any policy of political proscription is unjust and calculated to disturb party harmony.

6. That public office constitutes a high trust, to be administered solely for the benefit of the people, whose interests must be paramount to those of persons and parties, and that it should be invariably conducted with the same efficiency, economy and integrity as are expected in the execution of private trusts.

Resolved, That we also recommend the adoption of the following permanent rules for the holding of State Conventions and the conduct of the party:

1. That delegates to State Conventions shall be chosen in the manner in which candidates for the General Assembly are nominated, except in Senatorial districts composed of more than one county, in which conferees for the selection of Senatorial delegates shall be chosen in the manner aforesaid.

2. Hereafter the State Convention of the Republican party shall be held on the second Wednesday of July, except in the year of the Presidential election, when it shall be held not more than thirty days previous to the day fixed for the National Convention,

and at least sixty days' notice shall be given of the date of the State Convention.

3. That we recommend to the county organizations that in their rules they allow the largest freedom, in the general participation in the primaries, consistent with the preservation of the party organization.

Pennsylvania Republican (Independent).

[Adopted May 24, 1882.]

The Republicans of Pennsylvania who will not surrender their political rights, and who maintain the exercise of their own conscience and judgment concerning public affairs, having assembled in State Convention, make the following declaration of principles and purposes:

First—We declare our attachment to the principles of the Republican party—freedom, union, nationality, equal rights before the law, maintenance of the public faith, protection to home industry—and we demand that the record which has been made shall be wisely and fearlessly perpetuated.

2. We declare that the nomination and election of James A. Garfield to the Presidency signified to us the triumph of a true reform in the Civil Service and of an enlarged liberty of action for the masses of the Republican party in the nomination of their candidates and in the conduct of their party affairs; and we deplore the overwhelming evidence presented to us in Pennsylvania that the calamity of his assassination has been followed by the overthrow of these reforms in the hands of his successor.

3. We denounce the system which makes "patronage" and "spoils" out of public offices; we denounce the practice of giving them to political managers for use in advancing personal political ends; we denounce the removal of faithful and competent officers in the absence of a public reason; we denounce the practice of levying assessments and demanding contributions for party use from public officials; we denounce severally and collectively the evils of corruption which accompany the conduct of the Government as a "spoils system," and which are inseparable from such a method of administration, and we denounce the system of "boss rule" and "machine control" which when tamely endured makes leaders into autocrats and reduces the mass of the citizenship into political bondage.

4. We declare our purpose to take up the work which fell when Garfield fell. We demand, in place of the "spoils system," the reformation of the Civil Service by law, so that the appointed places therein may be fully open to all fit and meritorious citizens, and removals shall be only for good and sufficient public cause. We demand, instead of the prostitution of the public service to private uses, its recognition as a high and honorable trust, to be administered for the people's benefit, with efficiency, economy and integrity. We demand, instead of the insolence, the proscription and tyranny of "bossism" and "machine rule," the free and conscientious exercise of private judgment in political affairs and the faithful discharge by those who assume representative trusts of the expressed will of the people.

5. We declare in favor of the following party reforms: 1. That delegates to State Conventions shall be chosen by the people in the manner in which candidates for the General Assembly are nominated. 2. That representation in the State Convention shall be by counties, and shall be apportioned according to their Republican vote. 3. That State Conventions shall not be held without at least sixty days' notice, nor earlier than the second Wednesday in July, except in Presidential years. 4. That the Republicans who voted for the Republican candidate for President at the Presidential election next preceding shall be entitled to join in the choice of delegates to the State and National Conventions.

Pennsylvania Democratic.

[Adopted June 28, 1882.]

First—We do protest against what is called the boss system, and also the plundering of officeholders by assessments of money for political purposes. Public offices are the property of no party, but are open to every citizen honest, capable and faithful to the Constitution, qualifications which Jefferson declared were the requisites for office.

2. We protest against the spoils system; it is a prostitution of the offices of the people, so that they become the mere perquisites of the politician.

3. We denounce all repudiation, State and Federal, because it is dishonest and destructive of the public morality upon which are founded the existence and perpetuity of our free institutions. It should be made odious, and the political party that aids it and abets it with office deserves public condemnation.

4. We denounce spoliation of the State Treasury, and immunity by pardon of those convicted of crime, whose acts are flagrant subversions of official trusts and wrongs done to the people.

5. We believe the Republican party as now organized and controlled, is based on fraud, force and corruption, and there can be no hope of true reform except by the force of the ballot-box excluding it from place and power.

Pennsylvania Greenback.

[Adopted May 18, 1882.]

First—That we are against the monopoly of money by the National banking system, and are in favor of the Government issuing all currency and making it full legal-tender.

2. We are against the monopoly of transportation and telegraphy, and declare that corporations, the creation of the State, shall be governed by the State in the interests of the people.

3. We are against the monopoly of land, and demand the reservation of all public lands, including the vast amount now forfeited by the great corporations, for actual settlers.

4. We are opposed to all monopolies and in favor of equal rights, equal burdens, equal benefits, and special privileges to none.

5. We demand such a revision of the tariff as shall fully protect American labor and invested capital against the pauperized labor of foreign countries.

6. We demand that the Government shall immediately do justice to the soldiers of the late war, by equitably adjusting and paying the pensions and other claims due them; and,

Whereas, The right of labor to organize

for the discussion and enforcement of its rights in this State has been assailed by combined monopolies; therefore,

Resolved 7. That this legal and constitutional right shall be maintained, and that associated labor shall have all the rights and privileges permitted to associated capital.

A resolution was added, that all pay should be on the basis of eight hours as constituting a day's labor.

CONSTITUTIONAL AMENDMENTS

The following proposed amendments were passed by the Legislature of 1881, and if passed by the Legislature of 1883 will be submitted to popular vote:

Add Article XVII:

Sec. 1. The manufacture, sale, or keeping for sale, in said State, spirituous, vinous, malt liquors, or any other intoxicating liquors, except for medical, scientific, mechanical, and wines for sacramental purposes, shall be, and is hereby, forever prohibited in the State of Indiana.

Sec. 2. The General Assembly of the State of Indiana shall provide by law in what manner, by whom, and at what places, such liquors shall be manufactured or sold for medical, scientific, mechanical, and sacramental purposes.

Iowa.

This proposed amendment:

"Add as Section 26 to Article I the following: No person shall manufacture for sale, or sell, or keep for sale, as a beverage, any intoxicating liquors whatever, including ale, wine and beer.

"The General Assembly shall by law prescribe regulations for the enforcement of the prohibition herein contained, and shall thereby provide suitable penalties for the violation of the provisions hereof."

Was adopted at a special election, June 27, 1882. Yeas, 155,436; nays, 125,677.

Propositions to change the general election from October to November; relative to a reorganization of the judicial districts; to permit the Assembly to fix the number of the Grand Jury at not less than five nor more than fifteen, and to provide for holding persons for any criminal offense without the intervention of a Grand Jury; to authorize the election of a County Attorney for each county; and to strike the word "male" from Section 1 of Article II of the Constitution, are referred to the next Legislature.

New-York.

The following proposed amendments were submitted to popular vote November 7, 1882:

That the sixth article of the Constitution be amended by adding thereto the following section:

Sec. 28. The Legislature at the first session thereof after the adoption of this amendment, shall provide for organizing the Supreme Court, not more than five general terms thereof; and for the election at the general election next after the adoption of this amendment by the electors of the judicial districts mentioned in this section, respectively, of not more than two Justices of the Supreme Court in addition to the justices of that Court now in office in the First, Fifth, Seventh and Eighth, and not more than one justice of that court in the Second, Third, Fourth and Sixth Judicial Districts. The justices so elected shall be invested with their offices on the first Monday of June next after their election.

That section 3d of article seven of the Constitution be amended so as to read as follows:

Sec. 3. The first and second sections of this article having been fully complied with, no tolls shall hereafter be imposed on persons or property transported on the canals, but all boats navigating the canals, and the owners and masters thereof, shall be subject to such laws and regulations as have been or may hereafter be enacted concerning the navigation of the canals. The Legislature shall annually, by equitable taxes, make provision for the expenses of the superintendence and repairs of the canals. The canal debt contracted under the section hereby amended, which on the 1st day of October, 1880, amounted to $3,982,200, shall continue to be known as the "canal debt," under article seven, section 3, of the Constitution; and the sinking fund applicable to the payment thereof, together with the contributions to be made thereto, shall continue to be known as the "canal debt sinking fund," and the principal and interest of said debt shall be met as provided in the fifth section of this article. All contracts for work or materials on any canals shall be made with the person who shall offer to do or provide the same at the lowest price, with adequate security for their performance. No extra compensation shall be made to any contractor; but if, from any unforeseen cause, the terms of any contract shall prove to be unjust and oppressive, the Canal Board may, upon the application of the contractor, cancel such contract.

That section 5 of article seven of the Constitution be amended so as to read as follows:

Sec. 5. There shall annually be imposed and levied a tax which shall be sufficient to pay the interest and extinguish the principal of the canal debt mentioned in the 3d section of this article, as the same shall become due and payable, and the proceeds of such tax shall, in each fiscal year, be appropriated and set apart for the sinking fund constituted for the payment of the principal and interest of the aforesaid debt. islature may, in its discretion, impose for the fiscal year beginning on the 1st day of October, 1883, a State tax on each dollar of the valuation of the property in this State which may by law then be subject to taxation, sufficient, with the accumulations of the sinking fund applicable thereto, to pay in full both the principal and interest of the canal debt before mentioned, and the proceeds of such tax shall be appropriated and set apart for the sinking fund constituted for the payment of the principal and the interest of said debt. In the event of such action by the Legislature, then the Legislature shall, under the law directing the assessment and levy of such tax, make such provision for the retirement of the canal debt as it shall deem equitable and just to the creditors of the State.

That section 6 of article seven of the Constitution be amended so as to read as follows:

Sec. 6. The Legislature shall not sell, lease, or otherwise dispose of the Erie Canal, the Oswego Canal, the Champlain Canal, the Cayuga and Seneca Canal or the Black River Canal, but they shall remain the property of the State and under its management forever. All funds that may be derived from any lease, sale, or other disposition of any canal shall be applied in payment of the canal debt mentioned in the third section of this article.

Lightning Saw.

CHEAPEST & BEST SAW MADE.

BOYNTON'S

PATENT SAWS

were thoroughly tested at the Centennial Fair. An ash log, 11 inches in diameter, was sawed off with a 4½ foot lightning cross-cut, by hand, by two men, in precisely 6 seconds. Beats all machines. The speed is unprecedented, and would cut a cord of wood in 4 minutes. $1,000 challenge was prominently displayed for six months, and no saw manufacturer dare accept it. Not one in a hundred thousand of my new 1880 saws has failed to give satisfaction. The new patents render the tooth everlasting by being constructed slightly pyramidal.

N. B. I make every variety of common and patent teeth saws, such as circular saws, mill saws, hand saws, ice saws, butcher saws, metal saws, concave saws. Best hand-cut files manufactured in every variety at my own mill, of highest quality and durability, at lowest prices.

A six foot cross-cut saw, with combined file and set and two patent handles, will be sent to any address on receipt of $4. The universal patent sheathed Pruning and Hand Saw, enclosed in brass-edged sheath, mailed on receipt of $1, A Buck-saw Blade will be enclosed with the Cross-Cut for 50 cents additional. Agents wanted where the trade neglects to supply them. Send for illustrated prices.

The Emperor Dom Pedro, accompanied by Director General Goshorn, Superintendent Albert, and others, visited Machinery Hall, at the Centennial, on the 30th of June 28th. Among other things inspected, at the invitation of E. M. Boynton of New York, they witnessed a trial of the *New Lightning Saw*, Patented May 25th, 1875. Two men, with one of these saws, cut off a sound log of gum-wood, 36 inches in diameter, in seven seconds, or at the rate of a cord of wood in four minutes. Messrs. Corliss, Morell, Lynch, and other members of the committee timed the trial and timed the cutting. The Emperor remarked that he had never seen such rapid cutting. Last evening the Emperor made another examination of the saw.—*Philadelphia Press, June 30.*

The great success and unexampled prosperity of THE NEW-YORK WEEKLY is due to the excellence of its stories, its numerous entertaining features, and its fresh and varied attractions; but not the least among its recommendations is the fact that unusual care is exercised in revising the contents, that all objectionable words and phrases may be avoided. Heads of families are aware that we never permit in our columns any word or expression likely to offend even the most fastidious guardian of youth.

THE NEW-YORK WEEKLY contains the BEST STORIES, the finest Poems, the most entertaining Sketches, as well as a choice variety of extremely interesting matter, and is therefore popularly conceded to be THE BEST STORY AND SKETCH PAPER.

THE NEW-YORK WEEKLY regularly presents, in the "Ladies' Work-Box," plain and sensible suggestions regarding the making of garments and choice of materials. MRS. McDOUGALL ON HER WAY SOUTH.

The readers of the NEW-YORK WITNESS during the last spring and summer will not soon forget the letters which appeared in it from Mrs. McDougall, who travelled through the disturbed and distressed regions of Ireland, in order to describe the actual condition of the people, which then attracted much attention. This task she was eminently fitted to perform, on account of her deep sympathy with the suffering tenants, mingled with a conscientious desire to state the case of the landlords fairly. We doubt not, therefore, that our readers will be pleased to learn that an arrangement has been made with this singularly careful observer and conscientious reporter, to visit the Southern States, and more especially those in which the colored population is largest, for the purpose of examining into the condition and prospects in those States of both races, and giving to the public, through THE WITNESS, a plain, unvarnished account of her observations and impressions. We can be sure that she will "nothing extenuate nor aught set down in malice," and that so far as her opportunities of obtaining knowledge go, her reports will be reliable. She may also visit some of the "health resorts," and report upon them, and examine into the condition of soil, climate and markets of various parts of the South, for the information of intending emigrants from the North or from Europe. Having herself been acquainted all her life with farming, her reports in this respect will be very valuable. Mrs. McDougall, on account of her unassuming appearance and plain, kindly manners, will readily gain the confidence of the colored people and also of the "poor whites," and from her good sense and extensive knowledge, will, we trust, procure a good reception from the upper classes. As her letters in THE WITNESS will reach a greater number of readers all over the continent than they could do through any other newspaper, it is expected that all of the people of the South will give her the best information in their power, in order that all the world may know what has been accomplished by eighteen years of freedom.

The Christmas Number of the New-York WEEKLY WITNESS reached a circulation of 280,000, and the regular issue for some time past has been from 115,000 to 120,000.

New-York Weekly Witness, now in its eleventh year. Circulation, 120,000. ONE DOLLAR a year. Gratis copy for club of ten with $10. One trial three months, 25 cts.

Sabbath Reading.—Contains in each number an excellent sermon and a choice selection of interesting matter for reading on the Lord's Day. FIFTY CTS. a year; club of ten, $4. On trial three months, 15 cts. For distribution, 75 cts. per 100 copies postpaid.
The object of publishing Sabbath reading is to furnish interesting and instructive reading matter for the Lord's Day, in the hope of diminishing the tendency to read secular books and papers on that day. It contains no advertisements.
All who approve of this paper and the object for which it is published are respectfully asked to subscribe. There is nothing a business man needs so much as REST on the Sabbath. Send for a copy of this paper and take time to read it.

Gems of Poetry for 1883.—This beautiful sixteen-page monthly, printed on fine paper, with handsome cover. Each number contains portrait and biography of a celebrated poet. The serial poem will be the Odyssey of Homer, and considerable space will be devoted to selected and original poetry. FIFTY CENTS a year or five for $2.
Specimens of the above publications sent free on application.

Witness, Sabbath Reading and Gems of Poetry three mo's on trial for 50 cts.

The New York Witness for 1883

FRESH, FAITHFUL AND FEARLESS.

Every sensible man is invited to subscribe for the NEW-YORK WITNESS, now the most widely-circulated weekly newspaper in America. While it is in every sense of the word a NEWSPAPER, and not merely a Religious and Temperance publication, the WITNESS gives full and frequent reports of what is being done in the way of CARRYING ON THE GOOD WORK. In everything connected with its specialty, the WITNESS is always ahead, and will be found a valuable source of information to all those interested in any good cause.

The WITNESS is emphatically THE PEOPLE'S PAPER. It has now a larger circulation than any weekly NEWSPAPER in America—120,000 regular circulation—Christmas number, 280,000.

We send Circulars and Specimen Papers free if you want them. You can easily get up a club, for everybody likes the WITNESS, and must have it. Why? You can see by reading a copy of it.

INDEPENDENT, POLITICALLY and FINANCIALLY, accepting no favors from any railroad or bank, monopoly or corporation of any kind, the WITNESS cannot be bribed or blinded or dictated to on any question. It has the latest news of the day, reliable Reports of the Markets, Daily Report of Fulton Street Prayer Meeting (alone worth the subscription price), Sunday-School Lesson (by REV. GEORGE F. PENTECOST), Home Department (a great favorite with the ladies), Children's Department, Temperance Department, and Editorials on all the questions of the day.

IT IS SAFE to say that nothing can take the place of the NEW-YORK WEEKLY WITNESS in the family.

JOHN DOUGALL & CO., 17 to 21 Vandewater-st., New-York.

In the year 1884, which is a leap year, there will be five eclipses, three of the Sun and two of the Moon.

I. A partial eclipse of the Sun, March 27th, invisible in America. The eclipse, which will be a small one, will be almost exclusively confined to Northern Europe.

II. A total eclipse of the Moon, April 10th, partly visible in various parts of the United States before the Moon sets in the morning. The eclipse will be total on the Pacific Coast, in the Pacific Ocean and in Asia. The times of the various phases are as follows:

III. A partial eclipse of the Sun, April 25th, invisible in America. The eclipse will be visible at the extreme points of South Africa and South America, and in the Southern Atlantic Ocean.

IV. A total eclipse of the Moon, October 4th, partly visible in the Atlantic States when the Moon rises. The total phase of the eclipse ends at 5h. 49m. p. m., and the Moon leaves the shadow at 6h. 49m. p. m., standard Eastern time. In the above table the time of the Moon's crossing the 75th meridian is given to the nearest minute for every day of the year in Standard Eastern time. To find the time when the Moon will cross each of the other Standard time meridians, add two minutes for each meridian west of the 75th. Thus, on January 1, the Moon crosses the 75th meridian at 2:39 p. m. It will, therefore, cross the 90th at 2:41 p. m., the 105th at 2:43 p. m., and the 120th at 2:45 p. m.

The time of the Moon's southing is particularly useful on the coast, in enabling sailors and others to foretell approximately the time of high water. Knowing the "establishment of the port," as it is called—that is, the average interval elapsing between the Moon's southing and the next high water, for any given locality—the time of high water is found by adding this establishment to the time of the Moon's southing. Thus, the establishment of the port of New-York being 8h. 00m., add to this the Moon's southing on January 1, 2:39 p. m., and the result, 10h. 39m. p. m., will be the time of high water on the evening of that day. This, it must be remembered, is only a rough approximation to the true time, but it will usually be found near enough for all practical purposes. Where the "establishment of the port" is not known it may be found by noting the time of high water after full Moon and deducting from it the time of the Moon's southing that day. And this establishment may be further corrected by ascertaining the differences in time between the Moon's southing and high water for a month, and taking the mean or average.

The Calendar.

The following calendar having been computed and stereotyped before the recent adoption of Standard time, the hours of the daily and other phenomena are given throughout in the local mean time of the places named. Due allowance must the efore be made for the difference between the Standard time and the local mean time of the locality. This difference must be added to the calendar time for all places west of the Standard time meridian, and subtracted from it for all places east, in order to give the correct time of the phenomena in Standard time. Thus New-York and Washington are on different sides of the 75th meridian, the former being 4 min. East and the latter 8 min. West. On January 1 the sun rises at New-York at 7:24 a. m. local or calendar time. Subtracting the difference, 4 min. and we have 7 h. 20 min. as the hour of sunrise at New-York, Standard Eastern time. At Washington on the same morning the sun rises at 7 h. 19 min. Adding 8 min. gives, 7 h. 27 min. as the hour of sunrise at Washington in Standard Eastern time. Similar corrections can readily be made for each locality.

It shall be the duty of the Secretary of the Navy to cause to be appraised, in such manner as may seem best, all vessels of the Navy which have been stricken from the Navy Register under the provisions of the act making appropriations for the naval service for the fiscal year ending June 30, 1883. And if the said Secretary shall deem it for the best interest of the United States to sell any such vessel or vessels, he shall, after such appraisal, advertise for sealed proposals for the purchase of the same, etc. —[Approved March 3, 1883.

CIVIL SERVICE ACT.

Chap. XXVII.—The President is author- ized to appoint, by and with the advice and consent of the Senate, three persons, not more than two of whom shall be adherents of the same party, as Civil Service Commis- sioners, who shall hold no other official place under the United States. The Presi- dent may remove any commissioner; and any vacancy in the position of commis- sioner shall be so filled by the President, by and with the advice and consent of the Senate, as to conform to said conditions for the first selection of commissioners. It shall be the duty of said commissioners to aid the President, as he may request, in preparing suitable rules for carrying this act into effect, and when said rules shall have been promulgated it shall be the duty of all officers of the United States in the departments and offices to which any such rules may relate to aid, in all proper ways, in carrying said rules, and any modifica- tions thereof, into effect. And, among other things, said rules shall provide and declare, as nearly as the conditions of good administration will warrant, as follows:

public service now classified or to be classified hereunder. Such examinations shall be practical in their character, and so far as may be shall relate to those matters which will fairly test the relative capacity and fitness of the persons examined to discharge the duties of the service into which they seek to be appointed.

Second, That all the offices, places, and employments so arranged or to be arranged in classes shall be filled by selections according to grade from among those graded highest as the results of such competitive examinations.

Third, Appointments to the public service aforesaid in the departments at Washington shall be apportioned among the several States and Territories and the District of Columbia upon the basis of population as ascertained at the last preceding census. Every application for an examination shall contain, among other things, a statement, under oath, setting forth his or her actual bona fide residence at the time of making the application, as well as how long he or she has been a resident of such place.

Fourth, That there shall be a period of probation before any absolute appointment or employment aforesaid.

Fifth, That no person in the public service is for that reason under any obligations to contribute to any political fund, or to render any political service, and that he will not be removed or otherwise prejudiced for refusing to do so.

Sixth, That no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

Seventh, There shall be non-competitive examination in all proper cases before the commission, when competent persons do not compete, after notice has been given of the existence of the vacancy, under such rules as may be prescribed by the commissioners as to the manner of giving notice.

Eighth, That notice shall be given in writing by the appointing power to said commission of the persons selected for appointment or employment from among those who have been examined, of the place of residence of such persons, of the rejection of any such persons after probation, of transfers, resignations and removals, and of the date thereof, and a record of the same shall be kept by said commission. And any necessary exceptions from said eight fundamental provisions of the rules shall be set forth in connection with such rules, and the reasons therefor shall be stated in the annual reports of the commission. Said commission shall, subject to the rules that may be made by the President, make regulations for, and have control of, such examinations, and, through its members or the examiners, it shall supervise and preserve the records of the same; and said commission shall keep minutes of its own proceedings. Said commission may make investigations concerning the facts, and may report upon all matters touching the enforcement and effects of said rules and regulations, and concerning the action of any examiner or board of examiners hereinafter provided for, and its own subordinates, and those in the public service, in respect to the execution of this act.

But nothing herein contained shall be construed to take from those honorably discharged from the military or naval service any preference conferred by the 1,754th section of the Revised Statutes, nor to take from the President any authority not inconsistent with this act conferred by the 1,753d section of said statutes; nor shall any officer not in the executive branch of the government, or any person merely employed as a laborer or workman, be required to be classified hereunder; nor, unless by direction of the Senate, shall any person who has been nominated for confirmation by the Senate be required to be classified or to pass an examination.

SEC. 11. That no Senator, or Representative, or Territorial Delegate of the Congress, or Senator, Representative, or Delegate elect, or any officer or employee of either of said houses, and no executive, judicial, military, or naval officer of the United States, and no clerk or employee of any department, branch or bureau of the executive, judicial, or military, or naval service of the United States, shall, directly or indirectly, solicit or receive, or be in any manner concerned in soliciting or receiving, any assessment, subscription, or contribution for any political purpose whatever, from any officer, clerk, or employee of the United States, or any department, branch, or bureau thereof, or from any person receiving any salary or compensation from moneys derived from the Treasury of the United States.

in any manner whatever, or receive any contribution of money or any other thing of value for any political purpose whatever.

SEC. 13. No officer or employee of the United States mentioned in this act shall discharge, or promote, or degrade, or in any manner change the official rank or compensation of any other officer or employee, or promise or threaten so to do, for giving or withholding or neglecting to make any contribution of money or other valuable thing for any political purpose.

SEC. 14. That no officer, clerk, or other person in the service of the United States shall, directly or indirectly, give or hand over to any other officer, clerk, or person in the service of the United States, or to any Senator or member of the House of Representatives, or Territorial Delegate, any money or other valuable thing on account of or to be applied to the promotion of any political object whatever.

SEC. 15. That any person who shall be guilty of violating any provision of the four foregoing sections shall be deemed guilty of a misdemeanor, and shall, on conviction thereof, be punished by a fine not exceeding $5,000, or by imprisonment for a term not exceeding three years, or by such fine and imprisonment both, in the discretion of the court.—[Approved January 16, 1883.

When the facts shall have been found, the court shall not enter judgment thereon, but shall report the same to the committee or to the house by which the case was transmitted for its consideration. That when a claim or matter is pending in any of the executive departments which may involve controverted questions of fact or law, the head of such department may transmit the same to said court, and the same shall be there proceeded in under such rules as the court may adopt. When the facts and conclusions of law shall have been found, the court shall not enter judgment thereon, but shall report its findings and opinions to the department by which it was transmitted for its guidance and action. In any case of a claim for supplies or stores taken by or furnished to any part of military or naval forces of the United States for their use during the late war for the suppression of the rebellion, the petition shall aver that the person who furnished such supplies or stores, or from whom such supplies or stores were taken, did not give any aid or comfort to said rebellion, but was throughout that war loyal to the government of the United States, and the fact of such loyalty shall be a jurisdictional fact; and unless the said court shall, on a preliminary inquiry, find that the person who furnished such supplies or stores, or from whom the same were taken as aforesaid, was loyal to the Government of the United States throughout said war, the court shall not have jurisdiction of such cause, and the same shall, without further proceedings, be dismissed. That in the trial of such cases no person shall be excluded as a witness because he or she is a party to or interested in the same.—[Approved March 3, 1883.

PARTY PLATFORMS, 1883.

Iowa Republican, June 27.

6. That stability is desirable in such public policies as relate to and affect all productive industries; and we condemn the threat of the Iowa Democracy to disturb and keep at unrest said industries and the capital and labor employed therein by "gradual and persistent efforts" to so change the customs laws as to establish free trade; and we insist upon such revenue laws as will encourage American industries and protect American labor in order that the American working men shall have a fair day's wages for a fair day's work, and tend to assure permanent employment.

7. That the inability of the Democratic party during the six years that it held undisputed control of the House of Representatives of Congress to agree on legislation for the revision of the tariff and the reform of the civil service, notwithstanding both subjects were constantly and prominently present in its platform promises and campaign activities, and the passage of laws affecting both of said objects by the Republican Congress at its late session demonstrates anew the incapacity of the former to deal with questions of great public concern, and that the country must rely on the latter for practical legislation.

Iowa Democratic, June 6.

2. That we denounce the abuse of the civil service of the Government, State or National, inaugurated and perpetuated by the Republican party, and we favor the extension of civil service reform in every department of the Government.

4. That we favor a tariff for revenue only by a gradual but persistent reduction of protective duties; and we denounce the tariff legislation of the last Congress as the result of corrupt and disgraceful intrigues and shameless attempts to perpetuate existing evils under the pretence of tariff reform.

Kentucky Republican.

3. That we favor the adjustment of a tariff that will not only provide a revenue sufficient to defray the expenses of the Government, but afford a just and reasonable protection to the industrial classes of our country without being oppressive to the agricultural and other interests of our people.

Kentucky Democratic, May 17.

3. That our laws in relation to revenue and taxation should be so framed as to secure equality in rate of assessments as nearly as possible, and to insure the collection of revenue in the most convenient and inexpensive manner.

Massachusetts Republican, Sept. 19.

We believe in equal rights and a fairly counted vote, a thoroughly pure and reformed Civil Service beyond the reach of party conflicts, a sound currency based on an honest specie dollar, a liberal, but in no wise extravagant or wasteful, expenditure, a largely reduced taxation, and wise and well-matured laws to protect and develop American industry and enterprise, both at home and on the ocean.

Massachusetts Democratic, Sept. 26.

We believe in a thorough reform in the Civil Service, in which fitness, not favor, shall regulate appointments, and in a tariff limited in amount to the sum necessary and adequate for revenue.

Minnesota Republican, June 28.

We believe in maintaining a system of internal revenue levied upon articles of luxury, such as whiskey and tobacco, together with a system of duties on imports, so applied as to provide revenue for the necessary expenses of the Government, and so adjusted as to encourage the development of the manufacturing and labor interests of the whole country.

Minnesota Democratic, August 3.

We favor such a thorough revision of the present tariff laws as will remedy existing evils and result in the establishment of a tariff for revenue only as the permanent commercial policy of this country.

New-Jersey Republican, Sept. 18.

3. We congratulate the country upon the successful application of the principles of genuine Civil Service Reform in the National Administration, and favor the adoption of the system in all branches of our State government.

4. We believe that the prosperity and happiness of our own people are of paramount importance, and therefore we insist upon a tariff so adjusted as to give full protection to home labor and industry, and sufficient to develop all the resources of the country, and favor such wise and proper State legislation as will protect honest labor from unfair competition.

New-Jersey Democratic, Sept. 13.

They believe in that genuine and deep-reaching Civil Service Reform which consists in the election to office of honest, intelligent, capable and courageous public servants, who will faithfully administer their trust, and who will be held to strict accountability for such discharge of it. They denounce the sham methods of the Civil Service Commission in its pretended examination of candidates for place, together with the disgraceful system of bargain and sale of office, which is now practised by the Federal Government, as shown by the abuse of patronage in Virginia and other States.

2. We favor a tariff for revenue, limited to the necessary expenditures of the Government, and so adjusted as to give protec

tion and encouragement to home productive industry and labor, without producing or fostering monopolies.

New-York Republican, Sept. 19.

The Republicans of New-York in State Convention hold that the record of the republican party in the past affords the best guaranty of the party's purposes and acts in the future. The preservation of the Nation's life, the extension of freedom and equal rights to embrace all, the keeping of the National faith, the promotion of the National credit, the payment of the public debt, the reduction of taxation, the protection of home industries, the elevation of labor, the purification of the Civil Service, and in fine, the administrative policy based upon wise legislation that has given unexampled prosperity to the country and promoted the happiness and progress of the people, are achievements that commend the Republican party to continued popular favor.

We rejoice in the wisdom and success of President Arthur's administration of the affairs of Government, which commands universal respect throughout the country, and has the confidence and support of the Republicans of the State of New-York. Our Senators and Representatives in Congress have our thanks for their part in the reduction of internal taxation to the extent of $40,000,000, while the National credit is kept unsullied, the public debt is being steadily reduced, and the defenders of the National life are justly the recipients of a grateful republic's bounty. We approve honesty and fidelity in Governmental expenditures, the reduction of interest on the public debt, and the payment of the debt as rapidly as may be without unduly burdening the people; the bringing of taxation within the lowest practicable limits; the reduction of the force of public officials to the lowest number consistent with the requirements of the service, and the adoption of every practical means that will diminish the burdens of taxation.

We rejoice in the successful inauguration of Civil Service Reform, a result of Republican agitation and National progress, and insist that the work thus auspiciously begun shall be prosecuted to complete success.

We favor a system of tariff laws under which, while revenue for the Government is provided, American producers are justly protected, American labor elevated, and home markets are secured to home products for the advantage alike of the producer and laborer.

We favor the removal of all unjust burdens upon American shipping and the awarding of ocean mail contracts to the lowest bidders among owners of American vessels after open competition.

We favor the establishment by Congress of a national bureau of labor statistics with the object of promoting the industrial, social and sanitary conditions of the people.

We favor the surrounding of the primary meetings as well as the popular election with the security of honesty and purity, as indispensable requisites to correct political action.

The tendency to create monopolies requires checking by adequate legislation. Unjust discrimination in transportation should be prohibited, and violation of chartered privileges justifies the interference of the State to correct the evils thus engendered.

Taxation should be equalized, and its burdens be borne proportionately by real and personal property; and the policy of the taxation of corporations is approved on the test of its practical operation.

The free canal policy of this State has in practice justified its adoption, by restoring the canals to their usefulness, by bringing to the State increased commerce, by assuring to it the continuance of commercial supremacy.

We approve the plan of party reorganization in the city of New-York, and recommend that it be persisted in to the end that it shall embrace all Republicans in the city on equal terms and footing.

We believe in the wisdom of the people in deciding all questions pertaining to the public welfare, and would accede to the desire of a large body of our citizens to submit to the voters of the State a constitutional amendment in regard to the manufacture and sale of intoxicating liquors.

Democratic incapacity and inability to administer government are demonstrated in the conduct of the late Legislature, where a two-thirds Democratic majority was false to its pledges and to public interests. The reckless partisanship and insatiate greed for office of the Democratic party brought it into public contempt. Its special legislation to make places for partisans and its increase of the salary list to reward favorites brought upon it public execration. Its utter disregard of important public interests and its increase of State taxation are offences not to be condoned. The course pursued in its cowardly attempt to evade the responsibility of affirmative action on the convict labor question, and to shirk the issue directly presented in the platform of the last Democratic State Convention, has earned the distrust of the taxpayer and the contempt of the workingman.

It is the duty of the people to rescue the Legislature from the control of an incompetent and faithless party and from being the sport of place-hunters and spoilsmen, and to secure a continuance of economical, efficient and satisfactory administration of State departments by the election of the ticket or State officers this day placed in nomination.

New-York Democratic, Sept. 27.

The Democracy of New-York reaffirms the platform adopted at its last State Convention, which has received the approval of the people, as shown by a majority of nearly 200,000 at the last election, and they especially denounce the proposition that the people should be taxed to raise a surplus fund for the Federal Government to distribute among the States. We claim with pride and satisfaction that every pledge therein made has been in good faith redeemed; valuable reforms have been wrought; useless offices have been abolished; the Civil Service has been freed from the debasing and injurious influences of partisan manipulation; the freedom and purity of primaries have been secured; political assessments have been abolished; receivership abuses have been corrected; the principle of local self-government has been adhered to; the efficiency of the National Guard has been

increased; taxation for the support of Government has been reduced; a State Bureau of Labor Statistics has been established; the rights of the workingman have been further protected, and the injurious competition of convict labor has been curtailed; business methods have been the rule in the management of State affairs.

On the record thus made, and to which it will steadfastly adhere, the Democratic party asks a renewed award of the confidence of the people. We invite with reason all friends of improved State administration, irrespective of party, to join with the Democracy in preserving and perfecting the reforms in progress and in extending them to all branches of the State service.

We heartily indorse Governor Cleveland's administration. It justifies the great vote which elected him. He has deservedly won the affection of the people by his industry, firmness, intelligence and aggressive honesty. The results make his administration one of the best the State ever had.

Ohio Republican, June 6.

2. That the Republican party believe now, as in the past, in the maintenance of a tariff system which will provide a revenue for the Government, and at the same time will protect American producers and American labor; that it is opposed to the Democratic doctrine of a tariff for revenue only," because such a doctrine, if indorsed, would of necessity compel American workmen to accept the unremunerative wages which are paid their foreign rivals. It looks with alarm upon the purpose already avowed by the Democratic leaders that the next Congress will revise the tariff by further reducing the duties on imports.

3. That the wool tariff of 1876 should be restored at the first possible opportunity.

10. That we reiterate the declarations of previous Republican conventions in favor of Civil Service Reform, and welcome every intelligent effort to make that measure practical; and we especially approve the provisions made by a Republican Congress for giving the patriotic soldiers of the late war, with the proper qualifications, the preference for all places under the Government.

Ohio Democratic, June 21.

2. We favor a tariff for revenue, limited to the necessities of the Government, economically administered, and so adjusted in its application as to prevent unequal burdens, encourage productive industries at home, and afford just compensation to labor, but not to create or foster monopolies.

3. The act of the Republican Congress, reducing the tariff on wool, while at the same time increasing it on woolen goods, already highly protected, was iniquitous legislation, discriminating in favor of monopoly and against the agricultural interests of the country, and ought to be corrected, and we heartily approve the action of the Democratic members of the Ohio delegation in Congress in voting against that measure.

7. We reaffirm the resolutions of the State Conventions of Ohio in 1880, 1881, and 1882, and of the Democratic National Conventions of 1872, 1876, and 1880, demanding a thorough reform and purification of the Civil Service, and charge that the Republican party has violated every pledge it has heretofore given for the reform thereof, and has failed during its long administration of the Government to correct even the most crying abuses; and we demand, therefore, a change in the executive administration of the Government itself, as the reform first of all necessary (as made still more manifest by the recent Star-Route trials), thereby ousting corrupt rings, confederated to protect crime and prevent the punishment of criminals, and by so doing to make it possible again to punish fraud and theft in the public service.

Pennsylvania Republican, July 11.

1. We unqualifiedly approve and demand the continuance of that system of protection to home industry which has proved itself to be the basis of National independence, the incentive to industrial skill and development, and the guaranty of a just and adequate scale of wages for labor; and we denounce all attempts to reduce the rates of the tariff below the level which will accomplish these objects.

2. That any surplus in the public Treasury arising from a redundant revenue should, after paying the National debt as fast as its conditions permit, be distributed from time to time to the several States upon the basis of population, to relieve them from the burdens of local taxation and provide means for the education of their people.

7. We commend every effort to inaugurate thorough and correct Civil Service reform in all the departments of the National and State administrations.

Pennsylvania Democratic, August 11.

They believe in that genuine and deep-reaching civil service reform which consists in the election to office of honest, intelligent, capable and courageous public servants, who will faithfully administer their trust and who will be held to strict accountability for such a discharge of it, and who will redeem and purge the departments of the General Government from that corruption and fraud with which they have been permeated under Republican rule and which that party has shown itself unable and unwilling to eradicate. They believe in such taxation of the people as is requisite for the necessities of the Government, economically administered, and that import duties should be so adjusted in their application as to prevent unequal burdens, encourage productive industries at home and afford just compensation to labor, but not to create or foster monopolies.

2. They denounce the proposition of the Republican Party that the people should be taxed to raise a surplus fund for the Federal Government to distribute among States. The people should only be taxed so much as is absolutely indispensable for the frugal conduct of their affairs, not one cent for surplus and no unnecessary taxation. The existing surplus in the Treasury should be faithfully applied to the payment of the public debt. The money not needed for the expenses of the Government should remain in the pockets of the people.

3. To this end we favor the entire abolition of the present system of the internal taxation as a measure of relief demanded by the people from an unnecessary and unequal burden.

* 11.65 per cent. † 88.35 per cent. Of total stock over 80 per cent earned a profit and nearly 20 per cent earned none.

The actual assets for the whole system amount to $5,536,419,787 74, and the actual liabilities to $5,425,722,559 54; which leaves $110,697,228 20 as actual profit and loss to credit for the combined roads.

The permanent investments amount to nearly 94 per cent of the total actual assets, against which the actual liabilities show about 92 per cent of capital stock paid in and funded debt, the first being 48 per cent, and the latter near 44 per cent of such liabilities.

The unfunded debt is near 8 per cent of total liabilities, and is offset by nearly 7 per cent of cash assets and the excess of permanent investments over amount of stock and funded debt, which is over 3 per cent of total.

* 11.65 per cent. † 88.35 per cent. Of total stock over 80 per cent earned a profit and nearly 20 per cent earned none.

The actual assets for the whole system amount to $5,536,419,787 74, and the actual liabilities to $5,425,722,559 54; which leaves $110,697,228 20 as actual profit and loss to credit for the combined roads.

The permanent investments amount to nearly 94 per cent of the total actual assets, against which the actual liabilities show about 92 per cent of capital stock paid in and funded debt, the first being 48 per cent, and the latter near 44 per cent of such liabilities.

The unfunded debt is near 8 per cent of total liabilities, and is offset by nearly 7 per cent of cash assets and the excess of permanent investments over amount of stock and funded debt, which is over 3 per cent of total.

latter created deficits, or had their income balanced by expenditures, and 180 companies had not yet commenced operations, their roads being under construction, etc.

The net income or profit available for dividends upon the stock of these 623 companies ($2,103,068,246, or 80 per cent of the aggregate for the United States), amounting to $132,989,336, is an average profit of 6 32 per cent upon the dollar.

The balance of stock is that which bears no profit, and amounts to $510,538,018, or near 20 per cent of the aggregate. Of this amount $449,905,903 are stock of companies having deficits, or having their income balanced by expenses, and $60,632,115 are stock of companies whose roads were under construction.

FIRST-CLASS—Letters and all other written matter, *whether sealed or unsealed*, and all other matter, *sealed, nailed, sewed, tied, or fastened in any manner* so that it cannot be easily examined, 2 cents per half ounce or fraction thereof. Postal cards, 1 cent each. *Postal cards are unmailable* with any writing or printing on the address side, except the direction, or with anything pasted upon or attached to them. Exception: A printed label may be used in lieu of manuscript address.

SECOND-CLASS—Only for publishers and news agents.

THIRD-CLASS—Printed matter, in *unsealed wrappers only*, (all matter inclosed in notched envelopes must pay letter rates), 1 cent for each two ounces or fraction thereof, *which must be fully prepaid.* This includes books, circulars, chromos, engravings, hand-bills, lithographs, magazines, music, newspapers, pamphlets, proof-sheets and manuscript accompanying the same, reproductions by the electric pen, hektograph, metallograph, papyrograph, and, in short, any reproduction upon paper. Limit of weight four pounds, except for a single book, which may weigh more.

NOTE—Productions by *copying press or the type-writer* are first-class.

FOURTH CLASS—All mailable matter not included in the three preceding classes which is so prepared for mailing as to be *easily withdrawn from the wrapper* and examined. Rate, 1 cent per ounce or fraction thereof. Limit of weight, four pounds. Full prepayment compulsory. Labels, patterns, photographs, playing cards, visiting cards, address tags, paper sacks, wrapping paper with advertisements printed thereon, bill heads, letter heads, envelopes and other matter of the same general character, the printing upon which is not designed to instruct, amuse, cultivate the mind or taste or impart general information, are articles of merchandise, and rate as fourth-class matter.

UNMAILABLE.

PERMISSIBLE WRITING.

No writing is permitted on third or fourth class matter except as follows: The name and address of sender on the outside or inside of package, preceded by the word "from." On the wrapper may also be written the names and number of articles inclosed. The sender is further allowed to mark a word or passage in a book or paper to which he desires to call special attention. He may also write a simple inscription or dedication upon the cover or blank leaves of a book or pamphlet. There may be attached to articles of merchandise, by tag or label, a mark, number, name, or letter for purpose of identification. Printed circulars may contain the written names of the sender and addressee, with the date. *Any other writing* on third or fourth class matter *will subject the package to letter rates of postage*, and render the sender liable to a *fine* of $10 for each offence.

POLITICAL MISCELLANY.

ALABAMA—July 3, 1883, Hon. *James T. Jonas* was elected to succeed, in XLVIIIth Congress, Hon. *Thomas H. Herndon*, deceased, by a vote of 6,413 to 1,499 for Philip Joseph.

CONNECTICUT—A Constitutional Amendment to provide for biennial sessions, passed the last Legislature and if approved by two-thirds of the next, will be submitted to vote.

DAKOTA—There was a majority of 5,552 in favor of the new Constitution, proposing to erect into a new State that part of the Territory which lies south of the forty-sixth parallel of latitude.

DELAWARE—Three Constitutional Amendments passed the last Legislature, and, if approved by two-thirds of the next, will become valid. Amendment I. enlarges the powers of the Legislature to create corporations. Amendment II. gives each county four Senators, Wilmington to elect two of New-Castle County's four; and gives Kent and Sussex seven members of the House each, and New-Castle eleven, of whom Wilmington will elect four. Amendment III. modifies the judicial system.

GEORGIA—*James S. Boynton* qualified as Governor March 5, 1883, succeeding *Alexander H. Stephens*, died March 4. April 24, *Henry D. McDaniel* was elected Governor by a vote of 23,680; scattering, 834. The Legislature, at its August session, passed a general local option law.

ILLINOIS—A Constitutional Amendment to give the Governor power to veto items in a general appropriation bill without invalidating the other portions of the bill has passed the Legislature, and is to be submitted to popular vote in 1884.

John M. Hamilton became Governor February 6, 1883, succeeding Shelby M. Cullom, elected U. S. Senator.

INDIANA—January 9, 1883, Charles T. Doxey was chosen to succeed in XLVIIth Congress Godlove S. Orth, deceased, by a vote of 13,651 to 11,948 for *Thomas B. Ward*.

The Legislature of 1880 having passed a proposed Prohibitory Amendment, in the Legislature of 1882, the Senate voted—yeas 25, nays 23—January 29, 1883, that this amendment, not having been entered on the journal of the previous Senate, as required by the Constitution, was not properly before the body. February 6, the House voted—yeas 52, nays 35—that the amendment was properly before it. There having been no affirmative concurrent action of the two bodies, the amendment fell.

IOWA—November 5, 1883, Hon. *John C. Cook* was chosen to succeed, in XLVIIIth Congress, Hon. Marsena E. Cutts, deceased, by a vote of 14,894 to 14,653 for W. Stiles; scattering, 9.

The Supreme Court decided that the Prohibitory Amendment to the Constitution, approved by the people June 27, 1882, was not adopted by the Legislature in the manner required by the Constitution; and it was therefore declared null.

LOUISIANA—February 15, 1883, Hon. *Edward T. Lewis* was chosen to succeed, in XLVIIIth Congress, Hon. *Andrew S. Herron*, deceased, by a vote of 6,366 to 569 for Louis Trager; scattering 22.

MAINE—A Prohibitory amendment will be voted upon in the September election, 1884. It passed the last House—yeas 104, nays 37, and the Senate—yeas 21, nays 2. A motion in the House to strike the word "cider" from the resolution was rejected—yeas 56, nays 80.

MASSACHUSETTS—A proposed amendment to provide for biennial elections and sessions passed the House—yeas 101, nays 46—and the Senate—yeas 15, nays 12. It approved by a majority of the new Senate and two-thirds of the House, it will be submitted to the people. The Legislature of 1879 passed a like resolve but that of 1880 excised from it the biennial session provision, and that of 1881 then rejected it.

The Senate, 11 to 21, refused to memorialize Congress in favor of a Woman Suffrage Amendment.

The House, 83 to 115, defeated a proposed Prohibitory Amendment.

Hon. George D. Robinson, elected Governor, resigned as Representative in Congress, to take effect December 31, 1883.

MICHIGAN—A Prohibitory Amendment was indefinitely postponed in the House—49 to 38.

NEW-YORK—The proposed amendment relative to the organization of cities, adopted by the Legislature of 1881 was not approved by the Legislature of 1882.

NORTH CAROLINA—November 20, 1883, Hon. *Thomas G. Skinner* was chosen in the new First District to succeed Hon. Walter F. Pool, elected in the old First District, to the XLVIIIth Congress, by a majority of 777 votes over C. C. Pool. A question has been raised in the House of Representatives as to the legality of this election.

SOUTH CAROLINA—Two Constitutional Amendments were adopted in 1882. One denies the power of the General Assembly to deprive a citizen of the right of suffrage, except for treason, murder, burglary, larceny, perjury, forgery or any other infamous crime, or duelling, whereof the person shall have been duly tried and convicted. Yeas, 57,908; Nays, 3,485. Another struck out Sect. 11 of Art. 2 of the Constitution as amended, and substituted for it a provision that the general elections for Senators and Representatives shall be held in every second year in such manner, at such time, and at such places as the Legislature may provide. Yeas, 52,255; Nays, 3,698. A third proposition that no new county should be formed with a population of less than 124th part of the population of the State, and an area less than 400 square miles, nor shall an existing county be reduced to a less area than 400 square miles, was defeated. Yeas, 26,230; Nays, 32,553.

TENNESSEE—A State Debt bill was enacted which scales the principal of the debt to fifty cents on the dollar, and the interest to three per cent—par to be paid to the bonds of educational institutions within the State with the contract rate of interest.

TEXAS—Four amendments to the Constitution were adopted at a special election, August 14, 1883: 1st—Relating to the Public Free School Fund. Yeas, 29,734; Nays, 21,060. 2d—Relating to Taxes. Yeas, 29,482; Nays, 20,188. 3d—Relating to Public Free Schools. Yeas, 30,553; Nays, 20,237. 4th—Relating to County Courts. Yeas, 30,640; Nays, 17,498. No. 1 authorizes investment of funds in U. S. bonds, State bonds, County bonds of Texas, and such other securities as may be prescribed by law. No. 2 limits State tax to 35 cents on $100; City or County tax to 25 cents; road and license tax to 15 cents, and permanent improvement tax to 25 cents. The State tax authorized is additional to that required to pay public debt and maintain public free schools. No. 3 limits the free school tax to 20 cents, which with one-fourth of the State occupation tax and a poll tax of $1 on every male inhabitant may be applied to maintaining schools for not less than six months in a year. Additional tax, not to exceed 20 cents, may be voted in school districts, two-thirds of the taxpayers agreeing. No. 4 fixes the county court terms at not less than four each year, a jury to consist of fourteen men.

Judicial Decisions.

The Supreme Court of the United States has affirmed the decision of the Court of Appeals of Virginia declaring constitutional the act of January 14, 1882, commonly known as the "coupon-killer." It also sustained the refusal of the United States Circuit Judge in New-Orleans to grant a bill filed for the purpose of having the provision of the Constitution of Louisiana scaling indebtedness set aside as impairing the obligation of contracts, on the ground that the judiciary has not power to compel the executive officers of a State to perform acts which they are expressly prohibited from performing by the Constitution and laws of the State. It also held in the New-Hampshire and New-York courts that under the Eleventh Amendment to the Constitution of the United States a citizen of New-Hampshire cannot sue the State of Louisiana, nor can a State assume to act as a collecting agent for its citizens. It also held, in the Civil Rights cases, as to the first two sections of the act of March 1, 1875 (Stat. XLIIId Cong., p. 336), "that no countenance of authority for the passage of the law in question can be found in either the Thirteenth or Fourteenth Amendment of the Constitution; and no other ground of authority for its passage being suggested, it must necessarily be declared void, at least so far as its operation in the several States is concerned."

NEW-YORK TRIBUNE,

THE LEADING PAPER.

Heartily Republican in Politics.

Devoted to American Farming and Manufacturing and American Homes.

THE STANDARD AUTHORITY.

THE TRIBUNE will be sent, postage paid, to mail subscribers in all parts of the United States at following reduced rates :

	1 year.	6 months.	3 months.	1 month.
DAILY, with Sunday.....	$8 50	$4 25	$2 15	$0 75
DAILY, without Sunday.....	7 00	3 50	1 75	75
SUNDAY TRIBUNE.....	1 50	.....	.....	.....

SEMI-WEEKLY, $2 50 a year; in club of ten, $2 a year, with extra copy to man sending club.

WEEKLY, $1 25 a year; in clubs of ten, $1 a year, with extra copy to man sending club.

Counting postage, about two cents a copy on all editions. The most, in quantity and value, for the least money, of any paper in America.

THE TRIBUNE this year is cheaper than ever, and better than ever. It has not reduced character with price. A trusted, clean, wholesome family paper, it has long enjoyed the largest circulation among the best people—the industrious, frugal, and moral, whom every community recognizes as its best citizens—and it means to keep and increase this circulation by continuing to deserve it.

THE TRIBUNE is the leading New-York paper—complete in news, strong and sound in comment, pure in tone, large and legible in print—spending money lavishly for news, and as lavishly for brains to handle it. It gives, with absolute fairness and all possible accuracy, the news of the whole world best worth the attention of intelligent men and women; and is recognized as the authority on political, business, bank, railroad, and financial, literary, educational, scientific, social, and religious intelligence.

THE TRIBUNE is heartily Republican; and believes that the restoration of the Democratic party to power, after twenty-four years' exile, would be as disastrous as a revolution. Every important material interest in the country dreads such a change in 1884. THE TRIBUNE confidently believes it can be prevented, and to that end asks your aid.

THE TRIBUNE is always on the side of morality, good order, reform, and progress. It warmly sympathizes with every practical effort to restrict the traffic in intoxicating liquors. It always favors the cause of honest labor; and in the interest of the American Workingman supports a Protective Tariff. It has no interest, for or against corporations, to hinder its taking the just and fair course, best for all the people and the whole country. It is the organ of no person or faction, is under no control save that of its Editor, and knows no obligation save that to the public.

THE WEEKLY TRIBUNE has been for a third of a century the favorite of our substantial rural population. It has a larger and wider circulation than any other weekly issued from the office of a daily in the United States. A complete weekly newspaper of sixteen and sometimes twenty or twenty-four pages, its agricultural matter is believed by farmers to be the best published. It contains full markets and many features of interest in the home circle. This year two series of special articles will be printed, one for young men, the other for farmers. Every grown man knows by his own experience that young men would make greater progress in life if they knew the practical maxims that ought to govern them, and which have actually governed the men who have risen from poverty by their own exertions to the positions of power or wealth. THE TRIBUNE will print, in the course of the year, the lives of a number of prominent men, written either by themselves or from their lips, with this object in view. The other series will be upon important Farming topics.

THE SEMI-WEEKLY TRIBUNE is the best substitute for the Daily. It has all the matter of the latter of more than transient interest, and all the special features of the Weekly. Sixteen to twenty pages.

THE TRIBUNE will be indispensable during the Presidential canvass.
